Thread: [Installed Newer Version of Eclipse and Have a Question](#)

[Rn] 7s^2 - May 27, 2016, 12:15 am

Is it OK to delete the workspace folder in C:\Users\myusername\

The newer version is not compatible with it. I don't really need that old project anymore.

So can I delete it? And then re-open the Eclipse application and it will create newer version of workspace folder, right?

Yes but you will lose all your projects that are stores there. Make a backup first and you'd be alright.

There are only 2 projects there and I don't need them. :-)

Thanks. I will delete it now. ?
