Favorite business aspect (Marketing, Finance, Etc.): My favorite business aspects would consist of the building of a project (watching it come together) and reaping the benefits of your hard work when the profits roll in.

Why should I choose you: I would be absolutely devoted to Apex, as it would be the only group I am in. I would be actively involved in the subforum and in any group projects. I would spread my knowledge within the subforum as well as actively absorb the knowledge of other brilliant users in an effort to improve not only myself, but the group as a whole.

Why are you passionate about business?: I have just always had a drive in my gut to do something significant, and reaping the rewards of a successful venture really pleases me. I love to the teamwork aspect of project work, as well as the critical thinking that is required to prosper.

What is your biggest weakness: I'd have to say my biggest weakness is my ambition; I often times jump into things without fully evaluating the situation. I believe I can work on this over time, and through business experience.

What is your biggest strength: My drive to work hard, and my ability to collaborate well with others. I am easy to get along with, but when it's time to go to work that's just what I do.

I'm keeping this application simple. I hope to be accepted based on my drive for success and ability to collaborate and learn from others, not my ability to make a pretty application.

Age:

I am currently only 15 years of age - they say starting young is best!

Location:

I live in the United States.

Favorite business aspect:

Business all around intrigues me, but the financial side of things always had my attention. Besides financing, starting something from scratch and taking it to a major level is a dream and goal of mine.

Why should I choose you:

Well, I have goals and reasons to be active in the group. I have a reason to be here - to become a success! Although I'm an amateur, learning along side the group members will be a great time and you'll be able to see me grow in knowledge. I'll be insanely dedicated to achieve my dream!

Why are you passionate about business?:

As explained (somewhat) above, I have goals that I NEED to achieve in life. Of course, money is always the motivation but curiosity and the experience is just as important in my eyes. I want to be something.

What is your biggest weakness:

I'm simply an amateur. I don't know where to start nor what to do! I hope that I can be pulled alongside you and the group members arms to having a high knowledge level in the business world.

What is your biggest strength:

Well, in terms of actual business I have communication and advertising skills simply because I've experienced variations of it in the real world! Other than that, my dedication is REALLY my strength even though it's not necessarily a skill.

Age: I am 18 years of age.

Location: I currently reside on the east coast of the United States.

Favorite business aspect (Marketing, Finance, Etc.): Personally, marketing and financing are my two favorites.

Why should I choose you: I am pursuing a double major in accounting and economics next semester, and would bring some good business skills to the table.

Why are you passionate about business?: I began my own tiny business adventures here or there; there is simply something about being your own boss. I make much more money doing my own side businesses than any person my age, and it requires work that I genuinely enjoy doing.

What is your biggest weakness: When I get focused on a project, I tend to lose sight of the world around me and become extremely focused on the singular project at hand.

What is your biggest strength: I am extremely dedicated and committed to becoming successful at whatever aspect possible.

Favorite business aspect (Marketing, Finance, Etc.): Commercial/Criminal Law and Marketing

Why should I choose you: I have a lot of experience in the business world, running a few business over the course of my current career, currently just enjoying life and travelling the world enjoying the money I have earned in my time in the commercial industry and commercial career.

Why are you passionate about business?: I am passionate about business because I have seen first hand that it changes the world, I also love to experience new things. This is one of the most important things I base my life on. If you not growing and not improving yourself everyday then your not moving forward.

What is your biggest weakness:Food, I love fine food and it will be the financial death of me. ? I also love travelling which means I have never really settled down, but I wouldn't class that as a weakness, because a I don't regret it.

What is your biggest strength:I have invaluable experience in many different departments of business industry's but mainly law and marketing, this experience has totaled 15 years of my life and I will be returning to this world in 6 months and simply cannot wait.

Favorite business aspect (Marketing, Finance, Etc.): Marketing, Management, Customer Support & Customer Satisfaction

Why should I choose you: I'm hoping you will choose me so I can widen my knowledge and possibly work with yourself or other members on future projects. What I bring to the table may not be unique but I have a good understanding of marketing, management & customer support. You may of heard the term "the customer is always right" although I don't 100% agree with this, over the years I have learned to treat the customer like they are always right. Work quickly and professionally to resolve any issues. One negative customer review can turn away 1000's whereas 1000's of positive reviews may only bring a handful of new customers. Although running a profitable business is a goal, before that goal comes customer satisfaction. Happy customers = successful business.

I ran a successful VPN business here on HF, I sadly had to sell up for several reasons. I have also co-ran a 2nd successful VPN business on HF but the owner had to sell up also. I have also been an admin on another forum for probably a year and a half now and I've helped grow the community.

Why are you passionate about business?: I'll bring it up again: Customer satisfaction. When a customer leaves a nice review or props me for my services it puts a smile on my face. Most run a business for profit alone but I pride myself on being helpful and professional. Of course I am passionate about making profit, who isn't? but my real passion is simply running a successful business.

What is your biggest weakness: I'll be completely honest. My biggest weakness would be money management. When I was younger I had high paying jobs, no matter how much I earned I would spend it before I had earned it. Any profit would be spent living life to its fullest, vacations, weekend trips, basically enjoying life. Now I'm older I've come to realise that having a little tucked away is very sensible. What I'm trying to say is, it was a weakness but it's something I've worked on and now I'm

sensible when it comes to money.

What is your biggest strength: Dedication. Whether it be something I am skilled in or something completely new to me. I will devote hours upon hours of my time to make sure I complete what I set out to do. I work a 0 hour contract so some weeks I work 60+ hours, other weeks I work 0 hours. Even in those 60 hour weeks my breaks are used to devote time constructively.

Extra: Hopefully I'll be given a chance & I can prove I'm worthy once given that chance. I don't usually apply for groups but this is a sector I am really interested in. Thanks for reading.

Favorite business aspect (Marketing, Finance, Etc.):

I like taking my ideas and trying to make something out of them. But i really like to work within a business and one of my favorite parts of working within is being the one to market and advertise!

Why should I choose you:

Because I have a heart for business. My mind is always on providing successful services and making money. You can count that i will be bringing great ideas and strategies. I've read 3 books on this stuff and studied different marketing, financial, and product ideas since i was just 13

Why are you passionate about business?:

Man where do i start? I first acquired my love for business when i was young and i started watching "Shark Tank" on CNBC. There i discovered my desire to create something and really see it take off. From there i read 3 different books on core focuses when it comes to business. They were super boring to read but im super grateful i have that knowledge now. I know plenty on real life businesses but im really trying to get into the world of online business. I have been studying how to be successful in SEO and digital advertising. I could write on and on about this. I may have went a little off topic so i will simply answer your question by saying, my passion exists because of previous success and my belief at heart i can make it big some day!

What is your biggest weakness:

My biggest weakness would have to be when it comes to starting the overall business. I know plenty on how to run it i just have trouble organizing myself and preparing for launch. Ive been successful at this, it just seems this is where i struggle the most.

What is your biggest strength:

For sure is advertising. I have always been extremely good at targeting my audiences on different sites. I once did 4 hours of browsing correct audiences for ONE sector of my business. This may not seem like a lot but at the time it was an eternity for me! I hope i get considered, i know i wont get accepted probably but if you read this far, thanks!

R2-D2 - May 18, 2016, 3:07 am

Age:

16 (Don't worry I'm mature)

Location:

Germany

Favorite business aspect (Marketing, Finance, Etc.):

Finance and Marketing are both two of my favorite business aspects. I'm also very good at creating business plans and managing staff etc. (yes I have experience in this)

Why should I choose you:

Because I run a business. With my young age I still started my own small fashion company. Link can be found in my Signature (I don't want to self advertise here). I always looked for forums with a entrepreneurship/business sector but there really isn't a single good one. This group would be the best that could happen to me. Like really, it is always good to get some help for my business and teach other people the things I know.

Why are you passionate about business?:

As stated above because I started my own one and especially in my age it is hard and takes a lot of time next to school. Even though it doesn't always work out correctly and might not be profitable at all times I still love doing what I do and I want to share my passion. I also love watching TV shows like SharkTank. This entire business thing was flying through my mind since the beginning and everything closer to fulfilling my business dreams is a step closer to me being happy.

What is your biggest weakness:

My biggest weakness might be my age. I'm completely honest here. I still need my parents for some legal things but I'm heading in the right direction to become a independent business man.

What is your biggest strength:

My biggest strength is that I never give up and that I love what I do. Times were hard with my business. I have not made any sales, but I stood through it and brought it back to success. Another Strength is that I have many Ideas and I'm really creative. Give me two Keywords and I can create a business from it. But don't worry my Ideas are not based on two keywords, I spend a lot more time on them.

I really want to be part of this group because I can teach people a lot and I think I will learn a lot.

There is no doubt that I will be active.

Favorite business aspect (Marketing, Finance, Etc.): Product development stage

Why should I choose you: Ever since I was young I have wanted to start a business, now I'm slowly making it happen. I'm extremely passionate about business and have spent my high school years marketing myself to people and building a clientele as well as meeting business partners along the way. I am a computer science major, minoring in business, as my ideal business would be in the computer science industry. I believe it's better to know a lot of things so you can do them yourself rather than pay other to do them for you. I honestly love every aspect of business and the business world.

Why are you passionate about business?: I am starting my own company and I run my life as if it's a business. The business aspect of life is so interesting and intriguing to me.

What is your biggest weakness: I would say my biggest weakness is trusting people I don't know.

What is your biggest strength: I have many skills so I don't have to pay other people to do things for me. As I am a developer as well as a marketer, I can do most things for my projects.

Favorite business aspect (Marketing, Finance, Etc.): I've always been so interested in the marketing aspect. I love to change people's opinions and to try to get them to do something they normally wouldn't do.

Why should I choose you: I can bring my own tricks and share them with the group. I would also love to hear other peoples ideas. I believe I can bring something that not many can bring to this group and that's 2 years of REAL marketing experience.

