Thread: [\[Weekly\] Steam Games Giveaway - #1](#)

**FDBMAN** - May 15, 2016, 6:03 am

Greetings, HF

I have enjoyed my stay here and I appreciate all the help you have given me, whether it was you or your friends who helped me.

Getting to the point, I would like to start to host a weekly giveaway for steam games, rules are pretty simple, and every week we will have 2 winners (except this first week, I only have 1 game to giveaway) the games will be different every week, I'll let you know of the game before the giveaway starts

Rules:

- post just once
- If you post for more than 1 time you lose the privilege to participate
- You Must meet the Requirements

Requirements:

- must be Uber or L33t
- More than 5 rep
- More than 25 posts

How to participate:

Participating is just at your finger tip,  
all you have to do is post below picking the game that you wish to get incase if you won

Winners:

Winner(s) are selected randomly through their entry number. your entry number is the post number that you get from your post

A random number will be picked/generated via random.org to reveal the winner(s)

Question: Do you want me to make a separate new thread every giveaway or just keep this one once and for all?

Pro's and Cons for you

Pro:

If you're in-active in this section, then all you need to do is just post once and will stay here for the rest of the time, so you don't need to constantly check or post again

Con:

If you're active in this section then it is better for you if I create a new thread every week so that those who are in-active will not be counted which will increase your chances in being one of the 2 winners.

Previous winners and upcoming games:

[Earth 2150 Trilogy](#) (From 14/5 - 21/5) Winner = [Danny Khalifa](#)

[Decay: The Mare](#) (From 21/5 - 28/5) Winner = [DuguWudi](#)

Separate posts in my opinion,

Thanks

Answer on your question: I'd prefer separated ones imo. Maybe you could make like one main thread and update it every week with the week number and giveaway link, but that's all up to you ofcourse.

Thanks for giving back to the community by these giveaways and good luck to everyone!

We don't allow SELLING of Steam games as keys or gifts. You may only sell Steam accounts in the Non-Free Accounts forum in the Marketplace.

This rule applies to people selling steam games, keys or gifts, not to people who give away steam games, keys or gifts.

I would not like to enter for this game, i but i'll stay tuned for others.

Also i think it's better to make separate threads for each giveaway.

FDBMAN - May 20, 2016, 6:25 pm

Congratulations to Danny Khalifa, and since is my first time i left out those gifs above for everyone to see that i am not cheating or making my friends win, nor do I know "Danny"

I've decided that i will keep stuff on this thread for the time being and we will see how it goes.

Next game will be announced within the next 48 hours due to some delays

Danny Khalifa - May 20, 2016, 6:54 pm

So happy that I win, waiting for the OP to give the code!
