Thread: [\[1\\$\] CUSTOM MOUSEPAD \[FREE SHIPPING\]](#)

Germany69420 - May 24, 2016, 3:34 pm

You can get a mousepad for only 1\$ on artscow.com by just using a coupon code.

[LINK HERE](#)

Code Z099MOUSEPADYG5U3

You can only use it once. And about the mousepad, it's a really decent mousepad for only a dollar. Now i know this has been shared before but just wanted to let people know who didn't know already.

This is a very well-known method...

FYI mine came in yesterday and quality is pretty good.

Foamy and very good grip.

Ordered one today, looks pretty legit! Only a bit long production queue of 30 days. But 1 buck, for real o.0

Got mine after 2 months of waiting but it ended up so good. Also not recommend for gaming. Might order another one to arrive for my birthday ^^

But is the size big enough to use it for skill based games like CounterStrike, where you need to play on a low sensitivity?

It's quite decent in my opinion. A bigger one is better but if you have a tight budget it's pretty good.