Why are you passionate about business?: Ill be honest. Money. When I start a business, its not because I want to create a create product or a service for people. I create it because I want more money.

What is your biggest weakness: This is hard one. I think its my laziness. Even though I have 3 online businesses running I KNOW I could make 5 more and make a lot more money. This weakness is easy to bypass tho by just slapping myself in the face and start doing what I have to do.

What is your biggest strength: I can easily social engineer people to do what I want and one of my biggest strengths is that I can read people very well.

Favorite business aspect (Marketing, Finance, Etc.): Handling back-ends :)

Why should I choose you: I'm very dedicated, I'm a programmer as you can tell by my past activity on HF. I usually spend 9+ hours a day strictly programming

Why are you passionate about business?: Chasing these papers

What is your biggest weakness: Marketing / attracting customers

What is your biggest strength: Being creative, being innovative while creating my tools that I usually sell as a whole project. If I were about to learn marketing my potential would increase by a fuckton

Nyx By Night - May 18, 2016, 6:15 pm

Age: 19

Location: South-East Australia

Favorite business aspect (Marketing, Finance, Etc.): I have 2 favourite fields, project management/planning and development.

Why should I choose you: My determination and motivation goes hand in hand with my large scope of skills. With a friend I've built a business from ground up ([website here](#)) and we're now very successful and are only getting bigger. I wish to expand my area of skills and learn more about what I do not yet know in business. For this exact reason, I feel Apex is the perfect fit for me, whilst also allowing me to expand my profile on here along with my business. I'm also more than happy to share and give input on my experiences in the business scene to help assist other members of Apex. Happy to disclose revenues/profits for my business if you PM me.

Why are you passionate about business?: Working as a minion from 9 to 5 everyday is never something that appealed to me. I have always wanted to be at the top whilst also being content doing what I'm passionate about. My job and area in business allows me to do exactly that and excel as it's what I do best.

What is your biggest weakness: Negotiating business related deals is my biggest weakness, especially if it's in voice as opposed to chat. I find myself under pressure and it usually results in me being at the deep end.

What is your biggest strength: Aside from my leading roles in what I do (project management/planning, web development and design), as much as it may contradict my weakness, I'm very good at talking to people. Clearly not so much when it comes to negotiations, but I'm a very social person and love talking to other people, about anything. This has helped me a lot when working on and building my website as it's made customer experience within my business very pleasant.

Thanks, look forward to hearing back.

Age: 19

Location: California

Favorite business aspect (Marketing, Finance, Etc.): I can't pick a favorite; however, I love E-Commerce, Stock Trading, Finance and Marketing.

Why should I choose you: I'm able to provide group members my knowledge and training for free. Which could end up helping people that would like to start a business, but are unsure some of the steps. Or they simply don't know where to begin. I am able to provide information in multiple fields that can greatly improve peoples skills in different business aspects.

Why are you passionate about business?: I am passionate about business because I want to have money in my life and be able to support myself and later down the road my family. I am someone who is self-made and dedicated to create various business ideas that I come up with investors that are my clients. I've been doing this for years and I've grown a strong heart for it and love interacting with new people on a daily basis.

What is your biggest weakness: My biggest weakness would be managing money; therefore, I hire a great buddy of mine to manage my funds.

What is your biggest strength: Advertisement and manipulating people to purchase the product that I'm selling. Besides that I carry the strengths of creating E-Commerce sites that help people sell there products with out having to actually own a physical store.

Raz Riverblade - May 19, 2016, 3:19 pm

Age: 20 years old

Location: Belgium

Favorite business aspect (Marketing, Finance, Etc.): Finance, but i'm well versed in most aspects due to my education.

Why should I choose you: I'm a living source of information: I do have an economics degree and a management degree. I'm also finishing up my second year (out of 3) of Finance and insurance. After my current degree I plan on finishing with a fourth and last degree: Immobiliën. I can translate various presentations and maybe even some full courses. I believe my knowledge together with my access to courses to be almost unique on HF

What is your biggest weakness: My pride sometimes gets the better of me.

What is your biggest strength: I'm a great conversationalist.

Arizonalce - May 19, 2016, 3:22 pm

Age:

17

Location:

United Kingdom

Favorite business aspect (Marketing, Finance, Etc.):

I personally like the research and actually setting up the business. Nothing more fulfilling than seeing everything come into place

Why should I choose you:

I might be fairly young and not as experienced as others but I've ran my fair share of 'businesses' from eBay and Amazon to dropshipping fish... I would also like to share my knowledge and opinion with others whilst learning at the same time.

Why are you passionate about business?:

I would like to say it's because of the money (Which it is) but I like to see them grow and mold into something. I like the aspect of been your own boss more than anything.

What is your biggest weakness:

I sometimes have a creative block and overthink things.

What is your biggest strength: Once I get a idea I like to stick with it until it either succeeds or fails miserably.

Also, I'm gonna PM you in a few days to buy some more of your Cigars!

Favorite business aspect (Marketing, Finance, Etc.): General Management & Client Support.

Why should I choose you: I am looking to do some business here in a couple months, being part of this group would increase my trust and give me a really sexy userbar.

Why are you passionate about business?: I love watching numbers rise. I don't know why but ever since I was a young boy I've always dreamed of starting a business, as I grew older I knew it would have something to do with technology.

What is your biggest weakness: Being only 15. Also, my random sprees of drowsiness, can cause me to be offline for a few days at times.

What is your biggest strength: Being able to manage many different projects and tasks at once.

Always thought fancy thread designs were a waste of time, if that would hurt my acceptance let me know and I'll do an update

Age: 18

Location: U.S.

Favorite business aspect (Marketing, Finance, Etc.): Marketing, Developing

Why should I choose you: I'm a pretty unorthodox marketer, which I think is good if you're not looking to have 55 SEO experts in the same group. I don't touch seo or list building, but among all I excel at social media, name a social network and theres a 100% I've got the persona nailed down to a tee. I've got tons of assets, authority accounts and tiered for promotion. Constantly mass growing social media accounts, and I'm always writing software to get ahead of the game. I have no problem sharing tools or ideas with group members, I constantly do among my friends. I've actually got a couple awesome ideas for tools coming up in the near future. I don't call myself a marketer because I sold a hackforums ebook or vpn service, I have a lot of real world experience in marketing and business. I've got an llc, about to get my second one up once I finish a project I'm working on. I'm always looking for people to JV with, and my options have been pretty limited lately. I haven't applied for a group in years, but I think this would be a good opportunity to meet likeminded and intelligent people who want to make some serious money and share profitable verticals.

Why are you passionate about business?: The internets just like a real life game of monopoly, you just build assets up and watch your income steadily grow. I haven't really suffered any major losses, and I've learned a ridiculous amount since I've started.

What is your biggest weakness: Probably forum quality, I don't really post about marketing here since it's a hacking forum. I've got a lot of knowledge that I have no problem sharing, just normally keep marketing to BHW.

What is your biggest strength: I'm technical, I can reverse engineer complicated web apis and make a lot of money off of them. I almost always share this with my friends until it's patched up. I can automate the process of automation, I can develop things and market them at the same time.

If you'd like to see some of my projects or assets feel free to pm me :)

Why should I choose you: Because I am really interested in business, especially marketing and I

am already pretty good at Instagram marketing especially

Also I speak a bit French, German, English and I will learn Spanish soon. I know this is not a coding group, but I am also learning Python and C# atm.

Why are you passionate about business?: I like to think hours, days or even weeks about new strategies, if I have an idea I can only concentrate on that one idea. I just feel that business is my passion

What is your biggest weakness: Mathematics, but I am able to solve simple calculations lol

What is your biggest strength: Marketing, especially on Instagram and languages

Favorite business aspect (Marketing, Finance, Etc.):

Finance and Entrepreneurship (I own quite a few online websites)

Why should I choose you:

Because I will help you help yourself. I am mainly joining this group since I have projects I want to develop and am looking for people to help and coders etc since I cant code.

Why are you passionate about business?:

I think my username demonstrates my passion pretty well. Lets put it this way, I have not always been this fortunate and am a self made person.

What is your biggest weakness:

Time wasters, finding coders, designers , exchangers etc... That all takes time which is unnecessary.

What is your biggest strength:

I am sucessful. Where ever you put me I wil be sucessful. I am determined and will get to places. I started from the bottom and I could easily say I'm better off than most people here.

Interested in seeing the result, kept this quite short as there is no need to talk and waste time , my achievements talk for themselves.

Favorite business aspect (Marketing, Finance, Etc.): Marketing, HRM

Why should I choose you: I've graduated my IGCSE Business and currently I'm doing the International Baccalaureate Business and Management course, currently getting excellent grades.

Why are you passionate about business?: I have a very large passion for business. It started with me being introduced to it when I took my IGCSE's and I was immediately hooked, the thought of having your own business, being your own boss and working the hours you'd like amazed me. My future job will definitely be something related to business. I enjoy doing calculations such as break even, decision trees, economies of scales and much more.

What is your biggest weakness: I don't have a big weakness, I enjoy to study every aspect of business hence to why I don't have a big weakness. If I had to choose one weakness it would be advertising, I don't really interest myself that much than other business aspects.

What is your biggest strength: Anything related to calculations, how to set-up, where to get the correct employees for a job and much more. I believe I'd be a great candidate for the Apex business sector as I can bring in a lot of knowledge.

Sorry for the not so flashy application ?

Age:

I am twenty-two years old.

Location:

I currently reside in the mid-west (U.S.A.).

Favorite business aspect (Marketing, Finance, Etc.):

I love everything to do with the design aspect of business. I especially love business identity. It is a very interesting process to come up with how an entire business should present itself, and appear to the public.

Why should I choose you:

I am driven to learn more. I always want to learn new things, and share my knowledge and experience with others.

Why are you passionate about business?:

I grew up very poor.

I had to learn how to fix things on my own from a young age.

