Thread: [What anime series hit you right in the feels?](#)

InfinityGenesis - May 16, 2016, 10:04 pm

What is the anime series that after watching made you clutch your chest wheezing and bawling with the feels and to this day when you think of this series still feel the agonizing waves of feels wash over you.

Sorun - May 16, 2016, 10:25 pm

Eureka seven, Toradora, Kyoukai no konata, School days, Haruhi, Gurren lagann..... Could go on forever man. A recent thread reminded me of my anxiety attack after watching Guilty crown. I was having chest related issues at the time though and any little thing made my anxiety run wild. Still the fucking feels from that ending.

InfinityGenesis - May 16, 2016, 10:31 pm

Fuckkkk I'll say Guilty Crown probably was the worst for me as well. Angel beats and Steins;Gate fucked me up good as well. Imao i want to post this GIF but can't. rip

Steins;Gate

Man the series didn't even stop hitting you in the feels once it was done. The OVA and the movie just hit you in the feels again. Can't wait for Steins gate 0.

I finished Steins;Gate two weeks ago and I'm still feeling all sorts of things.

Steins;Gate 0 hype train. Any anime with like multiple possibilities and like other characters forgetting plot altering events fucks with me so much.

Also is there any confirmed dates on when Steins;gate 0 is coming out? I know that the visual novel came out but nothing on the anime adaptation.

faunisupreme - May 16, 2016, 11:18 pm

only Berserk, Gantz, and Elfen Lied. Berserk definitely got me the most though.

Omoi - May 16, 2016, 11:41 pm

Toradora, k-on, clanned, Akame Ga kill all got me

Tohka Yatogami - May 16, 2016, 11:48 pm

Whenever any main character forgets something important it just kills me.

Spoiler [\(Click to View\)](#) That moment when Neko saves his life but then forgets him completely ??

I have yet to finish Toradora but so far the series has been really good. I'm now scared about what's going to happen in the end.

Nothing confirmed but with the massive success of the first the probability is high. We're not even sure it will be a TV series or a movie yet. A lot of speculation saying there is enough content for one cour and not two. We will just have to wait and see.

Disappointment.

Regret.

Spoiler [\(Click to View\)](#)Wondering why they thought that would be a fitting ending.

I still love it.

Edit: spoiled that even though its not a spoiler. Don't read it

Toradora and Clannad Afterstory

Both had those moments

SkullCandy - May 17, 2016, 3:13 am

Toradora hands down; also, Sword Art Online - I still haven't gone past episode 15 because I was like crying at that point and haven't mustered up the courage to watch the rest.

Not once but twice. Enjoy bawling your eyes out. Better start stocking up on tissues.

TBH season one of SAO was so much better than season two. Season one had such nice content.
