pinlover - May 15, 2016, 1:24 pm

how do i get the builder ? i only got the code

?Dead - May 15, 2016, 1:28 pm

Link is on your paypal mail inbox ;)

Ooze - May 15, 2016, 1:40 pm

(May 15, 2016 01:24 PM)pinlover Wrote: [\[CITE\]](#) how do i get the builder ? i only got the code

Download the builder here

<http://ancalog.tech/AncalogBuilder.zip>

pinlover - May 15, 2016, 2:47 pm

thanks it works fine on my computer so i will try it now. is clean to 0/35

?Dead - May 15, 2016, 10:39 pm

Still gotcha vouch copy for one rough boy ;)

SIM-2059193 - May 16, 2016, 7:07 am

any vouch copies? ill write a full review on it if i can get one

?Dead - May 16, 2016, 7:12 am

Gotcha one, for one file.

PM me with mail

Now we are accepting bitcoins (temporary, i need to purchase ub3r & thread stick but im too lazy to play with localbitcoins :p) New package available to purchase, lifetime + custom build for 75\$

SH?D? - May 17, 2016, 3:50 am

gotta try out this out bro

?Dead - May 17, 2016, 9:39 am

XLS Fuded

<http://nodistribute.com/result/RluFaEc4pWZKzLHQ>

(May 17, 2016 03:50 AM)Berries Wrote: [\[CITE\]](#) gotta try out this out bro

did you try this product out? do you recommend?

YayHar - May 17, 2016, 2:39 pm

inb4 u send me vouch copy because you love me.

ekwueme - May 17, 2016, 3:45 pm

i need a vouch copy,give me one bro.remain blessed

hello,
please i need to know more about this tool.how long do you stay before u refud
does it bypass antiviruses,can i put my own pics in doc or xls after build,whats the execution rate.is
it macros enabled or silent.does it work on all versions of office.does it require powershell to execute
payload.if the size of exe is like 2.89mb can it execute easily.
best regards

?Dead - May 18, 2016, 12:52 am

Doc is remaining FUD for month and more, XLS was refuded yesterday but McAfee is detecting
malware inside.

You can put your own pic in xls, but in doc you must be careful to not to destroy file structure.
2,89 is big file but it will be working. It doesnt require anything only Office 2007-2016 with macro
support, no matter which windows version.

ekwueme - May 18, 2016, 1:27 am

Is it silent or macro enabled

?Dead - May 18, 2016, 1:37 am

This is FUD macro. Fud due to exploit in file structure

New feature, USG for XLS
Every file is unique in 80% (for the same file crafted again)
IT WILL ALLOW TO STAY FUD FOR LONGER PERIOD!
[img]<http://NoDistribute.com/result/image/rMzNWbxpU9iBAd6LGDa.png>[/img]

yeswecandoit22331 - May 18, 2016, 5:44 am

Hi
is it possible to display french text in place of english text at the word document opening ?
Thanks man

?Dead - May 18, 2016, 5:50 am

Yes, you can edit generated files. I will help with this, we dont want to broke documents, isnt?
Doc refuded + USG

Ooze - May 18, 2016, 7:24 am

VOUCH for this HQ product, I have the lifetime version and will be sure to update you guys on
whether it is still FUD.
As of now the exploit is still FUD for .doc and .exe
Its extremely easy to use and generates the .doc for you.
Defiantly worth the cheap price to get some HQ slaves.

Make sure not to scan it on virus total or other sites that distribute.

yeswecandoit22331 - May 18, 2016, 8:51 am

(May 18, 2016 05:50 AM)TheL0rd Wrote: [\[CITE\]](#) Yes, you can edit generated files. I will help with
this, we dont want to broke documents, isnt?
Doc refuded + USG
One precision please sir ,
the .exe is embedded on doc or xls file or it's only the download link who is embedded in the

document ?

Thanks man
?

?Dead - May 18, 2016, 8:54 am

Exe is embedded in document, then is spawned 'n executed as admin due to privileges escalation in exploit. No prompts :)

ekwueme - May 18, 2016, 11:58 am

please whats the difference between the one of 55 usd and 75 usd?

i want to purchase that of 75usd but if i click on the purchase button it redirect me to fill my email

?Dead - May 18, 2016, 12:21 pm

Because this is custom build, unique requirements for user. If you want additional features, this package is for you

Eg. custom macro with spawning content feature

Thats why u redirected to mail, we need to post your requirements

I got report about bug which makes extraction taking long time.

I will fix it tomorrow. Please do not purchase it right now.

Users with single file licence will be refunded!

Bug fixed, now everything is fine

adantee009 - May 19, 2016, 3:21 am

I got what i paid for..This is a great exploit, FUD and work as it is advertise.Big Vouch to TheL0rd the great Coder..Happiness

ekwueme - May 19, 2016, 3:23 am

yeah all bugs have been fixed.ancalog is a nice and straight forward guy.his support is awesome and his tool is awesome too.

?Dead - May 19, 2016, 5:29 am

Yea this bug was issued with yesterday update.

I'm glad that you enjoyed my software

yeswecandoit22331 - May 19, 2016, 7:22 am

Hey ?

Does it work with office 365 sir ?

thanks

?Dead - May 19, 2016, 7:32 am

Yes. 365 should have macros support

?Dead - May 19, 2016, 11:34 pm

(May 19, 2016 11:32 PM)shiznith Wrote: [\[CITE\]](#) Hi Op,

I sent a pm regarding the payment , but no response yet.I had to addicentially delete your message before i have upgraded account due to limit :/ Sorry

riddickval - May 19, 2016, 11:56 pm

please i wanna know, is it silent or macro

?Dead - May 20, 2016, 12:00 am

This is my friend macro. Silent costs 90x more money

ekwueme - May 20, 2016, 12:27 am

I bought this tool few days ago but I could tell u the result I have gotten is awesome.very simple and easy to use,works like charm.the owner is also a nice and trust worthy guy,always ready to give support.I love ancalog.one of the best coders on hf

?Dead - May 20, 2016, 5:53 am

Thank you. I'm glad that you enjoyed my software

Ooze - May 20, 2016, 7:28 am

New Update still FUD

Getting some sweet slaves

[img]<http://NoDistribute.com/result/image/YEWHgxM6bAc83OF9X.png>[/img]

ekwueme - May 20, 2016, 8:21 am

please stop using the word slaves or victims on this thread please.lets just keep what we doing with the tool to ourselves please.

i know what am saying.

thanks

?Dead - May 20, 2016, 12:02 pm

This is made for educational purposes ?