This started an unquenchable thirst for knowledge.

If I could fix anything that broke in my house, what else could I be doing differently than other people?

It is why I started learning graphic design.

I am always curious as to what goes on behind the scenes.

What is your biggest weakness:

My biggest weakness is self doubt. I second guess myself very often.

What is your biggest strength:

My biggest strength is my ability to learn things very quickly when I am driven to do so.

Why should I choose you: My passion is doing business, I love business. I love talking to people, I consider myself as a jack of all trades. I can pretty much do anything in-regard to the 4 pillars of an enterprise, and hence why I chose to take a business course for college. I've tried and done a lot of things in the past, and while I do not post anymore as to compared to before, I believe that in terms of the business context since I have a start up being built in the near future, I will be asking for a lot of advice, and I believe that I can also bring what I've learned to the group.

Why are you passionate about business?: I'm passionate about business, because I feel motivated in-doing my best. When I go "BUSINESS" mode, I usually think of business as a game, and I want to WIN the game. I freaking love everything about it!

What is your biggest weakness: My weakness is being focused at one thing at a time.

Age:

18

Favorite business aspect (Marketing, Finance, Etc.):

The financial field, because it makes it makes you think about your decisions before you act.

Why should I choose you:

For three reasons:

1) Well, today was my last day of work, I do not have an employer as of now. All my revenue is coming from currency exchanges and a RSPS that I am working for. Being self-employed should be interesting to do, and I am looking to maximize my profits.

2) I would not say I have the greatest amount of knowledge, however my knowledge is vast. I've taken several business related classes during high school: personal finance/economics, accounting, sports marketing, and AP economics. In the fall, I'll be going to college and will be majoring in economics.

3) I contribute to the forums, and hope to do more in the future.

I'm honestly not sure, but I think for me it's more a nurture thing. My grandfather was an accountant for a company and became a multi-millionaire by doing so. Ever since I was little he has gave me the money talk, and at 16 I owned my first share (stock). He has given me financial advice throughout my life and has forever impacted it.

What is your biggest weakness:

Capital. I have very little capital compared to some users and therefore have little to invest.

Favorite business aspect (Marketing, Finance, Etc.): Marketing, Advertising, Networking.

Why should I choose you: Because I really do have a passion for business, and to be in a group where people share the same passion would be amazing. It would help me expand ideas and possibly connect with other users in the group to start new startups or potential businesses. I've had quite a lot of experience with businesses, as I've owned a few and will continue to start new ones

etc. The ones I have owned have been quite successful, and I think I could expand & share my knowledge by being in this group.

Why are you passionate about business?: I don't really know, it's good knowing that you can start a business and people from all around the world are wanting to buy your product/products. I really like the feeling of being financially secure, it's really good knowing that, the things that money can buy is amazing, also I'd like to buy things for some people as you know whosoup, remember them conversations on skype :p

What is your biggest weakness: I really don't know. I don't really have a weakness, I guess alcohol is because I do some stupid shit when I drink alcohol therfor I don't drink when I need to work on my upcoming/current business/es.

What is your biggest strength: Probably marketing, people skills, IRL Networking.

Why are you passionate about business?: I want to one day be able to live off of my own endeavours, and be succesful with my entrepreneurship.

What is your biggest weakness: My biggest weakness is that I am very often slow at getting my products / services released due to me being a perfectionist. I do not settle for less.

What is your biggest strength: My biggest strength is also my weakness, but besides that, I would say my dedication and will power to succeed is a very good asset of mine.

Why should I choose you: I am currently a student at college studying double applied business (A-level). I have almost completed my first year of the course, with grades surpassing my target grades. I have acquired skills and knowledge from this course that will allow me input decisions within the group. I enjoy working with other people and sharing ideas to overall improve a concept.

Why are you passionate about business?: There are so many aspects of business which interest me. I like to apply my knowledge to real life situations, as well as improving my skills and learning new things. Success is what motivates me to produce quality output.

What is your biggest weakness: Business is deemed risky, and I am not a risk taker in terms of investing my own finances. This is simply because I have worked hard for my money and do not spend it on things that I cannot afford to lose.

What is your biggest strength: Knowing that if I have been unsuccessful, I will simply learn from my mistakes and get back up. This essentially prevents me from committing the same mistakes and allows me to grow in terms of business.

Compulsive - May 23, 2016, 3:46 pm

Age: 15

Location: USA

Favorite business aspect (Marketing, Finance, Etc.): I am torn between the planning phase and the book-keeping phases. I like making an idea and crafting the details of it, as well as performing upkeep and book-keeping of expenses, profits, etc.

Why should I choose you: I am interactive. I feel the strongest part of an entrepreneur is interaction. You can be good with numbers, good with projections, good with ideas, but if you can't settle or are always dissatisfied about the product and have trouble handling other members of your team, how does that help? I am very friendly and can start conversation and can keep it with basically everyone I meet. I am very charismatic and can help bring someone (or our team) up if we are stumped or in a block.

Why are you passionate about business?: Business is what makes the world spin, baby. Without business and people like us, there would be no commerce, no motivation to make products or services, or in our case, money. I love every aspect of it, the planning, the frame, the polish, and the upkeep of it all, and what a great way to end it by reaping the rewards of our hard work?

What is your biggest weakness: I feel my biggest weakness is ambition. I will try and try to make a project succeed, even if it is unrealistic. However, if I have a team working with me, it can be weened down.

What is your biggest strength: My biggest strength is my charisma. I am a very likable person (humblebrag) and can escalate and de-escalate situations with ease. I am a very good debater and can keep situations civil, as well as get my point across. Another strong suite I have is sense. Sense in the fact that I am not afraid to decline an offer or situation if I see a potential in it, or something seems sketchy.

Thank you for reading this application, since I know there are pages full of them. To anyone else reading this, goodluck!

Lust. - May 23, 2016, 11:05 pm

Age:

Location:

Northern California, Silicon Valley

Favorite business aspect (Marketing, Finance, Etc.):

Finance, Management

Why should I choose you:

I am an accounting major and economics minor attending school in Northern California. I first entered the business world when I was 16 years old and started up a dedicated server rental business to make some side cash, this ended up doing fairly well and gave me funds to begin my life. This last year I started a business with 3D Printing software development. Using my tactics I've learned through business school and past experience, we have built up a program that is doing extremely well. We have currently pulled in a 7-figure grant and have began our main business operations.

On the side, I work in the management side of a large poultry company that is based in California. I have learned a lot from this job in the food quality and production side of a large business.

During my stay at HackForums, I have also showed my management skills when I ran two groups that used to be on here. The first, Coders, where I established a student program where people could join and learn programming from members and guides we provided. The next, Logic, was simply a group for like-minded individuals to discuss important topics.

With all of this happening, I feel I would be a strong contributor to this group. I also would love to discuss marketing tactics, financial strategies, and other information so that I can further my business as well as any future endeavors.

Why are you passionate about business?:

I was raised by a businessman, with this I was raised to strive to make a name for myself. I began working at a very young age and once I got into the business administration side I found my passion. I love the competition of the business world and have dedicated my life and education to develop myself for a career in this area.

What is your biggest weakness:

I would say that my biggest weakness is that I tend to take the reigns on most operations that run in my business. This will sometimes spread me out among multiple projects and I do not see to many with the attention they require. I have been working on this, practicing time management. With experience, I plan to fix this weakness as time progresses on.

What is your biggest strength:

My biggest strength is my ability to persevere. I have multiple startups that didn't pick up, but were not far from succeeding. While I do not flaunt my failed startups as a success, they proved to provide necessary experiences to allow for my current business to be so successful.

As Robert Schuller said, I'd rather attempt to do something great and fail than to attempt to do nothing and succeed.

Why should I choose you: I currently run a very successful website, www.elitesmurfs.com, with Nyx By Night as my Partner/Web Developer. I'd like to say it's fairly innovative in comparison to the competition within its niche. It's been up and running for about a month and it's nearly on the front page of google, flying past its competitors. This has been done without SEO and primarily through raw advertisement and word of mouth. I believe this demonstrates my marketing capabilities as well as knowing exactly how to cater to a target audience.

Why are you passionate about business?: Nothing in this world is more satisfying than seeing an idea come to fruition. The creation of a business allows you to build an income with no ceiling, as opposed to any offered salary. It's success is entirely contingent on your own capabilities.

What is your biggest weakness: Probably the fact that I get too involved in my projects. I lose track of time. Forget to sleep. Neglect social responsibilities. IE Time with friends/GF

What is your biggest strength: Definitely my ability to manage and see to it that an idea comes to life, as well as my innovative capabilities.

I know I dont have as many posts and have just joined a while ago, but I would like to apply as I have a serious drive to make some extra money and start a business online, even if it's just part time.

Age: 26

Location: Auckland, New Zealand

Favorite Business Aspect: Marketing, I mainly use or know cpa but I would like to learn to be more successful and develop into other areas.

Why should I choose you?:

I am hard working I am currently working nearly 60 hours a week in my job, but I would like to learn to make a little more online, starting from the bottom and slowly working my way up. I have already researched and know the basics of what I am interested in last year, but I just need help to become

more successful.

What is your biggest strength?

I'm a good learner, while it does take time for me to learn once I understand something and do it regularly I don't forget. I can work well in a team if I need to, but am better at working independently. I am good at following my goals. I have been able to achieve all of my goals apart from this one which is making a little money online.

What is my biggest weakness?

Consistency is my biggest weakness, I tried doing CPA for a few months, I made a little bit but after that stopped and gave up after failing.

I believe I can contribute a lot to the group not just by sharing my own experience but also gaining new one.

Why are you passionate about business?: It's not about the money even though that seems quite illogical at first glance. I am passionate about business because I love giving people solutions to their problem whilst monetising them.

What is your biggest weakness: I talk a lot. I am also not that much experienced in accounting.

