The paper plug hooked up the paper

(Mar 27, 2017 03:37 PM)iBangSoccerMoms Wrote: [\[CITE\]](#) Got an 85% on the essay he did for me.

The criticism that the paper got was:

1. Too much quoting from sources, should paraphrase more
2. The intro sentence focused on 1 term when the paper was about 2 terms. It was hard for the grader to understand what the paper was about. Using both terms in the topic sentence helps the reader know what's going to be in the rest of the essay.
3. To end the paper, you should have connected the main ideas from both terms to finalize the paper. Instead it ended really abruptly.
4. The paper really stressed on connecting both terms together, but the entire paper's structure seemed to be separate from each other.
5. Grader was really distracted by the way you used quotes. You would say stuff like "On page xxxx of_ reading it said" when you could just use the quote and cite it (MLA format)

Overall even though it seems like there is a ton of criticism, the overall writing was clear and the info was explained correctly for the most part. I'm happy with the 85.

iBangSoccerMoms - March 27, 2017, 3:37 pm

Got an 85% on the essay he did for me.

The criticism that the paper got was:

1. Too much quoting from sources, should paraphrase more
2. The intro sentence focused on 1 term when the paper was about 2 terms. It was hard for the grader to understand what the paper was about. Using both terms in the topic sentence helps the reader know what's going to be in the rest of the essay.
3. To end the paper, you should have connected the main ideas from both terms to finalize the paper. Instead it ended really abruptly.
4. The paper really stressed on connecting both terms together, but the entire paper's structure seemed to be separate from each other.
5. Grader was really distracted by the way you used quotes. You would say stuff like "On page xxxx of_ reading it said" when you could just use the quote and cite it (MLA format)

Overall even though it seems like there is a ton of criticism, the overall writing was clear and the info was explained correctly for the most part. I'm happy with the 85.

Walmart Prices - July 6, 2017, 12:13 pm

Last semester I spent over \$500 on two different papers. They had to read some short stories that I provided all the text for (roughly 50 pages). I also provided teacher instructions. I never even read the stories and I read their writings and thought hey were pretty good. Turns out there was a lot of random information that the writer basically decided to add to the story. Got a C on one of them and an F on the other. I will definitely be using you when I need something written.

Just some online source that I found. I'll have to figure out which one it was and let you know. But they were 850 word papers. I paid extra for the highest quality writers and for it to be proofread and for it to be done quicker rather than later.

How much is your online course discount for and for how long will it last?

31c6fe2dd1 - July 29, 2017, 2:09 am

Online course discount varies per course and how difficult/long it is - if you buy more than one course you get more of a discount! And it will last till I decide it ends, maybe a week or so.

Windows - July 29, 2017, 2:26 pm

This looks really interesting, though surely not many people have online courses over the summer?

Vouch for iambic.

My grammar is decent, however I'm not native speaking, which means that certain grammatical mistakes is unavoidable.

I hired iambic to proofread my site, and within 24 hours after payment he had set up a very clean and structured document, where he had rewrote a lot of phrases, and fixed a lot of grammatical issues.

I'd recommend his service to anyone that's serious about either their studies, or their business'.

Huge vouch for Iambic . Last year he wrote around 5-10 papers for me throughout the course of my year. All papers were done with precision and perfection, I sometimes had to make minor adjustments as he is from the UK, and I'm from USA, so his formatting/spelling of certain words was off, but he can fix that if you ask him!!

I will be using him again this year, certainly, once needed!

Don't hesitate to message me if you have any questions about his writing, and grades I received.

I was skeptical at first. I had a very important math assessment I needed done and it seemed like he only focused on writing. After some talk, I decided to contract him to help me with the assessment. On the day we were supposed to knock it out, the server was down and I couldn't access my work. He was very understanding and moved me to another time slot the following day. All the questions he answered for me he got correct and overall I got an A on the assignment.

I will 100% be coming back to him for future work. A truly legit businessman on this forum.

Thank you!