Doc was being detected by gmail after 1,5 month. I've refuted it now

ekwueme - May 21, 2016, 5:25 am

thanks for refuting,you are indeed a nice coder

spooky hacker - May 21, 2016, 9:02 am

HUGE Vouch for this guy. He's very friendly and knows his stuff. Do not hesitate to buy.

?Dead - May 21, 2016, 11:07 am

Thanks for kind words. I'll do my best to keep this soft HQ

Insane Developer - May 22, 2016, 3:26 am

BTW is this silent or Macro? Cuz if it is macro then it is kinda "shit".

?Dead - May 22, 2016, 6:58 am

Silent didnt cost \$10

My exploit is patched vba bytecode which gives ability to every malware macro to remains invisible for antiviruses

Btw. I'm making PDF Silent exploit which will be sent to all with lifetime licence for free so stay tuned!

huongviet - May 23, 2016, 1:46 am

(May 22, 2016 06:58 AM)TheL0rd Wrote: [\[CITE\]](#) Silent didnt cost \$10

Btw. I'm making PDF Silent exploit which will be sent to all with lifetime licence for free so stay tuned!

When will this "Silent PDF Exploit" be available bro

?Dead - May 23, 2016, 2:02 am

I dunno yet, i have hard time. It will be announced officialy on these days

WaveRyder - May 23, 2016, 11:38 am

AM intrested in buying a Bin to test this out, once i pay when do i receive my copy? Also does every build you make come with that template listed in the thread?

?Dead - May 24, 2016, 11:38 am

Yes. Template for doc is inside package

I have worked on PDF silent exploit for few days.

Now i get really nice pdf with downloader, sendable via gmail, low detection.

But it ask user at start for opening and did not work with latest Adobe DC

<http://nodistribute.com/result/etcdgDsECNbTjiKuz>

WaveRyder - May 24, 2016, 6:36 pm

Vouch for this product, 0/35 fud and actually works, i tested this on some few systems and got every connection, also this is the most easy to use tool that generates the .doc file for you with a nice template, with a good SE letter this would definitely rake in tons of bots. Also i bought the lifetime license so i hope you will send me the silent pdf builder once your done OP :) and GLWS.

?Dead - May 25, 2016, 12:49 am

Yeah, when silent PDF will be done you will receive your free copy. At this stage i have not-silent version

yeswecandoit22331 - May 25, 2016, 1:34 am

Great exploit from The Lord ???

its exploit works like a charm, moreover its 100%FUD at the moment.

If somemone search a good and affordable exploit, dont hesitate to buy from him.

??

(May 18, 2016 05:50 AM)TheL0rd Wrote: [\[CITE\]](#) Yes, you can edit generated files. I will help with this, we dont want to broke documents, isnt?

Doc refuded + USG

Hey TheL0rd ?

can you give me advice to modify template when my doc file have been generated please ?

Thanks

?Dead - May 25, 2016, 3:49 am

DOC will be refuded will new update containing .pdf .hta and .chm exploits

ekwueme - May 25, 2016, 8:45 am

ancalog the best coder on hack forums,you are the bomb man

allhaxors - May 25, 2016, 11:44 am

Vouch for this product, 0/35 fud and actually works, :)

i bought the lifetime license so i hope you will send me the silent pdf builder once your done

Big Voucher

?Dead - May 25, 2016, 11:55 am

Yeah, when silent pdf will be done, it will be announced and everyone with lifetime will get access to this pdf for free

By the way, in next updates i will add built-in crypter and maybe some RAT?
Everything will be include in this package

allhaxors - May 25, 2016, 9:58 pm

(May 25, 2016 11:55 AM)TheL0rd Wrote: [\[CITE\]](#) Yeah, when silent pdf will be done, it will be announced and everyone with lifetime will get access to this pdf for free

?Dead - May 27, 2016, 4:55 am

My pleasure, dear customers
Stay tuned for updates ?

WaveRyder - May 28, 2016, 4:29 am

Vouch loving this product, works like a charm, new updates tested and all exploit working, keep it up bro:)

?Dead - May 29, 2016, 11:15 am

Thank you all for kind words which makes me want to upgrading software.
New fud exploits are coming with private crypter inside
Stay tuned

Dev note:

At this moment i working on:
SFX Ole exploit which allow to code execution from crafted sfx package of WinRar
PowerPoint nonmacro exploit (a lot of detection atm :/)
MCL exploit for Windows Media Center, silent and FUD but require WebDav or Samba access so it will be only for advanced users with IT knowlegde
Silent exploits for Word, Excel
Silent PDF
Built-in Crypter

When it will be done, price will arise
?

?Dead - May 31, 2016, 2:43 am

Well, i got SILENT DOC exploit, 10/35 but sendable via gmail (private)
Anyone intested? If yes i will add new package

F*CKING SILENT ALMOST FUD

<https://scan.majyx.net/scans/result/cec613a0fe53e0b1258e773837576dae86b3e7e6>

? ?

Please add!!!

And have a good day!

?Dead - May 31, 2016, 9:30 am

I will add it in few hours, then prices will arise so if you consider purchase, please hurry up

Everyone with lifetime licence will get ability to use one file for silent.

