Don't waste any of your time or money on any of the eBooks on this forum all of them are complete bullshit promising nothing but lies, I'm not trying to sales trash but it's the truth. Private message me if you'd like some tips on how to make at least £10 a day using common sense and a website, I don't want anything in return.

First of all, HackForums is not your personal army and won't just spoon feed you with how to make a "lot" of money.

Try e-whoring if you're new to making money online.
