Hey Guys,

My name is Chicken Wings and I'm making a cool little tutorial for people that just want to impress/troll your friends. Now in this tutorial, you can prove that you are a l33t mlg haxor to all of your friends for free. what you do is copy these commands below to the Notepad application on your Windows computer, then you want to save the file as a .bat file on your Desktop. Then send give the file to your friend.

Have fun?