New package will be added silent + lifetime -> Ancalog Ultimate for (im not sure) 250-300 \$

ekwueme - May 31, 2016, 3:20 pm

ancalog is one of the best and most compasionate builder of exploits

i have ever come across.his products are wonderful i must say.his silent

doc is the bomb.worked for me like magic.huge vouchhhhhhhhhhhhhhhhhhh for the man

love your product bro

?Dead - May 31, 2016, 10:27 pm

Thanks for vouching dear users

adantee009 - June 1, 2016, 4:37 am

Ancalog, this Guy really knows what he is doing i belt He is one of the best coder on this great forum.Very friendly and Listen hears including great support.Kisses and Hugs my man.Best exploit

Onlinerresolve - June 1, 2016, 7:42 am

I just bought this will play around with it and leave a detailed review when I get home

?Dead - June 1, 2016, 8:27 am

I will refud doc and xls when i back to home

Alright, everyone please download version v1.6.16

holybishop - June 1, 2016, 10:27 am

Posting here for future purchase. Good luck with sales

Valeant - June 1, 2016, 12:12 pm

Just to confirm, I can edit the xls file right? And it's FUD (even when they have to click the macro)

?Dead - June 1, 2016, 12:18 pm

(Jun 1, 2016 12:12 PM)Econ_Undergrad Wrote: [\[CITE\]](#) Just to confirm, I can edit the xls file right?

And it's FUD (even when they have to click the macro)This is can for latest xls

<http://nodistribute.com/result/sdwy14ztMbJCIhIDH65eQ>

1/35

My doc and xls usg macro never goes more than 3/35

@EDIT:

I wonder who lowering thread rate? Competitors?

dcross23 - June 2, 2016, 9:56 am

does the silent word work on only office 2007

Onlineresolve - June 2, 2016, 11:52 am

So here is my review of this builder. I recently purchased it yesterday for a deal of 55\$. The macro exploit works great with no problems. I tested it on Windows XP machines 32/64 bit and I tested it on my Windows 7 Machine worked great. Although the silent exploit did not work on my Microsoft Office 2007 or 2010 the stub did not execute for some reason. But overall I macro exploit works great.

?Dead - June 2, 2016, 3:01 pm

Maybe you made mistake in url? Additional space or something?

Btw. Macro doc will be refuted in next 10h

GMail is detecting our "PROTECTED DOCUMENT" so if anyone have good SE template please PM me :)

Onlineresolve - June 2, 2016, 10:33 pm

(Jun 2, 2016 03:01 PM)TheL0rd Wrote: [\[CITE\]](#) Maybe you made mistake in url? Additional space or something?

Btw. Macro doc will be refuted in next 10h

GMail is detecting our "PROTECTED DOCUMENT" so if anyone have good SE template please PM me :)I do not believe so. I tested the silent doc on my Windows XP with MS Office 2007. It did not execute nor did putty.

edit:

Also you should add to your thread that silent version works with only

Microsoft Office 2002 SP3 English on Windows XP SP3 English
Microsoft Office 2003 SP3 English on Windows XP SP3 English
Microsoft Office 2007 SP0 English on Windows XP SP3 English
Microsoft Office 2007 SP0 English on Windows Vista SP0 English
Microsoft Office 2007 SP0 English on Windows 7 SP0 English

yeswecandoit22331 - June 3, 2016, 6:58 am

Hey man

Can you give me an example on how to change the document's template in your last version 3.6.16

Thanks ?

?Dead - June 3, 2016, 7:02 am

Intruccion is in zip

This is simple, just keep 24 paragraphs

yeswecandoit22331 - June 3, 2016, 7:30 am

24 paragraphs ?????

?Dead - June 3, 2016, 9:21 am

Lines with trailing enter.

In 24th line is embedded exe

Thomaz000 - June 4, 2016, 11:41 am

I want to buy.....
more detail and informations

one build ... probably in 10 days i want to buy ok

ekwueme - June 4, 2016, 1:26 pm

i hear someone saying his exe did not execute properly,maybe its because of the download link.
trying using cpanel for your download link or betterstill a good uploading site.as for me it worked
greatly without issues.
thanks to ancalog

visfinity - June 4, 2016, 2:00 pm

i will like to buy this as soon as possible

Nice job bro, Keep up the good work :) and GLWS.

visfinity - June 6, 2016, 8:38 am

Very good job,I can't wait to get this exploit.

pls i need some help on how to setup the exploit...am getting error

adantee009 - June 7, 2016, 9:17 am

Ancalog the greatest coder of Our time, the product is very amazing,great and work as been advertised.Millions Vouch for my Man.great

?Dead - June 7, 2016, 11:20 am

v7.6.16 released

Refuted silent doc to 1/35

philwilson - June 8, 2016, 1:18 am

I am really interested in buying your product. Does this come with an update ?

?Dead - June 8, 2016, 12:17 pm

Yeah, today.

HF competitors like to scan my files on virustotal. I next updates everything will be in cloud

LORD OF FULL\$ - June 8, 2016, 1:17 pm

some time they will stop the project after they might collected all the money from people sick and tired of all this shit

?Dead - June 8, 2016, 2:31 pm

Indeed, and this is how corruption on HF works.

- 1) Buy source of tool for eg. \$200
- 2) Pay next \$100 for marketing aka sign campaign, gifs, thread sticks
- 3) Get the money and have customers deep in the ass
- 5) Profit, make thousands 'till they burn you, then just change nick and go back to point no. 1
- 6) There is no point no. 4

This is how today's HF looks like

You may ask my customers how our relation look. I making updates once, twice in week
Everyone can catch me on Skype. I serve my support for everyone, even not customers

ekwueme - June 8, 2016, 2:42 pm

Yeah,the lord is one of the best persons and coders i have come across.he is just a wonderful and decent fellow to deal with.
anything he says is the truth.he will always work hard to make things work
and he is so jovial and nice with his support.the next update will make everything easy for users
i am still enjoying his tool.refuting is not a difficult task for him.he knows the job.