Favorite business aspect (Marketing, Finance, Etc.): Finance and wealth management

Why should I choose you: I enjoy buying and selling currencies for profit, and it has proven to be an effective business venture for myself so as a result I believe that I am gifted in that respect. I am also in the process of setting up my ventures on this forum and am looking for a group to assist me in both credibility and advice if I need it.

Why are you passionate about business?: Making money brings a sense of satisfaction for me that I can only assume is equivalent to a fiending crack head getting his fix.

What is your biggest weakness: My kindness tends to be mistaken for stupidity, so individuals tend

to look down on me or attempt to deceive me, this is obviously not the case.

What is your biggest strength: I am able to create relationships with customers that allow them to be trusting of me and it greatly increases the number of loyal customers I have. I am also able to get glimpses into what an individuals true intentions are when conversing with them, and I work keeping this gut feeling in mind.

Age:17

Location:South East Asia

Favorite business aspect (Marketing, Finance, Etc.):Marketing, growth(yes, I consider growth and marketing as separate departments)

Why should I choose you:I am extremely interested in technology, SEO and marketing. I have been involved in the creation and growth of 2 affiliate websites which have gone to make \$250++ in a short time. This was a result of me implementing the SEO strategies and techniques I learnt successfully. I've been reading up on SEO, link building and conversion rate optimization quite a lot and once I had the chance to implement them, I understood why people struggle for their google page rank:

1. Patience: this can single-handedly torment you. You can easily lose hope once you don't see the results coming in. You obviously get demoralised and you give up. I learnt this the hard way(I gave up on a blog I started 3 years back) but now, I've understood what it takes to achieve recurring organic traffic and I believe everyone should.

2. Other reasons: Wrong approach to SEO(illegit stuff such as keyword stuffing, getting RIPPED off by so called 'SEO ninjas', link exchange, using blackhat techniques etc.)

This is where I want to come in and help fellow group members in SEO and growth. Note that I am preparing an SEO guide that will be released pretty soon for everyone at no cost!

In addition to this, I'd like to collaborate with other members in building websites, monetizing them and growing traffic. I was a fluent enough coder for a couple of years(basic front end stuff such as bootstrap, CSS, html5, javascript, jquery etc) but clearly wasn't a pro.Now, I've taken it up seriously and have started mastering each skill. The skills I had were not enough to make full-fledged websites on my own without struggling. Now, I'm in the pursuit of mastering code and understanding every aspect of code. I have also enrolled in a couple of MOOC's and completed one from Coursera. Once I master coding, I will be able to create what I have in mind without spending any money.

The aim is to make myself a resource. Why?Because I don't have to hire someone and spend money to build the website/product I have in mind. I already know quite a bit of SEO and once I am able to code proficiently, I will be able to create my own websites as well as grow them with ease. This saves me money and also grows my skill set.

Why are you passionate about business?:I've done business at every possible place. Be it selling tiny amounts of BTC to my classmates, selling them steam games, selling my SEO services to my friends Dad(who doesn't know how to grow the online presence of his website), and so on. It naturally comes on to me and I believe I can successfully start a business once I become a proficient enough coder.

What is your biggest weakness: I can't do GFX that well even though I've put in a good effort learning it. In addition to this, I have to admit, I get a little lazy every now and then.

What is your biggest strength: I have a perseverance and I have a clear target. I have been this way a couple of years now. Though I tend to be lazy every now and then, I never lose focus and don't postpone things.

Marketing and project planing/ building has always been my thing. Started a community when I was 10, made around \$100 (Which was ALOT at that age). Since then I'm always up to new things all the time. My best side is marketing.

Why should I choose you:

I'm focused. Love to help, have some humor and good with girls ;)

Why are you passionate about business?:

I have always been about having fun. But when I came up to 16-17y I understod that money is freaking power. I don't want to live a poor life just because I want to have fun.

So I got my shit, start searching for jobs, got a house and a car. Now I'm happy.

What is your biggest weakness:

My family. Without a question. If something happens to them. I feel it too.

What is your biggest strength:

My arms ;) Jk, guess my strongest side is my cravings and goals. If I set a goal, Nothing will stand between me and my way towards it.

Social Engineering is important for business. If you are good and understand everything about social engineering you'll most likely be good talking to people, go around them and understand what they are searching for in you.

Basic: You are better talking with people if you are a good social engineer.

Favorite business aspect (Marketing, Finance, Etc.): I am learning as a financial and insurance specialist at the moment , I am good at that and can do the basics and more professional parts of accounting and economic type of calculations. Mostly my interest is in marketing as in our century the product should be visible to be bought.

Why should I choose you: As for sure, I understand I am not the best , but neither the worst applier over here. This is actually my first try to get into a group, and I don't really know how this suppose to work. I am here mostly of my interest of how this works and how it can affect me and my ideas. Also I like to learn , I am hear to learn and to give my knowledge to others.

Why are you passionate about business?: Business is my life, it is a way to improve myself without being chained to a routine job. I see it as opportunities and knowledge. I can say a lot about business and why I like it (even love maybe). The thing about me is that I growth in a business environment , I mean none of my parents work at a job, they have business as my grands and also my friends and their parents. That might sound a little bit sceptical, but thats where I growth, even I have my own business (that's another story), here on HF I am just for some kind of recreational state.

What is your biggest weakness: I don't really speak English, have problems with grammar (sorry for this, really). I don't like the work that makes me have a lot of stress and no money. I don't like complicated things, I like when all is ordered and clear, even if it's not it might at least be interesting for me. There are thing that I can just not like to do, and I will not do even if that will be very very important(if I say no then it's no). Sometimes I can get bored.

What is your biggest strength: Okey, so I speak in 3 languages it's Romanian(very good, native) , Russian(very good, native) and English(judge yourself) , also I am a bit into Germany. I just can say I know a lot of thing about everything, but let's say I am good with many things (really) , I just have to get to the topic at the moment and I won't shut up.

I think i could bring alot of Marketing expertise to the group and tutorials that i could share on different topics about SEO with all the group members.

What is your biggest weakness:

I tend to rush things alot and sometimes i can do the job wrong when i do that. Also my grammar is not the greatest.

What is your biggest strength:

Whatever im doing im always committed to it. I have never given up on any of my projects that i have started.

TheVBScripter - May 27, 2016, 8:46 am

Age: 22

Location: The Netherlands (Holland / Netherlands)

Favorite business aspect (Marketing, Finance, Etc.): Marketing

Why should I choose you: I'm experienced for about 9-10 years now with online marketing (bought/sold Runescape GP's with my first PayPal account) and I never stopped making money online. I'm good with online selling, marketing (CPA related for 2-3 years), I know how to use affiliate marketing (clickbank), I can do keyword research (used Market Samurai for my competition stats when I worked with CPA). I'm "smart" enough to earn money online. One way or the other. I even ranked my own YouTube videos (for traffic), I wrote an eBook about that (writing / tutoring skills?). I just love to earn money and I think I can do my part in the group.

Why are you passionate about business?: I just love to make money (online/offling, friends or school. I was always about earning money, but I spent more than I saved up unfortunately). So I got a huge passion for making money, I just need to learn to save it all up instead of spending it with others (I spent a lot of money with people who didn't helped me out, but who took advantage of my "good" character when I had money)

What is your biggest weakness: As I said here above. I care too much, sometimes. I'm not a 100% hard business man (Like selling the last biscuit to 2 hobo's who gotta offer me the highest price). I'd buy them both biscuits and wish them a good day instead of fighting. And I do got a temper. I try to be good for everybody (customers, friends, family, lovers) but treat me wrong and I get angry..

That's a weakness I think.

What is your biggest strength: I don't give up easily. When I'm working on a project (especially in my "CPA" time) I worked for hours and hours without taking breaks. That cost me a lot of sleep, food & good mood. I found out that taking a break (of 10-15min) is good to re-focus and now I just start and don't stop until I finish.

I'm a good member, professional towards my customers and a helping out for those who need it.

I never joined a group before and I'd like to spent more time with business people, so I can expend my knowledge and share what I know. ?

Favorite business aspect (Marketing, Finance, Etc.): Finacing, mainly accountancy

Why should I choose you: I've helped start up many small online businesses, I'm also finishing my GCSEs meaning I will have zero exams until this time two years from now and a lot of free time.

Why are you passionate about business?: I'm passionate about business because I know that I'm one out of 7.4 Billion (Roughly) and my taking a stance in this world are slim if I don't start early.

What is your biggest weakness: I think my biggest weakness would probably be trust issues as I've had a couple problems in the past, although in business this could be seen as a good thing in some certain instances.

What is your biggest strength: I think my biggest strength is either precision or perseverance, I believe in the old saying "if a job is worth doing, it's worth doing well" and I take this and use it throught my work. I believe my work is a direct reflection of my mind set and without a clear mind set how will one accomlice anything?

Also this is my first attempt at join a group on hf, so I'm unsure on how well this is going to work.

Why are you passionate about business?: Money

What is your biggest weakness: Taking stupid risks I've lost roughly \$2,000 making dumb choices which I have since learned from.

What is your biggest strength: Being able to sell and and convince someone. I'm very very good at this if I'm admitted I'd love to share and show truly amazing scenarios.

Favorite business aspect (Marketing, Finance, Etc.): Finance and Money Management.

Why should I choose you: I've started and quite recently, got rid of a business. I'm always investing and I'd love to share my experience and knowledge to the group.

Why are you passionate about business?: It gives me a sense of freedom and it also teaches me extremely valuable lessons and I have learnt a lot of tips for my future. It's extremely fun in general.

What is your biggest weakness: Doing something that isn't intriguing and won't help me that much, I love risks. Also, I'm a perfectionist; if it isn't the way I want it, forget it.

What is your biggest strength: This sounds cheesy but I have an extensive knowledge in almost every subject I like; and every subject I want to learn will soon become a part of that. I can work well in a team and almost all of the time, my plans work and I am always right. Educate yourself before speaking is my motto.

