Thread: [Question about rgh and msp spoof thingy](#)

NoBarsHandler - May 20, 2016, 1:23 pm

Hey guys, i was wondering if it would be possible to download delisted items from the marketplace using an rgh?

Also, would it be possible to get an account that has all the rock band dlc tracks on it on? Like all track packs, albums, and singles.

I'm fairly certain if it's delisted there isn't a way to get it, could be mistaken but it just wouldn't make sense to me to be able to download something off the marketplace that isn't on the marketplace anymore