?Dead - June 8, 2016, 11:46 pm

Refuted macro doc. In my forge is pretty one silent doc 2007-2013 but is 8/35

Im working on this one, i think that we will get it soon

Stay tuned

v10.6.16 released

Including new silent doc 2007/2010 (av 3/35) for unlimited licences. Price was changed to 295\$

ekwueme - June 10, 2016, 10:12 pm

The Lord of exploits has done it again,pretty wonderful tool,exactly the way he says it is.if u still haven't got this then you are far behind.Goodluck the lord of exploit

SREE - June 10, 2016, 10:23 pm

nice thing, looks like the cheapest on hf. thanks i will buy 1 file and check it then buy builder

Rodriguez - June 10, 2016, 10:56 pm

Willing to buy this. But can you give like 2 silent doc use for the \$55 plan, let's try it. I am willing to buy

Onlineresolve - June 11, 2016, 12:03 am

(Jun 10, 2016 10:57 AM)TheL0rd Wrote: [\[CITE\]](#) v10.6.16 released

Including new silent doc 2007/2010 (av 3/35) for unlimited licences. Price was changed to 295\$Can you release a vid showing silent run on 2010?

adantee009 - June 12, 2016, 2:07 pm

The best exploits on this great forums. TheL0rd's really knows what he is doing. I bet if you are not with this great exploits you are still missing the road to perfections. Million Vouch

?Dead - June 13, 2016, 9:39 am

?

Upcoming features:

S/R Crypter

Silent DOC 2007-2013 (CVE-2015)

Onlineresolve - June 13, 2016, 10:51 am

Can you post a execution video with 2010?

enezfamoz - June 13, 2016, 2:01 pm

please i need this how can i buy???

?Dead - June 13, 2016, 2:34 pm

(Jun 13, 2016 10:51 AM)Onlineresolve Wrote: [\[CITE\]](#) Can you post a execution video with 2010?
<https://www.sendspace.com/file/n497nq> Here is AVI

Removed 10\$ licence because it casing leaks. Now macro doc should stay fud (0/35) longer

martigo333 - June 14, 2016, 2:33 am

Wow I'm proud of you bro, I never regretted having to buy this awesome exploit please keep up the good work. My 100% vouch for you.

rickblack28 - June 14, 2016, 2:36 am

yesterday this was \$49 (wanted to buy it), \$100 is just unafordable. glws anyways :) maybe if the ultimate package was \$100 then it would be another story.

?Dead - June 14, 2016, 12:44 pm

Good news is that I have finally prevented leaking and scanning macros by HF competitors by keep sensible data in cloud

<http://nodistribute.com/result/6cRBtb53XxSiavZksd4Vglz0>

:)

Prices lowered, thanks to my accountant, he helps me a lot with VAT tax

Now the difference is not huge

enezfamoz - June 15, 2016, 7:02 pm

still waiting to pay for this exploit

?Dead - June 16, 2016, 12:07 am

With big steps from my forge, CVE-2015 and S/R Crypter upcoming
Stay tuned ?

Russel_Novagan - June 16, 2016, 9:06 am

Exploits work very well, I really have to enjoy with Ancalog. GLWS

LORD OF FULL\$ - June 17, 2016, 12:01 am

the website is even down, nothing at all again to pay... am sure you will run away soon when you

might have collect all people money.....

?Dead - June 17, 2016, 3:15 am

xD

Website is down because was designed for keylooger, I must redesign it. You still can pay via AIOBuy or catch me on skype

yeswecandoit22331 - June 17, 2016, 5:24 am

Hey everybody,
is that someone has tested with office 365 ??
I've planned ton infect someone who use office 365.....

Thanks for the reply

markworld - June 18, 2016, 2:23 am

is this silent doc exploit still fud and working fine?
or is the project on hold?

?Dead - June 18, 2016, 3:45 am

Everything is working
Silents ratio 1/35 and 3/35

skoosy - June 18, 2016, 11:16 am

can someone that has lifetime package and wants to upgrade to the ultimate package get discount or must pay the full amount?

?Dead - June 18, 2016, 11:19 am

He receive discount equals to before payment.
So lifetime users which want to upgrade licence pay only \$257

zharfan - June 18, 2016, 9:48 pm

(Jun 18, 2016 11:16 AM)skoosy Wrote: [\[CITE\]](#) can someone that has lifetime package and wants to upgrade to the ultimate package get discount or must pay the full amount?

Thanks for vouch

I'm Online now for taking order and support fast response , please add me on skype zharfan.pasca

?Dead - June 26, 2016, 8:29 am

During work on crypter i got idea.

In these times, there are plenty of good crypters but is very hard to find stable and reliable RAT
So i've changed my mind and now my next bus stop after releasing Silent 2007-2013 will be RAT
connected with exploit builder.

I think it will be my another product, independant on Ancalog. Well since will can't handle it on my
own i've decided to left in background as developer for next project. Another person will take
helpdesk on his shoulder.

Why am I telling it to you? Because everyone with licence for Ancalog will receive discount coupon
for next product.

I don't know the price yet, be we all know each other and you guys know that my prices are good
for every wallet.

See you soon :)

enezfamo - June 26, 2016, 9:15 pm

good bro hope you release the 2007-2013 soon

?Dead - June 28, 2016, 12:14 am

I have refuted macro doc and silent v2 (4/35 to 2/35)

OccidoLumen - June 28, 2016, 12:35 am

I would like to purchase your exploit. Can you recommend a keylogger I can use with it. Thanks.

?Dead - June 28, 2016, 12:37 am

Ancalog is compatible with every exe, so every FUD keylogger will be good

Iconic-One - June 28, 2016, 6:34 am

Vouch for this product, it works as stated by OP, very much worth every penny, Thanks.