I really do look forward to seeing if I am accepted in this group as I think I will be a beneficial factor to this group and I can share a large variety of my knowledge which others will benefit from. I too would like to learn things and become apart of a great group.

Why are you passionate about business?:
My parents are in the business sector and I can see it offers many things to people that work hard to achieve their goal. Even tho my parents give me money every time I want to try to be

Why are you passionate about business?: Business is what I can use to form a great future for friends, family and myself! It opens many opportunities over time and can create great friendships and partnerships.

What is your biggest weakness: My biggest weakness is probably my anger, I get pretty pissed if people lie or anything to make better sales or stuff than other legitimate sellers that try their hardest to strive in the marketing enterprise.

What is your biggest strength: I think my biggest strength is my ability to convince people who are on the fence about things, or are unsure/insecure about an idea. I am also pretty good at helping ideas with a product.

Favorite business aspect:
Marketing, Finance, Management

Why should I choose you:

When I was 8 years old, I began my first business, which was helping students with their reading exams for cash. I ended up making \$100 then, and ever since I have loved business and specifically creating great products and services.

Over the last few years of being active on Hackforums, I have started up several businesses, some solo, and some with a partner. These include namely: Several eBooks, a booter, a homework service, a daily fantasy sports service. I began new to marketing, and have learned tremendous skills on this website, which has led me to earn quite a bit of money while at the same time providing quality products to my customers.

In addition, I recently graduated as a Computer Science major from UC Berkeley. With this experience, I have launched a company with two professional sales people, and we just launched our app to the app store on Friday. We are a team of six, and have been approached by several Venture Capitalists, although we have turned down all cash offers due to not having a need for the cash currently.

Why are you passionate about business?:

I love business because it allows me to not just be a contributor, but a creator. A creator of a product or a service that will make other peoples live's just a little bit easier. Steve jobs put it best in this video:

[Video: <https://www.youtube.com/watch?v=qHLmluszMTY>]

What is your biggest weakness:

I don't know what I don't know and I hate it. I hate it when I don't know how someone did something, and I get extremely frustrated if I want to try to recreate it.

What is your biggest strength:

I'm willing to work nonstop to make my business a success. If that means you need to wake me up at 4AM for a phone call, I'll take it. I'll work 16 hours a day 7 days a week in order to succeed.

Favorite business aspect (Marketing, Finance, Etc.):

I believe my favorite business aspect is marketing, however I do have a great deal of joy in management and finances though.

Why should I choose you:

Although my account is new and I am just beginning on hackforums, I have several established businesses offsite I wish to bring. I have the capital to start projects and have already began working with several members of this site on big projects.

Why are you passionate about business?:

After seeing the success of my family in business, I followed in my father's footsteps and now truly believe in the 'hustle or die' mentality. Although I have not finished getting a degree in business at a university, I have gotten some certifications and coursework done to further help me market and advance my businesses.

What is your biggest weakness:

My biggest weakness would be my inability to simplify things. I love to micromanage and often will over-complicate simple tasks in business and in life.

What is your biggest strength:

My biggest strength is my ability to never quit and stick to my guns. Especially in business with competitive markets, the ability to not give into pressure has molded me into a strong individual who can compete in even some of the most heated and competitive fields.

I hope I hit all of your questions thoroughly and if you have any questions, please message me. I hope to have my future businesses under the Apex name.

LogitechCamMan - June 4, 2016, 4:56 pm

Age: 18

Location: United States

Favorite business aspect (Marketing, Finance, Etc.): Marketing, I love it :)

Why should I choose you: I feel like I would be a good asset to the group, I can definetly share my knowledge with others and the people in this group seem smart so I would like to get to know some stuff as well.

Why are you passionate about business?: Business makes the world go round, therefore it is important to make business a important asset.

What is your biggest weakness: Definitely finance related stuff.

What is your biggest strength: Marketing, Advertising, customer support.

*Also I love that gif in your post :)

Grievous????? - June 4, 2016, 6:55 pm

Age:
17

Favorite business aspect (Marketing, Finance, Etc.):

I'd have to say my favourite Business aspect is Marketing and Customer Support / Service. I'm more of the face of things, I like to interact with the customers. I like to understand what the customers needs are and I'm always looking for ways to improve products based on customer reviews.

Why should I choose you:

I feel I should be selected to join this group because I'm an upbeat person who is always looking for ways to increase sales, customer satisfaction and reputation. I'm a very friendly person and I feel I'm an easy person to get along with. You will find me to be a very active member in the group and always looking to get involved in projects etc.

On HF I've made well over \$500 from selling products and services. I feel I could do a lot better though. I've sold things from Doxing Guides, Gaming Accounts, Stress Testing Services, Crackers, Exploits and some other things. I feel I have gained a lot of experience from selling products from a lot of different areas. I think I can contribute some of my own knowledge and ideas with other members.

Why are you passionate about business?:

I've always had a passion for Business, whether it be Trading, Selling, Auctioning or Bartering. From a young age I've traded stuff with school mates and friends. I've sold toys that I didn't need to other kids in my area. From there it moved on to online selling, ranking up my gaming accounts and then selling them on for a profit. I am really competitive and I'm always trying to keep a step ahead of my competitors at all times and I feel those are the reasons why I'm so passionate about Business.

What is your biggest weakness:

I'd say my biggest weakness is funding. Sometimes I have great project ideas but because of my age, it sometimes hinders my ability to power ahead with an idea or product. I think with the right group of people around me I can work on this weakness.

What is your biggest strength:

I'd say my biggest strength is my activity. I'm a very active person, on HF and other sites. I'm always online helping customers and I feel that is the key to a successful Business. If the customers are happy, I'm happy.

Ventures - June 4, 2016, 11:36 pm

Age: 23

Location: New York, NY

Favorite business aspect (Marketing, Finance, Etc.): Venture capital

Why should I choose you: Finance major with joint minor in Computer Science and Mathematics - passionate about venture capital and growth hacking (marketing-related, so maybe something we can talk about). Love doing research on the energies market and staying up to date with VC news and SaaS startups. Fairly wide range of interests but mostly in FinTech and VC.

Why are you passionate about business?: My next goal is to start my own VC firm. I'm quite passionate about investment, but especially in the earliest, least mature stages of a company. Private equity had always caught my eye, but once I learned about the VC industry, I couldn't get enough of it. In ten years, I see myself as a partner at a VC firm such as Sequoia Capital, Google Ventures, Thrive Capital, etc.

What is your biggest weakness: My biggest weakness is my tendency to make time for others when I barely have enough for myself. I've learned that the hard way through juggling university and work while being financially independent. However, maybe that could be a strong trait in the VC industry. After all, VC's who sit back and just supply the capital resources are becoming dinosaurs.

What is your biggest strength: A strong grasp on macroeconomic analysis and early-stage investing. I was also a web developer at one point so I understand technological feasibility (especially for R&D in SaaS companies) and have a good sense of where the tech world is heading.

EgoManiac - June 7, 2016, 2:31 am

Age:

I am 19 years old.

Location:

I live in the United States.

Favorite business aspect (Marketing, Finance, Etc.):

My favorite business aspects consist of:

Reselling: (Just got into ebay reselling/exchanging currency.)

<https://hackforums.net/showthread.php?tid=5266284> ,

Development: (Building the business is probably one of the most enjoyable things. It doesn't feel like work when you are truly passionate.)

Management: (Love planning and creating strategic/tactical moves to continue to make the business prosper; I like to think that I have an investor mindset.)

Why should I choose you:

I am eager to keep expanding my knowledge, and becoming an even more valuable asset to the team. I have a strong passion for entrepreneurship, and I am currently attending college to major in business management. Group talk, this would be my first and only group I will be active in. Would love to be surrounded by people with the same mindset and share knowledge in the subforums.

Why are you passionate about business?:

I correlate business to freedom. I personally would rather work 24/7 doing something I love than work a 9-5 job that I dread. I love the way money works. Over the years I've learned to use money as a tool. How can you expect to have more of something if you don't understand it.

What is your biggest weakness:

Growing up I was always told that the customer is always right and make sure the customer is always happy; This mindset has lead me to try and please everyone, and when I can't please everyone I become too critical on myself. I understand that it is nearly impossible to please everyone, and I am working on taking a step back and looking at the bigger picture.

What is your biggest strength:

My closest friends like to say that I am confident/committed in what I believe. I persevere through hard times, and understand that nothing comes easy.

Thank you for taking the time to review my application. I hope you can see my transparency/passion to grow with Apex.

Best Regards,
EgoManiac

ZuGgY - June 8, 2016, 7:16 pm

Age: Wish to keep private

Location: Wish to keep private

Favorite business aspect (Marketing, Finance, Etc.): Anything, honestly.

Why should I choose you: I don't really earn online, but I'd like to start as a way to earn some extra \$ on the side. I'm currently living in a rough time, so this would be a great opportunity.

Why are you passionate about business?: To gain experience and cash. Those are the real two reasons. And when I learn on earning myself, I hope to be able to share and spread my information with others, to get them out of tough times, etc.

What is your biggest weakness: I honestly don't know where to start when it comes to earning online, no real prior experience.

What is your biggest strength: Quick learner, especially when it comes to positions with valuable rewards and goodies.

Danny Khalifa - June 9, 2016, 12:10 am

Favorite business aspect (Marketing, Finance, Etc.): Marketing.

Why should I choose you: I am serious when it comes to money. Not a low life. Always glad to talk and get into more things that makes money.

Why are you passionate about business?: Money is happiness. Maybe money wouldn't make you happy forever, but you won't regret having those big stacks.

What is your biggest weakness: Sometimes I want to make more money faster, so I stick to more deals at once, and I get confused. Will improve.

What is your biggest strength: Passion and dedication.

