Hello,

I saw this thread today and I thought this is a great service. But after I read that some guys just got 15 bots I feel insecure.

If I pay money for 100 Bots I want to have 100 Bots, not 20, 50 or 80.

Blue1, can you guarantee that I will recieve everything I pay for?

That isn't possible really, you are paying for executions, basically they say "run this file on 100 systems" you get what you get. This is why execution rate is looked at.

I don't suggest anyone to purchase this service

I bought 100 (4\$) and i received 15 bots, all of them from Vietnam/Ukraine, Windows 7 (Basically he is using an old Windows 7 exploit)

After a week they all gone.

Bought 100 Bots yesterday. Still received 0. I uploaded it to cocaine.ninja and wrote PM to you but it seems you ignoring my messages. When i receive my Bots?

Zelpix - June 5, 2016, 3:54 am

Just ordered 100 bots to test this service.

Will edit with the results.

EDIT : Using LuminosityLink (I am aware of the mutex thingy), I received 23 bots. Most of them were from Vietnam/Ukraine.

Right now, 9 of them are still online.

MistaGenious - June 5, 2016, 7:01 am

Malicious007 - June 5, 2016, 10:23 am

i need HQ bots (US , FR , UK , ...) if you have those send me a pm !

DeepExploit - June 5, 2016, 12:52 pm

Okay, I don't want to make sales trashing but I purchased 150 Bots and recieved 7.

Blue1 say's that his botnet was down at the time when I purchased it so he sent me a pm that he will send the bots now - I got 2 new bots.

After that I sent Blue1 a PM that I just recieved 9 bots with 100% working and 2/35 stub but he ignores me.

2 Days after that I purchased 100 Bots again because I thought is can be a mistake or something when I purchased the first time.

Now I got about 20 Bots...and there are 6 online now...

And the Bots are not really HQ. Bad connections, Win 7 or XP, most time idle and most of them are from Vietnam and Ukraine.

Sorry but I can't really recommend this service.

Regards
