I'd love you to post proof of either me or Otto asking for Rep. Last night both me and him got added into the group and then they decided to change the name to gang rep and added him into the group. I've never repped anyone. I didn't know i was added to the group as my skype is always on DND and i was playing CSGO at the time. i never posted in the group and you can even check my rep history to check if I've had any interaction with other group members. To my knowlage i was added to a csgo group chat so i took no notice

Which you can see for yourself.

Otto also threatened/blackmailed someone to pay him for something that wasn't even agreed upon. He's shady at best. Hope he gets what's coming to him!

Hahahaha just reading the guy at fault here and his reasoning behind it all. Then claims he didn't know the rules. Aint that a damn shame. Nice community alert OP. There are plenty of groups out there like this, unfortunately. They all got to go.