Telstra - June 9, 2016, 12:22 am

Telstra's Apex Business Sector Application

Age:
19

Location:
Australia

Favorite business aspect (Marketing, Finance, Etc.):

I love love love Marketing, I like how the human brain reacts to advertisement and certain words. I love learning about how to influence people in advertising and convincing them that they NEED what you are selling.

Why should I choose you:

I believe you should choose me as I will be a devoted member of the business sector and dedicate as much time as possible with helping other members of the group achieve their business model. I have almost 4 years of marketing skills here on HackForums as well as running my own business in my spare time (PM for details).

Why are you passionate about business?:

I am driven by money, simple. I want it, and I want lots of it.

What is your biggest weakness:

Not giving a fuck, I will also list this as my strength but it can also be a downfall. If you don't really care on the outcome of what your actions will be you can end up getting yourself into some trouble, or the outcome being somewhat negative.

What is your biggest strength:

Not giving a fuck, I will dive balls deep into something and hold my own with it. I am not easily thrown by what people say, and will always say exactly what I want when appropriate. I believe this down to earth mentality maintains a trust between whoever you are dealing with because they think you are exactly like them.

Sakuto - June 9, 2016, 6:09 am

Age: 21 years old.

Location: Belgium (French side)

Favorite business aspect (Marketing, Finance, Etc.): Finding new ideas that are out of the box and trying to implement them at any cost. And more generally creating new way of making money, things that were never seen before (or not a lot).

Why should I choose you: Because I am a quick learner, I am a very good web developer and the only thing I need is more skilled in my Business promotion, which I think I can learn from your group?

Why are you passionate about business?: Because it's a way to get in touch with a lot of people and you always have something to learn. And if you want to be proficient you have to know a lot about a lot of subjects.

What is your biggest weakness: I'm way too perfectionist and sometime I will give up a good idea because I don't succeed in getting the perfect result I dreamed of.

What is your biggest strength: My "out-of-the-box" mind that allows me to find something unique, something you will never see again :D

Dollaz - June 10, 2016, 1:39 am

Quick Description About me: I've been in the business and entrepreneurship section for my whole life. I currently sell products on amazon which has made me financially free and will never have to work a blue-collar job in my life. Turned a brand new business to a \$10,000 Net profit business in 4 months.

Age:
I am 18 Years old.

Location:
United States, CA.

Favorite business aspect (Marketing, Finance, Etc.): I love every part of business, I've been doing business since 10 years old. Every weekend I would go and find garage sales around my community and make deals with people. I would then hop on ebay and post everything I bought from the garage sales for cheap. I make some pretty good money doing this at age 10-13. Currently, I'm involved in allot of marketing with everything I do on amazon and employer ship. If its got a good ROI, Count me in.

Why should I choose you: I've been doing business since age 10
I've always been able to find a way to make money by buying for low and selling high.
My dads been mentoring me to become an entreupenur since I was a little kid. He's been self-employed since he was 19 years old and now owns Hotels, land, trailer parks, Etc...
I'm ready to work when it comes down to business. Give me something to do and I'm on it.

Why are you passionate about business?:
I don't see entrepreneurship as a job, I see it as a vehicle. You can make as much money as you want to, unlike a ordinary fast food job. This vehicle can take you wherever you want to be and get out of the rat race. It will give you financial freedom and take away your worries of paying the bills this month. I want other people to experience this feeling and help them in that journey, so they can do more, be more and give more.

What is your biggest weakness: I've discovered a major weakness of mine in business is the patience part- to a fault. I have been overcoming this weakness by waiting and waiting. Buying and selling was a process for me because I would always hate to wait for the right price, but it was always the right idea.

What is your biggest strength: My first biggest strength would be finding deals, I am always be the person that finds the best product for the cheapest.

My second strength would be selling, I can talk to people and make them buy my product. Good spokesperson and great with people.

I hope I can be a good addition to Apex, Thank you.

Unhinged Pineapple - June 10, 2016, 2:30 pm

Age: 17

Location: CA, United States

Favorite business aspect (Marketing, Finance, Etc.): My favorite aspect for business is financial. I love data and researching, and always have for some reason. I've always had an interest in economics, specifically macroeconomics, so large scale businesses, and even countries economies and their productivity.

Why should I choose you: I am not currently in any other groups so I would be totally dedicated to this one, and any projects I am contributing to in it. I would love to be involved in any project I am able to contribute to and hope to share my insight/ any ideas for it.

Why are you passionate about business?: Like most people, I love working hard on something and then watching it pay off and the satisfaction of getting the rewards it brings, and I feel that topics I have an interest in such as business projects are the most satisfactory for me. The best feeling is starting something and working at it from the ground up, and what better way to do this than in business?

What is your biggest weakness: My biggest weakness is my lack of experience. Me being only 17, there's a limited amount of opportunities at my age, although I can get the hang of things easily and have a decent knowledge about economics. And as I get older, there will only be more opportunities opening up to me which will allow me to learn more and then put that knowledge back into whatever I am working on.

What is your biggest strength: My biggest strength is my ability to work with others. It's easy for me to work in groups because I can cooperate with other people, but also because I can take charge of situations when needed in order to get the task done.

JASON AND MEDEA - June 10, 2016, 2:57 pm

Favorite business aspect (Marketing, Finance, Etc.):

Marketing, Financing, Preparation, Advertising

Why should I choose you:

I've got years of experience in Business, and I really think that joining a group with like minded people would help me increase my knowledge while at the same time allow me to share some of my own knowledge with the other members. I also don't mind giving to others when I make some profit my self;

<https://hackforums.net/showthread.php?tid=5284730>

I also believe that I'm really good at marketing + advertising a product.

Why are you passionate about business?:

I started doing activities related to business when I was 8-9 years old. Which was basically online things like owning and running Minecraft servers, selling, etc. Throughout the years, I've been getting better and better and I want to be the best their is or in the top one day.

What is your biggest weakness:

Money at the moment, although that will hopefully change soon. I think another weakness would be organisation/getting ready, but once I get started I can not stop until I finish what I'm doing to its very best.

What is your biggest strength:

My dedication towards what I want to do, and my learning capability. Every day I'm learning something new about this topic, which really helps me get better at this.

Why should I choose you: Because I'm more than happy to co-operate with others

Why are you passionate about business?: Wanna get befriended with more business peoples. We may have things to each others

What is your biggest weakness: Dealing with russians

What is your biggest strength: Reselling :)

?l???po?N? - June 12, 2016, 5:15 am

Age: 17

Location: the Netherlands

Favorite business aspect (Marketing, Finance, Etc.):

Mainly marketing and advertising, I don't have an insane knowledge of every aspect of businesses yet but I'm really open to learn.

Why should I choose you:

I'm a really open and social guy, I am eager to learn and I'd try to be friendly to everyone.

I have some experience in advertising and marketing but I'd love to learn more about the other aspects of businesses.

I'm studying Software & Information Engineering and my dream is to start an business or company after I finished my study.

I'm not sure yet about exactly the kind of company I'd like to start but at least something related to

Software, maybe an online service or whatever.

Why are you passionate about business?:

I'm passionate about business because I'd love to build something from scratch.

I'd love to see how something can start so small and grew out to a very well performing business.

Because I'm not the 'best' business man at this moment and I'd have a lot to learn I'd like to join Apex.

I think I can learn a lot in Apex from the other group members and we can share a lot of skills, I'd also like to meet new people.

What is your biggest weakness:

If I'd apply the Belbin Role test on myself it says I'm an implementer.

So my allowable weaknesses are that I can be somewhat inflexible or slow on responding to new possibilities.

What is your biggest strength:

Because I'm an implementer my biggest strengths are that I'm Practical, reliable and efficient.

I'd like to turn ideas into actions and organisations, I do the work that needs to be done.

DOUGHBOY BALENCIAGA - June 12, 2016, 8:53 pm

Age:

18

Location:
United States

Favorite business aspect (Marketing, Finance, Etc.):

Given that the college degree I'm seeking is marketing, one could imply that it is my passion. I am someone who loves to build hype around things - whether it be websites, products, etc... The possibilities are endless. Marketing is something that comes natural to me, and it is a huge quality in my life as a businessman.

Why should I choose you:

I am the epitome of the group of people that this club targets. I am completely business oriented and motivated by money. My presence here is almost 100% due to my love for business and negotiation. Unlike other people applying here, I am not only an online entrepreneur, but someone that has much experience in real life doing business. I have worked various marketing internships in the past, making much more money than any of my friends. I run a t-shirt business which has profited me hundreds of dollars. I am currently pursuing a 5 year MBA for marketing at American University. I led the stock market club at my high school. There's a lot more but I won't waste your time and mine rambling on. I have every quality this group wants, and then some.

Why are you passionate about business?:

To make things simple, I am someone who loves negotiation, strategy, and marketing. I come from a family where I grew up learning about making deals and generating business - the whole system has been driven into my head from a young age. There is nothing I love more than a successful deal, where I have what I want and the buyer has what he wants. Business runs the world, and there is nothing I want more than to be included in a group that has so much influence on the vastly changing world.

What is your biggest weakness:

My biggest weakness has to be my reputation and lack of true experience on the site here. Being this new essentially causes other people to immediately consider me as a scammer and a multi. While I am neither, I understand it is part of joining a site where reputation is everything. Despite this "weakness", I have worked to establish myself as an extremely high quality member here - I have completed about \$400 in deals on this site in the limited time I have been present.

What is your biggest strength:

I am incredibly tenacious. I possess the traits that all successful businessmen must have - I am extremely motivated, driven, and focused. During a deal I will not back down until I have what I want and the buyer wants what he has (or vice versa). I have the rare personality where I will not settle for anything but the best. By this, I mean that from anything I sell, I will get the most I possibly can drain out of the item. You can say the same about buying except but the opposite; I will fight for what I deem a fair price. I don't deal with time wasters and like to stay all business all the time.

