Hey guys!

Today i am starting a money monetizing group! We will be teaching you or talking about how to make fast money on the internet! This can be in any category what you can think about.

Examples:

Sport Betting

E-whoring

Goods selling/reselling

Betting on BTC sites: Bustabit. PrimeDice or other sites.

And many more! We are only looking for serious people who like to joun the money group! We won't allow faggots who will disturb the group by spamming or something else.

We also have some rules you can see below:

1. Making problems with a other use will be warned. And if you go ahead i will kick you from the group.
2. Respect each others, if someone want to make money don't give stupid advices to him what doesn't make any sense.
3. SPAM = KICK.
4. You are not allowed to add someone from your contact list only if you ask to me first, then i will see who the person is.
5. Also not allowed to scam other users in the group. If someone got scammed by you we will kick you + make a scam report!

Me myself i have experience in making good money on the internet. That's why i am opening this group.

PS: I am also looking for 1-2 people who can moderate the group when i am offline. (we can discuss about it on skype or via PM)
