OrcaTech has a new amazing free service! Free DDoS protected VPN access with unlimited bandwidth!

You can get your free VPN today @ <http://orcavpn.com>

Please spread the word so we can continue to offer this service! ?

<https://www.reddit.com/r/vpnreviews> Post a review here, and we will give you an API to generate VPN configurations with!

ChromosomeCake - May 29, 2016, 11:11 pm

Works perfectly, only problem is i cant connect to HF while its on.
other than that its great!

Thank you, I am glad it is working perfectly for you!

Unfortunately, VPN does not allow VPNs so that is working just as expected ?

ciklamo54 - May 30, 2016, 3:00 pm

Just tried it, seems to be working really good ! Bandwidth is fine and my new IP is from OVH, so i'm pretty sure it's DDos protected :)

Nice job, Syracusia, vouch for this user.

Just one thing... do you keep any logs ? :)

personuhpoizon - May 30, 2016, 3:06 pm

I am giving OrcaVPN a well deserved vouch. It is DDoS protected and bandwidth has not gotten in my way.

I will definitely check out your other products! Good job Syracusia!

Thank you for the feedback! It will ensure that we continue the operation of this free service ?

We don't keep any logs, and also there is no information required to generate a VPN ?

Thank you very much for the feedback! Please spread the word to ensure that we continue to improve this free service ?

RonzaX - May 30, 2016, 4:50 pm

It's really fast & easy, thanks for the share man!

I've sent to some of my friends, I've been with orca for a while with your booters, etc, skype resolvers, just your web hosting is pretty laggy to say the most.

GI with sales on it though!

Syracusia - May 30, 2016, 5:49 pm

Thank you for the feedback! We are going to be improving our hosting drastically very soon. ?

johnripper - September 1, 2016, 11:49 am

Does it support portfowarding?

Syracusia - September 1, 2016, 2:18 pm

(Sep 1, 2016 11:49 AM)johnripper Wrote: [\[CITE\]](#) Does it support portfowarding?

Use it in synergy with AthenaLayer for that. ?

slowbroslloth - September 1, 2016, 4:31 pm

looks good thanks for the vpn

yotoprules - *September 1, 2016, 4:36 pm*

Umm, I thought this was free?

Stitch - *September 1, 2016, 10:32 pm*

Same. I thought it was free but it's not.