?Dead - June 28, 2016, 11:24 am

very sharp product, enjoys every bit of it.

?Dead - June 29, 2016, 10:14 am

<https://www.sophos.com/en-us/threat-center/threat-monitoring/malware-dashboard.aspx>

Is that there trend for docs, our family gotcha 1st place in threir summary

I have discovered new exploit in doc (0/35) in the wild, DLL Hijacking of non-ASLR module.

Will work on every office but not every Windows. The point of insertion at now is to join it with other
CVE to make extraction of DLL from overlay data. Exploit is very very small. Im not sure but it may

be CVE-2015-2369. Further researches will give more info.
Stay tuned :)

ekwueme - June 29, 2016, 1:42 pm

best exploit coder of our time, i believe in you bro, you will do it
because you know it and Jah is always by your side

AnonLiv3 - June 29, 2016, 4:35 pm

YES Ekwueme ... Correct Ancalog Exploit is the Best Exploit on HF and i give my VOUCH for his Product 200% Good Support from both the coder and Help Desk Assistance Keep up the good work Ancalog the Sky is your Limit bro ... much Love no Homo ... i just got my license and am about to enjoy the great features this Multisploit Kit Possess ... Please Ancalog Silent 2007 - 2010 is 3/35 at the moment ... thanks and God bless you more

?Dead - June 30, 2016, 12:34 am

I got 2/35 version but i will release it when present version reach 4/35 to keep limit of 3/35.

This is convention of refud. When exploit is not sendable by GMail or is more than 3/35 then I always release fix.

Thanks to this method I can serve updates for long time.

In other case Ancalog output would be abused and AV scanners would know static points of files. At now, simple renaming or reobfuscation is enough to confuse scanners. Let it stay forever.

Today i got some important IRL stuff to do, I will be online later, after 4pm CET

All remaining case please solve with Ancalog helpdesk

Cheers ?

By the way i will be away 2/7/2016 - 9/7/2016

Keep in mind that post:

Quote: I have discovered new exploit in doc (0/35) in the wild, DLL Hijacking of non-ASLR module. Will work on every office but not every Windows. waiting on you so bad

uzmod - July 9, 2016, 4:46 am

vouch for this product and waiting for the new awesome update from the best Coder in HF.

?Dead - July 9, 2016, 11:05 am

Hello, i'm back but i have issue with my hdd, i send it to recovery company so update with cve-2015 will be delayed for few days. This is totally not my fault, Seagate shit stops to work after 3 weeks, i didnt backed up latest exploit. In meanwhile i will release semi-silent. This is non-silent and non-macro, my sources tells that is the most effective exploit in market in present day. Sorry for delay once again. Exploits from cloud (silent v1, v2, macro doc etc.) will be refuted asap.

Glad to see you again

P.S. Since my HDD is dead I will be offline on Skype till tomorrow (I need to purchase new hdd but is quite late now)

.*

ekwueme - July 9, 2016, 11:39 am

Welcome back man,we missed u and d update.good to see u back

?Dead - July 9, 2016, 1:00 pm

Silent v2 refuted [2/35]

<http://nodistribute.com/result/luLVkPQGAsUpwvmMFd>

Avast is not detecting anymore

Refuted to 1/35

[img]<http://nodistribute.com/result/image/TFkHnrO6huibtpYmRZ.png>[/img]

ekwueme - July 9, 2016, 2:45 pm

ancalog is back and better with his tremendous updates as usual,1/35 for v2.keep it up man.

skozy - July 10, 2016, 11:45 am

can silent exploit work with jar files or it works only with exe?

?Dead - July 10, 2016, 10:37 pm

Well, i have never tested it, but may it work. Besides you can always use jar2exe or similar tools

ekwueme - July 11, 2016, 8:55 am

ancalog still remains the best,even those who sold for a thousand box cant be compared to this wonderful tool.

big up man.you are Messiah sent.

zharfan - July 12, 2016, 1:53 am

Still developing new exploit and refuding wait for this

sandiegoace - July 13, 2016, 5:01 am

please how can I upgrade to the latest version?

?Dead - July 13, 2016, 5:05 am

Here: <http://ancalog.tech/AncalogBuilder.zip>

CVE-2015 will be included into Ancalog in next update for free (Hopefully in this week) for every ultimate user

Stay tuned and be patient :)

coocochi - July 14, 2016, 3:28 am

Really cool exploit, Enjoying what i paid for, This guy knows his exploits well. Do not hesitate to deal with him.

baow - July 14, 2016, 8:22 am

baowef this is my skype :)

I plan to buy , for now excellent assistance at the moment thanks :)

ekwueme - July 14, 2016, 2:06 pm

I cant stop saying this,ancalog still remains the best exploit coder.
very cool exploit and a good guy too.keep it up man.

okotoko - July 15, 2016, 1:17 am

is it micros enable OR silent ????????????

Dude how much is the license?? unlimited build and unlimited silent add on, 70\$?

sowag1 - July 15, 2016, 2:05 am

For \$70 you get the lifetime package where you get unlimited builds of Macros (with updates) and 1 silent Doc which infects only 2007. While for the the Ultimate package you get unlimited builds of Macros and latest Silent with updates for both and unlimited builds for \$327.

?Dead - July 15, 2016, 2:26 am

...and upcoming CVE-2015 silent for 2007/2010/2013 will be provided into \$327 licence

Upcoming update changes:

Numeration of version will be changed to YY-MM-DD

I will remove CHM and HTA, propably XLS maybe removed too (im not sure about xls yet)

CVE-2015 silent doc will be introduced for Word 2007/2010/2013

Macro DOC now will get small size and several engines to increase USG feature, with additional randomization in every generated file

Some minor GUI changes.

Predicted date of update is 20 July

Quick mockup:

enezfamoz - July 15, 2016, 5:28 am

hopefully this update is released today????

Thanks Mate..

