Too much red imo, Its too dark and a tiny bit strainful to my eyes. Sometimes I experience that weird Red and Blue 3d-ify illusion thing.

I like the design, is very simple and linear.

Now you just need content. Good luck!

I tried to keep the design as simple as possible and minimalistic as well. As for dark color, I think the color suits the niche. Thanks for your feedback @SlickRogue, @ShinyMK, @morfo2.