Favorite business aspect (Marketing, Finance, Etc.): It probably has to be handling finances and being able to control spending.

Why should I choose you:I'm really active and I'd like to contribute to something.

Why are you passionate about business?:Well I really love money and I enjoy spending my time with customers.

What is your biggest weakness: It definitely has to be the lack of experience I have on the website.

What is your biggest strength:I'm really friendly so support is easy to do.

Favorite business aspect (Marketing, Finance, Etc.): Finance

Why should I choose you: I am very active for one, which is a plus. I may be small and not as knowledgeable, but I would love to prosper and learn with this group. I will also share all my knowledge.

Why are you passionate about business?: Money is the motivation.

What is your biggest weakness: I'm always quick into things, I have troubles waiting for something as I always want something when I want it, and that is a huge weakness I need to fix, because sometimes I could be making a lot more overtime instead of cashing out early.

What is your biggest strength: My biggest strength is my devotion, I never stop once I have a goal in mind.

Miniscule - June 16, 2016, 5:37 pm

Age: I am currently 16 years old.

Location: Minnesota, United States.

Favorite business aspect (Marketing, Finance, Etc.): I am most fond of marketing, I love to be able to take the lead and do what I believe is right. I strive to help other people see my goals and hopefully set their own goal. I'm tied up all around finances as well, I am currently taking college electives in school for financing and have been maintaining a 3.5+ GPA. I took time during two of my own summers to get ahead on classes so I can get ahead and pursue my dreams as early as possible.

Why should I choose you: I am great in the field of business, I know what I am doing since my dad is a very successful business man for one, and believe me he has taught me a lot. On the other hand I am doing very well in business electives in school, surpassing many of peers. I love doing anything involved with numbers, I am great at persuading people, and have reached many of my own goals and want to reach more. I am intrigued to just now apply for this, I want to help others and see what others can bring forth to the table and help me. I am also planning to go to college, and eventually a university after college, but I would like to invest into a small business to start with straight out of high school.

Why are you passionate about business?: I love the idea of doing something on your own, building something from the base and working it to the best of your ability.

What is your biggest weakness: I can get distracted easily as I am very social.

What is your biggest strength: Negotiation, this is something that I have always been good at. This has essentially been also given to me by my father as he taught me it is very important to know how to do.

Punctur - June 17, 2016, 8:47 am

Location:

New York, USA

Favorite business aspect (Marketing, Finance, Etc.):

Business and Marketing is my niche. I say this as I am a business and marketing major. I also am a major in entrepreneurial studies and have grown businesses ever since I was 6 years old.

Why should I choose you:

I firmly believe that I am the modern day businessman. Business is turning virtual as it is simply easier and more secure. I run and operate ~6 of my own companies. I also am a prime investor in numerous startup businesses and always enjoy to take smart risks to further boost my profits. At the end of the day, profits is the only thing that matters.

Why are you passionate about business?:

I am passionate about business as I have always been a money maker. Wherever I go, I am constantly thinking of new inventions that could possibly land me on Shark Tank or some form of upgrading my resume.

What is your biggest weakness:

My biggest weakness within the whole realm of business is patience. Whenever I encounter a new task or a deal with a user, I always want to organize, plan, and complete the given assignment as fast as possible. While I do not skip out on the quality during tasks, I could slow down more. Skimming is not necessarily how I operate. I just focus all my attention all day on the process I have to complete and I have skipped numerous meals while I have been focused working before.

Favorite business aspect (Marketing, Finance, Etc.): Working on something I created (or somebody else has) and watching it evolve into something more. It is very rewarding.

Why should I choose you: I come up with ideas a lot, and mostly don't have enough time to build upon all of them at once. I hope to give those ideas to other members who I know will use them and help them out.

Why are you passionate about business?: I was raised poor, and I know how much it sucks, so I never want to feel that again.

What is your biggest weakness: I come up with too many ideas. I'm one person, so I get sidetracked a lot.

What is your biggest strength: I'm pretty relaxed and easy to work with, but I'll work when it's time.

Why should I choose you:I currently work in the sales team of a import company in norway, i am studying a bachelor degree in Graphic design which also provides tons of knowledge within marketing.

i have finished Marketing and leadership 1 & 2 in high school and i knew i have always wanted to mix marketing with graphic design and create unique content that people will be "wow" at and click it.

in 2years I'm going to study interaction design in London.

Why are you passionate about business?:Because i have always had the feeling that i do not want to work as a walmart cashier i want to do something my self, i want to find a project that doesn't make any money and buy it off and grow it up or join projects with amazing developers but lacking the marketing experience thats what i like thats what i did with dollarvpn and it went from 4sales to many first week people commented "this will be a roaring success"

Bandors Jr. - June 19, 2016, 12:40 am

Age:
I am 19 years old

Location:
Texas, United States

Favorite business aspect:
For me it is about the hustle, I love the feeling when you work hard and make some cash.

Why should I choose you:
I believe you should choose me because I am hard working and can bring something new to the table. Would be great to discuss our tactics with each other and grow together.

Why are you passionate about business?:
I am passionate about business because I have always had to work for my stuff, I bought my own car when I was 16 from money I earned online. I have always had my mind on money and I don't think anything can change that.

What is your biggest weakness:
My biggest weakness is probably my ability to adapt, I like doing things my way so that is why I mainly work solo. I have been working on that and hope I can show it within the group!

What is your biggest strength:
My biggest strength is my hard work, I am dedicated to making money and am good at it.

Favorite business aspect (Marketing, Finance, Etc.):
Marketing, CPA/PDD, Legal Exploitation

Why should I choose you:
You should choose me because I always come up with new, great things, and I'm able to get them online and done very fast. I also don't care about investing money to try things out, business is business and money makes money.

Why are you passionate about business?:
All of my friends are working in stores and shit, working their asses off for like \$500 a month, I never wanted to work in a store, work for a boss, to get a small loan. I tried a lot of things out, invested some money in some projects, and made their monthly loan in 1 day.

What is your biggest weakness:
Staying at my scheme.

What is your biggest strength:

Marketing, advertising, investments. (\$2-\$10 investments have made me more than \$3,000,-)

Thanks for the recruitment. Good luck all.

Advertising, Marketing, Generally YouTube.

Why should I choose you:

I own a YouTube channel with 700,000 subscribers and I run a legally registered company in Finland. I'm an open minded person and I'm always willing to learn something new.

Why are you passionate about business?:

Business is a thing that I've always done, I don't know why. Business usually keeps me up at night and I like it.

What is your biggest weakness:

I'm sometimes extremely lazy.

What is your biggest strength:

I feel like I know a lot about YouTube and marketing related to it very well.

Formant - June 21, 2016, 5:37 am

As a business major, aspiring entrepreneur, and a consulting intern, I may have to apply to this sector if it's still open :)

It would be interesting to join a group with people who have similar interests.

I'll edit this post later with an application.

EDIT: Here's my application =]

Age:

I am 22 years old, soon to be 23. Location:

I'm from the U.S., however I'm currently located in Europe for work. Favorite business aspect (Marketing, Finance, Etc.):

Probably finance/consulting right now. I'm currently interning at one of the big four, doing work in their market research department. Why should I choose you?:

Long story short, I feel like I could contribute to the group. Right now, I am finishing up my last two classes to finish my BS in Business Mgmt. online while pursuing a consulting internship in Europe. I have a strong background in leadership (I may pursue a Master's in Organizational Leadership), strategic management and business policy, project management, e-commerce business planning, and marketing. Why are you passionate about business?:

For whatever reason, I've always been attracted to business. Back in high-school, business subjects were always my favorite and I always thrived in general business studies. Mostly, I think that being exposed to business subjects allowed me to discover my entrepreneurial spirit. What is your biggest weakness?:

Chocolate cake. No but seriously, sometimes I am too blunt with my honest opinion. On forums like these, I can come off as a little cold, or even mean sometimes, which isn't my intention at all. When it comes to private matters, I've been trying to make sure I am leaving people with solutions to problems instead of seeming like I am shutting them down. What is your biggest strength?:

Since I don't have much professional work experience, one strength I particularly take pride in is my education. I always disliked school, ever since I was young. After realizing the importance of education, I'm now proud to say I'm on track to graduating with a 4.0 GPA. I also consider some of my personality traits to be one of my core strengths. I am a very open person and I like helping others whenever I can. Thanks for taking the time to read and consider my application.

Good luck to everyone else applying to the group.

I'm looking forward to being a part of the business sector if I'm accepted ?

Marketing & business relations

Why should I choose you:

I've had multiple successful projects where I was the project leader and I was in charge of the business aspects. Some of these projects had a big enough size for actual employee's.

Why are you passionate about business?:

There is so much to learn, and with a single skill that is knowledge you can make it for in business/marketing.

What is your biggest weakness:

I tend to run to many projects at the same time causing me to lose focus.

What is your biggest strength:

Marketing can present itself in many challenges, I like to take these challenges.

Favorite business aspect (Marketing, Finance, Etc.): Expanding an idea and branching out into other areas; I like to create something out of nothing and then watch it grow.

Why should I choose you: I'm loyal, hard working and have a good eye for business; the only three

things you need to succeed.

Why are you passionate about business?: I'm passionate about business as to me it is like a rollercoaster - it's interesting, intriguing and on top of everything, can earn you a lot of money.

What is your biggest weakness: Accepting that an idea for a business is going to fail.

What is your biggest strength: Turning nothing into something.

puresplz - June 22, 2016, 12:38 pm

Age:19

Location:Brooklyn, NYC

Favorite business aspect (Marketing, Finance, Etc.):The whole process, finding good investments, building a brand through marketing, and knowing what is a winner or not

Why should I choose you:I ran Aiofish(something I regret), Guthix(something I love :)), and multiple other business's and products. Currently want to release a major product/website on HF for the 4 months I am in Thailand

Why are you passionate about business?:I have been doing it since 12, never even went to college since I am so passionate about business, ever since I watched my first shark tank episode at 12, I been grinding it out everyday of my life to become an entrepreneur.