?Dead - July 15, 2016, 10:35 am

Not today, i have to recode Ancalog from scratch because HDD recovery failed. I have rebuild much part of code (see pic), i hope update will be done tomorrow or at least in Monday

zharfan - July 16, 2016, 11:56 am

For taking order and fast response add my skype zharfan.pasca

uzmod - July 17, 2016, 3:27 pm

am loving everything about this product. the way they owner gets to update every now and again is just awesome.

?Dead - July 18, 2016, 2:03 am

I'm pretty sure that everyone will spread cve-2015 now. Keep in mind that i do not want make refuds every day so USE FILE WITH BRAIN! Do not do any spam campaing, only direct action. If file will be abused, i will be making refuds for cve-2015 once per week

enezfamo - July 18, 2016, 2:33 am

where is the download link for latest update??? cuz am still seing the old version

ekwueme - July 18, 2016, 3:12 am

welldone ancalog,you are the man of the year.

Jah bless your days and also the work of thy hands.

your exploit is the best on HF and any other sites.

i have tried many and i have come to a tentative conclusion that ancalog is d best for now.

AnonLiv3 - July 18, 2016, 6:42 am

Ancalog has done it Again :) Big Big Vouch to the best Coder on HF!! Bless UP BIG for this update .. Ekwueme you right brother ... the best and will always be too reliable ...

locaman234 - July 18, 2016, 7:17 am

The awesome comments are vough can't be ignored. Please do you still have the SILENT PACKAGE AVAILABLE ? If Yes, what is the price ? I am very much interested.

Decoy doc for cve-2015 is like template png for macro. Nobody cares what you put there

Breaking news:

I have sucessfully reconstructed poc from CVE-2015-2545 exploit.

This is silent .doc exploit for Word 2007-2013 (for Win 7 32 & 64 bit) which bypassing Protected View and Sandbox

To do:

-Refud because is 2/35 now

-Write x86 shellcode

Stub is very small around 100kb and exploit is very fast. I think about insert it into Ancalog, but you guys have cve-2015 already ?

Price changed to \$269, i cant login to AIOBuy because is dead again :/

zharfan - July 19, 2016, 2:01 pm

papyrus36151 - July 25, 2016, 8:59 am

plz bro i have buy on aiobuy and i haven't receive anything into my email. thank

?Dead - July 25, 2016, 11:05 am

PM'ed you with code. AIOBuy will send same mail to you. It has delays today

CVE-2016-0189 is on my forge.

This exploit require only to visit crafted website by IE11 (works with Windows 10)

Vulnerability was patched 1,5 month ago, so there is still tons on PC ready for penetration tests.

There is possibility that every app with IE engine is involved.

Exploit requires own hosting so if there is any skid with lack of this skill, please do not take my time. Once again Microsoft show where he have their users

jesusuku - July 26, 2016, 12:19 am

Pls make the new video as my everything I built is not working or do you need to change or recheck my license?

Make Video of the New Version

?Dead - July 26, 2016, 12:30 am

@Up please write to us on skype. Making new video is senseless for showing how to paste URL and select decoy. If it not work on your PC that mean you have patched system. Google up terms "exploit", "patch"

CVE-2016-0189 confirmed, executes from Windows 7 to Windows 10

Quote: The Microsoft (1) JScript 5.8 and (2) VBScript 5.7 and 5.8 engines, as used in Internet Explorer 9 through 11 and other products, allow remote attackers to execute arbitrary code or cause a denial of service (memory corruption) via a crafted web site, aka "Scripting Engine Memory Corruption Vulnerability," a different vulnerability than CVE-2016-0187.

Spoiler ([Click to View](#))

CVE = Common Vulnerabilities and Exposures

[img]<http://image.prntscr.com/image/a4e7758bbbd145d59bcd0e49b2baf296.png>[/img]

0day is 0day, not common vulnerability or exposure

Thanks no

Fix this shit.

?Dead - July 26, 2016, 1:35 am

90% of my users even do not know what is this "0day"

Besides, 0day is in meaning of vbaProject.bin internal storage exploit which allows read content of macro ONLY to Office's IStorage. There is no official CVE for it. Ancalogs use macro old as sun, but only few AV (often no one) have signatures but only for static points in vbaProject.bin, not in macro code. Why? Due to nice weakness found by me. If you want, check builder's vbaProject.bin and regular vbaProject.bin.

This allows me to refud macro with low costs, eg. by putting new line. And this is this 0day

I hope that by shit you mean lack of comma in thread between 2016 and 0day

zharfan - July 26, 2016, 6:45 am

For taking order or need support and fast response add my skype zharfan.pasca

?Dead - July 26, 2016, 6:46 am

Scheduled break:
2016/08/01-2016/08/10

Ancalog will be unavailable on these days. Auth servers will not work for silent exploits.
This is required to serve quality of product. Silent exploits will be recoded.
I have to do this due to much abuse made by skids.
I will search and ban users who spam silents everywhere.
I'm dissatisfied of knowlegde level of big part of users.

After break every silent version will UD as is possible, remember i do not give any warrancy as it stays in Terms of Service

PS: Macro, PDF and IE will be available during break.

AnonLiv3 - July 26, 2016, 11:00 am

Hello Ancalog please i will love to know when Silent V3 will be Updated thanks a lot and Kudos to you bro

yeswecandoit22331 - July 26, 2016, 12:06 pm

Hi Ancalog,

i have issue at the moment with your last version 16.7.26. ??
I use MS Word Doc exploited macro USG with netwire stub embedded.
my stub works well, it's fud and it works well when i execute it alone on a slave machine with avast as AV.

My issue appear when i embed it on a doc file with your exploit builder.
i've tested it on a Vm with avast and when i open doc file and clic "enable macro" avast detect a malware (ms.exe) and block execution of exploit

look at this screen capture please man

<https://www.sendspace.com/file/wnekz1>

can you help me ?
i have used your builder a lot of times and i never encountered this issue so far.

