Thread: [Help choosing range/ mage equipment FTP](#)

spencer10123 - May 25, 2016, 8:26 pm

I have been reading the Runescape wikia and other sites to find the best equipment for magic and range stats from 1-10 10-20 and so on.

As I began purchasing my stuff based on the required stats.

For example I bought spider silk Armour for when my magic level turned 20.

Well I tried to equip the Armour and it let me even though the site said I need level 20 (im at 12) so obviously all the info I could find was out dated.

Can someone please write me a list of equipment types for the levels

ex.

Mage

1-10

10-20

so on so on

These two pages list training tips and have tables for what you should use for each level range
