Thread: [\\$\\$\\$ Who can Code me an Instagram/Twitter Cracker \\$\\$\\$](#)

Ooze - May 15, 2016, 3:21 pm

Title is a pretty good summary of what I need.

I would like someone to code me a cracker that can crack both Instagram and twitter accounts via Combo lists and proxies.

I would like it to be Multi-Threaded

As well as display the number of followers each cracked account has.

Then be able to export all cracked accounts in order of the # of followers

Think you can do that? HMU

Travis Bickle - May 16, 2016, 5:46 am

I have a source code for a twitter cracker, you will have to edit it to get your requirements however, let me know.

I have been offered to have all of this coded for me for a cool 100

If you can do better PM me

You've fallen prey for the same situation I was ranting about. Read on it here.

Anyway after reading that and is interested in hiring me then hit me up, I have a freelance service thread that has been opened for nearly up to a year now.

<https://hackforums.net/showthread.php?tid=4907053>

Tons of vouches, tons of happy and satisfied customers. If you want to deal with an experienced developer then let me know. As a bonus, I can assure you quality and finish coding your program on the same day you hire me.

Ninja - May 16, 2016, 7:59 am

I can definitely do it as I already have login functions for both websites, but \$100 is too less. If you are willing to up your price then feel free to PM me.

Ooze - May 16, 2016, 12:15 pm

I may have found a coder but still open to hear why I should choose you
(PS if you want over 100 don't even bother sending a PM)

Rikk?a - May 16, 2016, 12:17 pm

Ill do \$100 if you want I still need to speak to my friend regarding this.

Uodate: Take me off your ignore list you cunt.

Not sure why I should trust you coding abilities over anyone else

Especially at more than their price

Because he can code and you can't.

(PS if you want over 100 don't even bother sending a PM)

It says OVER, I'm AT \$100 also trust me? Bruh you think I need some money for noodles or something?

Then offer, if I think your ofer is bullshit I simply won't accept it.

Also experienced? Please don't be a Nex.

Your right I shouldn't care whether my programmer is experienced to not,

now I remember why you are on my ignore list
