I am in no way affiliated with the seller, and this is a 100% honest review.

Originality 8 /10

The methods in the eBook are somewhat common sense, but it provides you with very specific markets to target which is exactly what some people need to start earning.

Grammar 9/10

A few mistakes here and there, but nothing that will get in the way of comprehending the method.

Design 9/10.

Relatively well structured, and a simple design

Overall 8.5/10

The methods it contains are pretty simple, but effective. It provides a good amount of markets that you can target to make money with.

You're selling something that is not yours.

dunkeyknog132 has full rights to sell this eBook as he bought it off of me (the original seller) and is now marketing it as his own.

I can vouch for the methods included inside of this course. GLWS.
