This is a genuine claim. The guy offered it to me for 150\$ after already selling it to DamienVC. What he did not realise is DamienVC already told me he bought it as we been friends for years.

When i get chance later ill post the PM's to prove it too. Luckily I did not fall for the trap but unfortunately I was too late to save the OP (pm'd him to inform him)

He has a brother and probably disabled it before he vacation banned as it has been the same user I've been talking to on Skype for the last year or so.

I'm so sorry you got scammed OP, I can't repay you any of the damages my partner has made any time soon because I'm broke as fuck and have bills, university debt and specialists bills for my mental health but just let me know if there's anything I can do for you.

I don't understand why Cyan is not Banned yet from the forum :/

Can anyone explain how much time it takes for a user to be proved as scammer (once their information is submitted to deal dispute database) ?
