Whatsup guys, i am going live in 20 minutes, and i'll be doing a giveaway/contest.

The way it works is: I am thinking about a song, after every 2 songs or so i will give another small hint.

The first person to guess the right song and either PM me it on Hackforums or tell me in the request box on HFLive.net will receive 10\$ in bitcoin.

I might be doing several of these depending how many people join in everytime.

Good luck, and may the odds be ever in your favor.?

!!I'M LIVE RIGHT NOW!

I will be posting hints below, though i will give more hints on air, so if you want a bigger chance to win, go listen to HFLive.

FIRST HINT: It's a song from a movie.

SECOND HINT: The movie was released over a decade ago.

THIRD HINT: It may or may not be a movie for younger audiences.
