WINNER: KAZEM

Whatsup guys, i am going live in 10 minutes, and i'll be doing a giveaway/contest.

The way it works is: I am thinking about a song, after each song i play i will give another small hint. The first person to guess the right song and either PM me it on Hackforums or tell me in the request box on HFLive.net will receive 10\$ in bitcoin.

I might be doing several of these depending how many people join in everytime.

Good luck, and may the odds be ever in your favor.?

!!IT'S LIVE RIGHT NOW!

First Hint: The song i'm thinking of is a song i really liked when i was younger, i still do, but i was obsessed with it when i was younger.

Second Hint: There is a red cap involved.

Third Hint: It's a male that sings the song.

Fourth Hint: It's a very popular song, it has been around for over a decade i think, it's covered by some of the most famous youtubers.

Fifth Hint: Almost everyone has heard this song when they were kids.