Thanks for your help my friend
?

hey man, how does the PDF exploit work? And is it compatible with X(I doubt), or only 8 & 9?

Regards.

?Dead - August 8, 2016, 12:09 pm

@up something like macro. Compatible with every adobe with unlocked launch action

CVE-2015-2545 will be released soon as free update for beta testing.

This exploit is silent doc with protected view bypass. Stay tuned for more info

With update v16.8.9 i had to remove v3 exploit due to impossibility to refud. Exploit was very abused. It will return in few weeks.

Silent v4 (CVE-2015-2545) was introduced, including protected view bypass, for beta testing

Macro doc is totally refuted, there is high chance that XLS will come back to us soon

enezfamo - August 9, 2016, 2:30 am

please explain more on the PROTECTED VIEW BYPASS ON Silent v4 (CVE-2015-2545)

?Dead - August 9, 2016, 3:04 am

This is beta version of silent doc which working in Word's sandbox known as protected view

I'm not sure about compatible Windows and Office

Waiting for feedback

enezfamo - August 9, 2016, 3:16 am

i ve tried it on my pc with putty but it shows windows has stopped working and also tested on another pc

and also please try to RE-FUD V2 as it now showing 4/35 detection rate

Thanks for great work

Eagle eye nike - August 9, 2016, 6:13 am

pls can you explain to me the capabilities of the \$45 exploit

Your thread is a bit confusing. i have my cash ready to purchase

?Dead - August 9, 2016, 6:21 am

For 45 bucks you will receive lifetime licence for non-silent exploits: fud macro doc, pdf and ie.

This licence is allowed to receive free updates in future

have answered all of ur question on skype

markworld - August 10, 2016, 5:07 am

v4 not sure worked for me. tried it on sandboxie. no reports. what am i doing wrong

?Dead - August 11, 2016, 12:53 am

Thank you all for feedback about cve-2015-2545, after week of testing (and few days of reportin specs on your beta testing) i'm finally finished shellcode.

But it's not all the jokes :p

CVE-2015-2545 is escaping protected view but in Low Integrity Process. It doesnt allow to spawn process with this ruleset.

But i'm working on mixing two exploits cve-2015-2545 (Escape P.View) and cve-2016-0099 (LPE Exploit in Windows Internal) to successfully download and spawn external exe

My work is almost finished. CVE-2016-0099 is confirmed to work on every windows XP>=

CVE-2015-2545 (silent) is working on 2007,2010,2013 including service packs

It will be very unique silent doc

Thumb ups mates

crackmen - August 11, 2016, 12:40 pm

I am interested in buying the silent version send me more details by MP.

vallo4real - August 12, 2016, 2:57 am

The tools is saying it can not connect to server try disabling fireware and antivirus, or the host is not available. later it will say license key was used or it is invalid.

my fireware is off i don't use antivirus my host is working fine. pls resolve

40OFFTHEPRICEGUYS

This is one time use so, who will be first will take the discount

Summer Discount sales I guess lol... I just paid using the coupon "40OFFTHEPRICEGUYS" and I am waiting on my license..

Cheers Mate!

Monyaks - August 16, 2016, 10:48 pm

I'm your new customer. :)

Paid directly via BTC. I'll catch you in Skype to get info, and if not, please pm me.

Thx.

AnonLiv3 - August 17, 2016, 2:19 am

Please Mates has anyone used the new released CVE2015 bypass protectedview ??

Thank You

enezfamo - August 17, 2016, 2:23 am

(Aug 17, 2016 02:19 AM)Kingin001 Wrote: [\[CITE\]](#) Please Mates has anyone used the new released CVE2015 bypass protectedview ??

Thank You
i ve tried it on windows10 but did not work for me

?Dead - August 17, 2016, 3:55 am

Quote:v4 updated. It should show blank console window if doc is downloaded (left url empty in builder). Please check it on Windows 7

Please contact me if it happened with specs. Remember file must be download before run (Exploit work only in protected view)

v5 is almost finished

Edit:

Please notice if there were .exe or .dll created inside %TEMP%/OICE[...] directory, eg. %TEMP%/OICE_FDA3D579-A212-4269-87B8-0C822BFF5D5A.0

Stellen Sie TT - August 17, 2016, 4:17 am

I see many people talk about this programme.

1. V1 - What's the difference?
2. V2 - What's the difference?
3. V3 - What's the difference?
4. V4 - What's the difference?

What does the servers run down in couple of days? If so, which is the best supported Exploit for CVE 07 - 15?

I'm willing to purchase this tool with the right and appropriate answers from the support and coder team. Answers via PM is nice.

enezfamo - August 17, 2016, 4:28 am

please i will loveyou to work on refuding as u always did in the past rather than updating CVE please work on detection..

Thanks..

?Dead - August 17, 2016, 4:32 am

New CVE is the best way to refud for long term stand

enezfamo - August 17, 2016, 4:38 am

okay thanks for the best explanation, U are always the best....

Hope the update comes today???

markworld - August 17, 2016, 4:59 am

v1- worked for me

v2- worked for me

v3- worked for me (now unavailable)

v4- never did not work for me even with the latest update

what pc requirement needed for v4 to work?

?Dead - August 17, 2016, 5:01 am

v4 for beta tests is Windows 7/2010 (initially)

v4 must be downloaded because it require protected view to work

Please read my last post

enezfamo - August 18, 2016, 3:08 am

i have tested V4 on both win7 and 10 using putty and nothing popup please we are waiting the CVE or UPDATE

?Dead - August 18, 2016, 4:24 am

Which Office?

I have confirmed v4 on Windows 7 6.1 x64 SP1 with MS 2007

Still waiting for info about spawn of plugin.dll in %TEMP%...

I require Windows build and Office build

RaT KinG - August 18, 2016, 10:28 am

Hii have not been able to use the builder it says

Disable firewall i have alreadyy done that..

