Thread: [\[Done \] Need special character for username](#)

SIM-2412628 - May 14, 2016, 6:52 pm

I would like to have my username appear as closely to Beam as I can. I know there are special characters that look extremely close to regular letters so that's what I'm after.

Preferably the E or A as they would be less noticeable.

Thanks !

Advantageous - May 14, 2016, 6:53 pm

Try alt + 133 (à), hopefully that'll work!

Mino - May 14, 2016, 6:56 pm

? Enjoy man! Hope this helped

Mouse? - May 14, 2016, 6:57 pm

You know that if you use uppercase beta, it can look exactly like it. e.g.

?eam.

Brendan - May 14, 2016, 6:57 pm

I normally ALT+0157 when I do an invisible character.

Copy and paste this exactly.

Code Beam
