Thread: [RS07 BUYING IRC WORLD TRACKER & EXP TRACKER](#)

LENINRS - May 26, 2016, 6:56 am

I wasn't allowed to post in the marketplace section, I am sorry for posting in the wrong section.

Hiya,

Basically I am buying an IRC WORLD TRACKER, and an EXP TRACKER for the game RuneScape (2007) - for my clan. If you're not familiar with these you are still welcome to have a go if you wish to do this, but it might be confusing.

IRC WORLD TRACKER: Self-explanatory for those who know it.

EXP TRACKER: Nothing complicated or continuous. I need the script to simply pull the experience of specified names (Clan) of specified skills (Strength, Ranged, Magic and Hitpoints) at the beginning and end of pk-trips, and tell me the difference between them in an ordered fashion e.g.

Name - Strength - Ranged

Player A - 1250exp 500exp

Player B - 1000exp 400exp

Player C - 850exp 300exp

Player D - 450exp 100exp

Basically. I don't want it to ping too much thats why it will need to be on my command i.e. a button maybe to pull the experiences.

DETAILS, CONTACT & PRICE: I have a full host setup with all the latest software available. The price can be negotiated between us. It will most likely be through PayPal or OSRS-GP depending on your preference. If you wish to help me with this you can drop a query through IRC to '[R]Lenin' (SwiftIRC) or pm me here for the Skype contact method. I am willing to purchase a middleman but I do need to see the progress/working content first.

Can you explain a bit more what you mean?