What is your biggest weakness:The stress can be overwhelming sometimes and the thought of money is always on the mind, not being able to relax.

What is your biggest strength:Marketing, Creating products and brands in the creative aspect, actually taking an idea and making it into reality with my team.

Kenjataimu - June 23, 2016, 12:35 am

Age: 20

Location: Canada

Favorite business aspect (Marketing, Finance, Etc.): Creative Thinking/Management

Why should I choose you: Generally I am pretty unproven in business/entrepreneurship.

The reason you should choose me is because I am an idea man. I can see an idea or thought from all angles and make it better/efficient. My creativity and optimism are easy to work with and I am not afraid to put my thought into a discussion. In the past when I had to work with teams I was always the one to kind of take the reigns because either the team wasn't getting anything done or the original founder wasn't doing anything to manage the project. Improving and optimizing is always on my mind.

Why are you passionate about business?: The freedom it gives you. The financial decisions it allows you to have. The ripple in society it can create.

What is your biggest weakness: Staying on track. I have never been apart of a team that has actually made real progress, so I will lose my train of thought. See that no one is doing work, and end up going to see a movie or playing video games.

What is your biggest strength: Creativity and Optimism.

Favorite business aspect (Marketing, Finance, Etc.): Marketing and in general the creation process of a business. I also love making money ;)

Why should I choose you: Not only am I somewhat skilled in marketing but I also have quite a bit of knowledge in programming, networking and general cyber security. My current job is that I work in a datacenter as a manager over server technicians for a mortgage company but plan to startup my own datacenter soon.

Why are you passionate about business?: I love making money and enjoy the process, I love to see all my hard work pay off in the end when I start seeing payments rolling in.

What is your biggest weakness: Probably that I am TOO worried about customer satisfaction to the point where I will constantly contact them ensuring they are satisfied (depending on the product) I

also feel as though I am much too lenient on customers and don't put down the hammer when they are unsatisfied.

What is your biggest strength: I believe my biggest strength is starting a business from the ground. I have done it a few times and have succeeded with most due to my expertise in technology. My goal in general, is to make money and I plan to succeed.

Favorite business aspect (Marketing, Finance, Etc.): Supply Chain and Marketing

Why should I choose you: Although I have only been on this site for a short period of time, I see myself being here for a long time to come. I am currently working for a TOP 5 Privately held company. I am quick to learn anything thrown at me and I enjoy the online community for everything that it is.

Why are you passionate about business?: I have been passionate about business since I was young because my father owns his own construction company. He came to the USA with nothing and built something incredible, once I came of age to appreciate that, my interest was hooked. I have one more semester of school and I will be graduated with a degree in Supply Chain and Marketing Science with a 3.72 cumulative GPA and a 4.0 GPA in my major. I chose my major because it deals with the entirety of a business, end to end. I am able to understand the intricacies of a business but more importantly the big picture.

What is your biggest weakness: My biggest weakness is that I am very meticulous. When I am working on something I tend to strive for perfection, down to the smallest detail, which in most cases is not the greatest thing to do as it takes up a lot of time. However, I realize this weakness and work around it by prioritizing and setting timelines.

What is your biggest strength: My biggest strengths would be my adaptability, communication, and learning quickly.

problems.x - July 27, 2016, 11:55 pm

If you are applying for this group. Prepare for a lot of talking and not enough doing. I was in this group, it wasn't really successful at all, wrong people were recruited, shit happened etc.

?etro - July 28, 2016, 4:34 pm

Age: 18

Location: Eastern USA

Favorite business aspect (Marketing, Finance, Etc.): Marketing

Why should I choose you: I am ambitious, perseverance, and strictly business minded.

Why are you passionate about business?: Business is very fact and analytic based field. I am not a fan of emotions and bullshit like that. Business makes me money, emotions don't.

What is your biggest weakness: Lack of empathy and mercy.

What is your biggest strength: Strict and I am able to recovery from losses. Failure doesn't stop me. Business has ups, and has downs. You keep going and working for your dreams, or else your a petty loser that was stepped on.

RS-4 - July 30, 2016, 12:55 am

Age: Prefer not to say, but mature enough

Location: United Kingdom

Favorite business aspect (Marketing, Finance, Etc.): Working on your business plan to put things together and seeing your first bit of earnings roll in...

Why should I choose you: I am an open minded yet enthused person, I devote my time to help others succeed and also try and gain knowledge I am yet to find- Sharing what I do for others in order to gain their specialities.

Why are you passionate about business?: This sounds funny, but as a child I seen my Dad work hard and grow his business: from then on my mind has always been on the business side of things.

What is your biggest weakness: I would say marketing, my worst enemy!

What is your biggest strength: Finding what works, and then building it into something real- with a good eye and great English I can make something that appeals to the customer (from Ecommerce store to a product or service).

Good luck to all with your applications!

Confound - July 30, 2016, 5:23 am

If you haven't heard back yet by Who Soup, you have more likely been denied. Keep the applications rolling. We are looking for a very specific kind of person to admit into the Business Sector.

nuclearcmd - July 30, 2016, 10:42 pm

Age:17

Location:USA

Favorite business aspect (Marketing, Finance, Etc.): Marketing

Why should I choose you: I am willing to learn from my mistakes and I am eager to learn more about the business sector and its different individual parts. At the end of the day, I want to learn something new and learn it from other experienced people, and share my knowledge that I have attained.

Why are you passionate about business?: They say "Give a man a gun he can rob a bank, give a man a bank and he can rob the world".

What is your biggest weakness: Ideas, they come to me in different ways

What is your biggest strength: Work ethic. When I want to make money I won't stop until I do it.

01001 - July 31, 2016, 3:17 am

Age: 21

Location: India

Favorite business aspect (Marketing, Finance, Etc.): My business aspects are but not limited to: Startups, Internet Marketing, Research and Development.

Why should I choose you: Because I feel like, I should meet new people who carry the same mindset which I follow/have. Secondly, for me it's not about getting in a group but learning something (I really mean it). If I'm lucky enough to be a part of this HQ Group then I'll be highly obliged.

Secondly, I can offer my loyalty, will and 100% Dedication to this group. Because, a business cannot grow unless its members are truly loyal to each other and without dedication, you cannot pull potential out of it.

Why are you passionate about business?: I'm passionate about learning. Either from my own mistakes or from others, but its always good to learn from others mistakes because we don't have that much of time to make our own.

The urge of learning something new motivates me to work on something, irrespective of its potential. Therefore, today I'm running my own Internet Marketing Agency (<https://www.internetmarketinggurus.net>) and a News/Media Website (<http://www.virtuefy.com>)

What is your biggest weakness: My biggest weakness is that I count on people easily. I feel that, If I'm completely honest with someone then they also carry the same traits.

But Now I've understood that one should "Go with the flow". So, now I act according to the need of the hour and I present myself as per the situation(s).

What is your biggest strength: Hardwork, Will Power and Dedication is my ONLY strength. I don't believe in failures, either I win or Learn but I never fail. Maybe I'm stubborn towards perfection/success. I'll keep on trying until unless I reach the triumph !!

Favorite business aspect (Marketing, Finance, Etc.): Anyway to the monay.

Why should I choose you: why not?

Why are you passionate about business?: Money solves everything unfortunately.

What is your biggest weakness: Spending :(

What is your biggest strength: Making :)

Senpie - August 1, 2016, 12:46 am

Age: 16

Location: United States

Favorite business aspect (Marketing, Finance, Etc.): Marketing, Sales, and Startups

Why should I choose you: You should choose me as I feel like I am able to bring content to the group that would benefit us all in various ways plus I'd be willing to make guides out-side of the group forum as well business related.

Why are you passionate about business?: I'm passionate about business because that is how I see the world; as one big business with multiple managers and we all set things the way we want it.

What is your biggest weakness: Procrastination, this is something that tends to get me at times but I normally fight my way through it.

What is your biggest strength: My ambition for a specific project, service, or item.

Soccer - August 1, 2016, 3:43 pm

invite me to this group, im marketer

Doctor Fate - August 3, 2016, 9:53 pm

Age: 20

Location: United States

Favorite business aspect (Marketing, Finance, Etc.): Marketing

Why should I choose you: I have a lot of experience with business and marketing and I'm currently getting my degree in business with a concentration in technology marketing in the US. In less than a month and a half me and my partner have grown our company ArenaHost and has become a one of the major choices for hosting and it's still growing. I'm also a private business consultant on and off HF. I take starting business models and concepts and help develop them into a working and profitable business. I'm also in the process of creating an affordable geek squad alternative for my university and eventually for everyone.

Why are you passionate about business?: I love the process of taking an idea and bringing it into existence as a working and profitable venture. I love the challenge and all of the work and strategy that goes along with that.

What is your biggest weakness: There are times I am too blunt or honest when dealing with business partners but since starting ArenaHost I've been improving in this regard.

What is your biggest strength: My biggest strength is my ability to adapt my expertise to fit the current niche that I'm needing to work with or market for. I enjoy being diversified and learning about new industries and the marketing strategies that go along with them.

Age:: 15

Location: Australia

Favorite business aspect (Marketing, Finance, Etc.): Been interested in finance and would like to find ways to make money online with no investment.

Why should I choose you: I'm quite new to HF and have always had an ambition to make a Doxing service on HF, This would be a cheap high quality business. I've always aspired to make a successful business with no bad comments or reviews. I believe I have a strong drive for making money and love to be a part of something.

Why are you passionate about business?: I've always wanted to sell things to people.

What is your biggest weakness: Work Ethic, Sometimes when I get something wrong or I fuck something and can't get it to work I leave it for a week and come up with something new.

What is your biggest strength: Coming up with ideas for business, I've always been good at thinking of new ways to make money and I hope I can contribute to this group in some way with this strength.
