Zen's Application

What is your creative skill:

Rapping

Any examples (previous work):

Rap Battle Against Maximum ([Click to View](#))

Quote: You call yourself Maximum but it's obvious lies,
I ask you how many girls you slept with you respond with, "Nah just guys".
You should have known I've been comin' at you we got hyped up in skype,
your raps are just bad you can't even gain hype,
so you sit in your room on your keyboard n just type.

I'd stop now if you realize who you fuckin with,
I'm a legend and I've been that way no fuckin' myth,
Now I get it, I get why they call you Junior,
cuz your dick like 3" bruh we know you're a loser,
I bet you play CSGO and you don't even buy a defuser,
so don't fuck with me or I'll give you a suture.

Rap Battle Against Szardy ([Click to View](#))

Quote: Keeps on talking shit like he knows what he's saying,
you're like a kid in a pre-school -- so just go back to playing.
You ain't no God, you ain't no lord, never will be,
Digging my own grave?
I'm burying you so deep it's only dirt you will see.

So many bars it's like I'm locked up in a prison,
Rekt you so many times I don't even need to vision.
What life would be like if you never existed,
put behind these bars because your murder I assisted.

Rap Battle Against Szardy 2 ([Click to View](#))

Quote: You showed me your worth, rappin' on this Earth,
so I ain't gonna dis you or make you regret your birth.
Honestly -- that last verse was a lie,
I think I'm about to make this kid cry.

You say my flow is cold, but it's giving you frostbite I'm told.
Destroying you is all I do and it's been foretold,
So when I say this shit now you best believe I won't withhold.

Yo I keep on spitting shit on you but I have facts to back it,
you think you have strong ass rhymes but in reality you lack it,
I'm the prophecy you've always seen got cash I stack it,
I'm your fucking dad so shut your mouth before I smack it,
Put your lunch in the freezer yeah I already packed it.
So get your ass to school little kid you ain't jack shit.

Rap Battle Against Asterea ([Click to View](#))

Quote:Hi I'm Zen The Rapper back from the dead,
came back to show you rhymes straight from the head,
You're a pussy little bitch crying while I'm making the bread,
and I'm fucking your girlfriend right here in my bed.

You call yourself Asterea but you're known by little dick,
When you try to rap all you do is spittle shit,
so even though I murdered you I just might recommit,
just to teach all these little kids who they're fucking with.

Freestyle ish ([Click to View](#))

Quote:I'll start this rap battle slow, I'll take it real easy,
your rhymes are pretty shitty Mickey Mouse thinks they're cheesy.
Famous is what you tell yourself but you aint going anywhere,
so sit the fuck down while I spit these bars I'll end your damn "career".
You say you're gonna be famous, I'm waiting for your blow up,
You want to back out now? you look kinda look like you gon' throw up.
Being poor as fuck I'm surprised you even showed up,
I'm sorry I said I'd take it slow but honestly I give no fucks.

I know I murdered you it's pretty fuckin' obvious,
All the fucking flavors and you chose to be the saltiest.
You try to act rich so why don't you take your rolls royce,
crash your car into a tree and flatline like that monotone voice.

Rap Battle Against Zachy ([Click to View](#))

Quote:Zachy we understand that you are bad at rapping,
but the way you speak to me I think you deserve a fucking slapping.
I'm the rap king, no god damn kid you can call "dude",
so get on your fucking knees and ... well - get cracking.
Nah I ain't gay I don't roll that way,
unlike your fat ass we know you roll all day,
you ever use your feet? Well step to my level.
Oh wait I know you can't cuz I'll make you fucking tremble.

Random Rap ([Click to View](#))

Quote:Look,
I don't mean to start a fight I don't mean to entice,
fucked up too much,
dont need me a slice,
Comin in for a second just to give you advice.

And I'm out like your bitch when she heard you spit nice.

You think you killin' in this fps but you have no aim,
you think you got a mad flow but shit you are lame,
Like you aint got no talent so no reason to spit,
And you wonder why your girl always hop on my dick.

Shit,
Kid workin fast food so he got time for a track,
drop a tape and think he's hot boy why don't you stick to the facts,
I can't even listen to your music it's so obnoxiously crap,
so when you takin' orders think why you're not on the map.
bitch.

Angel Dust ([Click to View](#))

Quote: Coursing through my veins never stoppin till the brain,
psychedelic shit I think I may be going insane.
You wanna push me away?
Fucking walk away like I ain't got much to say?
Angel dust in my system yeah you know its true.
I push it through my fucking body to get rid of you.
But no you won't come out -- you never gonna leave,
you'll be forever with me like I tattoo'd on a sleeve.
Can't stand your choices but I can't stand without you,
Ironie you help me stand, what is this about you?

What genres do you work with:
schoolin' kids

Who are you:
They call me Zen. King of Rap. Ironically no chill.

?I???po?N? - June 8, 2016, 1:41 am

What is your creative skill:

I'd love to produce music & I got some experience in web-design.

Any examples (previous work):

<http://easyboat-application13.rhcloud.com/> (School project)

<https://soundcloud.com/ramonvermeulen/remix-id>

<https://soundcloud.com/ramonvermeulen/ideetje>

<https://soundcloud.com/ramonvermeulen/audien>

<https://soundcloud.com/ramonvermeulen/id-8>

<https://soundcloud.com/ramonvermeulen/unicorns>

What genres do you work with:

I'm a huge fan of Future Bass, but actually I'm a huge fan of music.

I'd love music almost of any kind but I mainly like to listen to underground music.

Artists I know of they gonna be huge one day but aren't at the moment.

These artists mainly make damn good music, some examples of what I'd like (Not just underground):

[Video: <https://www.youtube.com/watch?v=niYGWIFW5k8>]

Stupid max video limit per post :/

<https://www.youtube.com/watch?v=MbYuEEU5e50>

<https://www.youtube.com/watch?v=uFjWYmzXC1Q>

https://www.youtube.com/watch?v=D1sZ_vwqwcE

<https://www.youtube.com/watch?v=CGCnoVrgf9c>

As you can see, quite a variety of music.

Who are you:

Well my real name is Ramon, I'm 17 years old and I'd live in the Netherlands.

Last year I graduated for High School and nowadays I'd study software & information engineering.

Quite a fun study but I have less time for producing music lately and that kinda sucks.

But this summer I'd like to fully start producing again because I have a big love for making music and sharing it with people all over the world.

Beside study-ing I'd also like to go to the gym, hang out with friends and party a lot.
