Fairy Tail

Spoiler ([Click to View](#))

Synopsis

A superficial but kind-hearted celestial mage, Lucy Heartfilia, joins a famous wizarding guild in Magnolia Town called Fairy Tail, where the members use their powers to earn rewards in exchange for fulfilling quests. Here she befriends an impetuous but faithful dragon-slayer wizard, Natsu Dragneel, who is scouring the land for his missing father. The two form a bond with fellow mages Erza Scarlet and Gray Fullbuster, and together they tackle daunting challenges, taking on several powerful allies and foes along the way.

Created by Hiro Mashima, Fairy Tail is an action-packed adventure that follows Lucy and her friends as they learn the value of friendship, forgiveness and family.

Fairy Tail (2014) & Zero

Spoiler ([Click to View](#))

Synopsis

Magic is what makes the fictional world of Earth-land go 'round, and its many mage guilds work together—or sometimes against one another—to bring balance to that world. Each guild flaunts unique features in hopes of being the best guild on the planet.

Lucy Heartfilia, a 17-year-old girl, is desperately searching for the perfect guild. After running from her father, she wanders the city in search of Gold Keys, for they unlock the Celestial Spirits that are so vital her magic. With so many wizards around, it's a journey that's very challenging and dangerous to go alone. Yet a fateful encounter with Natsu Dragneel (a wizard who largely resembles a dragon) leads her to a guild known as Fairy Tail, which soon becomes her new home.

Her happiness amongst new-found friends is overshadowed by the evil powers of malicious guilds and the mysterious dark wizard Zeref. Their lives are about to take an unexpected turn as they battle evil, fight for their guild, and uncover fragments of their past. It will shake the foundations of who they are as people, and help explain why Earth-land has fallen into this state to begin with.

Groove Adventure Rave

Spoiler ([Click to View](#))

Synopsis

Long ago, a war was waged between the forces of darkness and light as Dark Brings—stones containing dark power beyond human ability—put the world at risk with their destructive force. In order to stem the tide of darkness, a lone swordsman used holy power known as the Rave to destroy the source of every Dark Brings. The resulting explosion, which came to be known as the Overdrive, destroyed a tenth of the world; fragments of the Rave were scattered throughout.

Groove Adventure Rave takes place fifty years after the Overdrive. A group known as Demon Card has collected the remaining Dark Brings, using them to lay siege to a number of towns. Meanwhile, a young swordsman by the name of Haru Glory has inherited both the Rave and its guardian, Plue, making him the next Rave Master. With the aid of an amnesiac drifter by the name of Elie and a silver-manipulating blacksmith by the name of Musica, Haru must scour the world in search of the scattered Rave Stones and put an end to the Dark Brings and Demon Card for once and for all.

Yeah I know but when it's the only anime you watch, it hurts ya feelings.

Now we're on it...

Does anyone have exact info on when it continues? Haven't been able to find anything myself about it.

You should watch other shows :P lots of good ones just like Fairy Tail, I would guess end off the year maybe September, they did it so they didn't have loads of pointless fillers like other anime do.

Well yeah.. Just more hyped when it gets back.. As long as they dont fuck up they art style like in the start or 2014.

Been watching Gate quite a lot... Honestly found that quite good.
Then Gintama... Ofcourse Gintama.

But IMO FT will always be my favourite.

Aura - May 22, 2016, 4:20 pm

Why did you add Groove Adventure Rave in the thread? I know there is a cross-over episode but other than that... What do they mean on MAL with "Character: Fairy Tail"?

The art style didn't bother me because I love it so much and they won't change art style again, if they go Ajin I would refuse to watch it, Gate is really funny and Gintama is way too long watched all original and all movies however not got enough time to binge watch 2015.

So they do have a cross over, and Fairy Tail often make jokes on Groove and have it as a spoof. Lots of things link back to Groove such as weapons people use, armors and I believe also some of the people. Only half way though Groove at the moment.

But because they are both liked I decided to add it just because not many people know about it and Fairy Tail fans should.

It is older than Fairy Tail but same art style.

There's jokes about Groove in Fairy Tail? Like? I'm pretty far in Fairy Tail, and I recall reading Groove (Manga) back when I was a kid but that's it.

http://fairytail.wikia.com/wiki/Rave_Master at bottom it says Similarities and Appearances. Probably more.

After reading that page, everything makes sense. I can see the similarities perfectly now. Wow.

You seen Fairy Tail x Rave?

I think they should remaster Groove same animation from that and make it fresh. The only thing I disliked about Groove was the names such as "Hit Hop City" However it was the 90s.

Aura - May 22, 2016, 4:51 pm

I've seen the cross-over yes, and I was quite far in the Manga when I stopped. I started watching the Anime, but dropped after a few episodes because the animation was throwing me off.