Contacted support but is not responding !

?Dead - August 18, 2016, 10:30 am

@up Download builder with new auth
<http://ancalog.win/AncalogBuilder.zip>

armageddonx - August 19, 2016, 3:31 am

It is messy code as below when I open it. V1, V2, V4 nothing

armageddonx - August 20, 2016, 5:45 am

V4 working perfectly now with low detection ..Nice one. Thanks

filename: cve2015-2545bypass.doc filesize: 108kb
MD5: 9c0d4433c984b5637e391ea35e3439a4

Detection rate: 2/35 Date: 20-Aug-2016 12:44:24

enezfamo - August 20, 2016, 9:41 am

i see u said v2 - 2007/2010 - 3/35

but scan result here is very poor please try and check and if possible work on
v5 - 2007/2010/2013 - 2/35 Upcoming

Thanks...

?Dead - August 22, 2016, 1:24 am

<https://hackforums.net/showthread.php?tid=5382683>

Due to upcoming period of my business I may be not able to fully control Ancalog.
If someone is interested in takin ownership of this product, auction is ready

v2 should be refudded today

enezfamo - August 22, 2016, 11:24 am

We are still waiting for the refud of v2

?Dead - August 22, 2016, 11:38 am

<https://www.pscan.xyz/results.php?id=AMvBVLtGyViUshbS>

4/35 (7kb)

Can't go lower cuz file is common now, please use v4 instead of v2

Got sample of very young exploit, CVE-2016-4117
Working on it at this moment

markworld - August 23, 2016, 7:21 am

v4 seems like powershell method.
2/35

gmail detected as virus

crackmen - August 23, 2016, 8:34 am

V4 is not working. When will an update

uzmod - August 23, 2016, 9:15 am

i think v2 has been the best but just that its been long it got refuted, v4 ain't working for me.

Th3_R0ck - August 23, 2016, 10:45 pm

v5 - 2007/2010/2013 - 2/35 Upcoming <--- When its going to get released ?

treasurehack - August 24, 2016, 1:55 am

how much do you plan to sell this project? please pm me price.. thank you

or e-mail me here st_judes_magodo@yahoo.com

got your pm. can't reply know. thanks for your swift response

Stellen Sie TT - August 24, 2016, 6:12 am

So you plan on selling ancalog out? Why?

?Dead - August 24, 2016, 1:16 pm

Ancalog is already sold. I have more profitable projects issued with real estates and marketing. Licences will still be active, you will not loose it. Exploits will still be refuted and new exploits will come to you too. To be clear, this change will not affect anyone

Ancalog will be extended in future with RAT, Keylogger, stresstests and more

New website: <http://offensiveware.com>

enezfamo - August 24, 2016, 3:55 pm

so when are we going to have new update?

V5

cooco - August 24, 2016, 11:33 pm

I have the V16.8.4, i tried to check for update but notice site is down, how do i get the recent update please?

?Dead - August 25, 2016, 1:20 am

<http://ancalog.win/Builder.zip>

Stellen Sie TT - August 25, 2016, 2:12 am

Alright. I'm currently in communication with the new owner of Ancalog. He's a very nice guy!!! IT Security Solutions, thanks for your time...

?Dead - August 25, 2016, 4:11 am

Got samples of few CVE's from 2016 of silent doc, they are already 6/35

I will try to create builder but encryption is high.

ExploTools - August 25, 2016, 7:40 am

Hi guys, I'm new Ancalog owner. If you have any questions about the Multi Exploit Builder, be free to ask me. We will start a new thread soon. All your licenses will be active and updated to OffensiveWare Multi SILENT Exploit Builder. We will climb on the next level of exploiting and give you for sell higher and more powerful license type with latest CVE-2016. Cheap upgrade option for

all Ancalog customers. We are planning to start some new projects like RAT with hiddenVNC, crypter with true runtime protection and powerful keylogger integrated with latest exploits. Stay tuned boys and girls and add me on Skype: live:offensiveware or write to me: offensiveware@gmail.com. New website: <http://offensiveware.com> . Regards

\$anchez\$ - August 25, 2016, 7:56 am

Please who will look into my licence issue. Ancalogue you are not responding on skype.

ExploTools - August 25, 2016, 8:02 am

Official contacts are on <http://offensiveware.com> Write to me with your issue.

kauf - August 25, 2016, 8:23 am

i do not understand this. is ancalog same price like before or you've increase it. your statement doesn't make this understandable.

We will climb on the next level of exploiting and give you for sell higher and more powerful license type with latest CVE-2016

Please explain mate

baow - August 25, 2016, 1:27 pm

Hi, silent exploit works on w10? ty

?Dead - August 25, 2016, 10:12 pm

New thread

munachimso - August 26, 2016, 5:43 pm

Hello when are we getting update for 2010/2013 versions besides why did you change your name i found it difficult to recognize you i hope you don't loose customers because of this. I am using your product and it is good keep it up.

eternal101 - September 3, 2016, 5:29 am

Hey, wat happens to old ancalog users before the resale. I hope they can continue to receive support for the tool.

?Dead - September 3, 2016, 10:00 am

Yeah, the only change is rebrand, licences, support etc are still active

martigo333 - October 2, 2016, 8:24 am

(Sep 3, 2016 10:00 AM)OffensiveWare Coder Wrote: [\[CITE\]](#) Yeah, the only change is rebrand, licences, support etc are still active

Wow great how do I get the download link ? I'm an old ancalog customer, thanks

So please pm me the download link thank you...

?Dead - October 5, 2016, 12:53 pm

Please read 1st post, i'm not the owner anymore

graceland - August 27, 2017, 3:57 am

(Jun 4, 2016 02:26 PM)Valeant Wrote: [\[CITE\]](#) There is a paypal and btc autobuy link on the website if you're using one of those payment options.

Could you please pm me the analog builder shop for autobuy? Thanks
