So 0,5€ if someone you refer just creates free account? Sounds good, i will test it out. I mean if this is legit you can just refer yourself with vpn and get unlimited free 1€ and cashout on one 1€, nice.

You'd need to refer 100 people per day to make \$50 a day.

Spamming forums obviously shows you don't make shit.

Title of this thread is bullshit and we all see it. You'd be lucky to make \$5 a day.

markoboy22 - May 30, 2016, 9:29 am

Well its only 0,50 for US or UK so its not worth it

I thought that myself too, but that takes many hours to ref yourself 100 times, and you also need to create trashmail accounts. Its boring as fuck but maybe i will do it once
