Thread: [The Brotherhood // Get your own customized userbar!](#)

Hash G. - May 25, 2016, 4:26 am

The title is pretty much self explanatory I guess. You can use any direct links to an image and set that as your userbar. It's mostly done for Group Owners so they can preview the userbar they're choosing without inspect element and in real time.

This obviously works only on your browser and you're the only one able to see the changes.

Preview: Gif (I'm reloading the page between each change) ([Click to View](#))

Install:

Kudos to Krave.

Suzan - May 25, 2016, 4:27 am

Looking good! Thanks Hash G xx.

Krave - May 25, 2016, 4:29 am

Thanks for doing this! Excited to use it for my current userbar submissions.

funtela - May 25, 2016, 5:28 am

This is awesome! Thanks for this :D

Remix - May 25, 2016, 9:45 am

Nice script m8

Keep up the good work

TopKekeroni - May 25, 2016, 11:01 am

Gonna try this now with The Order's new possible userbar, thanks! :)

Lrrr - May 25, 2016, 12:55 pm

Love this idea! Hash G is a userscript maniac!

TRAUMA - May 25, 2016, 12:58 pm

Here are all of the active group userbars:
just looked, theres way too many for me to add.

looks dope!
