Thread: [Any Artists Want Their Work Published In A Game](#)

MrJamieMcC - May 30, 2016, 4:21 pm

Hello Artists.

Background -

I am looking for 6 artists who want their work to be in a game. The game is a Bar Simulator Game which is due to be released this year. It is in its early stages of development still though.

I am offering this to any artists who wish to try and break into the industry and have some officially published work in a video game.

I have established my own "company" called [Classy Games](#) in which I have a "deal" with [Hot Cross Games](#) and Trapdoor Games to get my work published on Steam.

I also have close connections to Sony (Guerilla Games) who developed the game Killzone, Ninja Theory who developed games Devil May Cry and Hellblade and Jagex who made Runescape.

It's really hard to get forward in life. And I understand this. This is why I am offering this experience for new comers. This is not an instant golden ticket to work for Sony or Microsoft, this is to gain experience working for a company to develop a game. There is no payment but when the game is released you will receive a free copy on Steam and your name will be in the game credits as well as your portfolio shared with other professionals in the industry.

The Task –

Basically in the game there are alcoholic drinks. But we can't use real brand names such as "Carlsberg" or "Kopparberg" and have to use made up brand names that sound similar to the original. Such as "Charlesberg" or "Properberg". The task is to create a logo for the brand which will be used in the game.

Here are some examples:

Spoiler ([Click to View](#))

As you can see the brands aren't real but users get the hint to what the original brands are. You are free to create new brand names of other popular drinks or ask for some of the ideas we have. Unfortunately we don't need any more Ciders and its Beer we need. Some names ideas include "Tuborg" = "Chewboard", "Carling" = "Vanling", "Fosters" = "Mosters". Etc. If you want to come up with your own name please ensure that the original brand is well known.

If you want to give this a go then please comment AND PM me that you're interested.

Note: If you need help/want help setting up your portfolio like [My Portfolio](#). Then feel free to ask and I'll be more than happy to help.

Requirements -

1. A PSD file and PNG must be provided
2. The PSD file should be 1000px x 1000px (I can provide the template PSD)
3. The logo must be a circle (I can provide the template PSD)
4. Brand must not be copied or very similar to another brand

5. Brand must have a "Product of Info" (You can use your hometown if you wish)
6. Brand must contain an ABV %.(Alcohol by Volume)ranging from 3.5% to 7%
7. The brand youre "copying" should be well known

Other than that. Go wild!

If you have any other questions please feel free to ask
Still looking for anybody who wants this opportunity
