Thread: [iopage.com Website Ideas / How much would this domain be worth?](#)

WakenBake - May 31, 2016, 10:37 am

So, as the title says I have the domain iopage.com . If you guys have any ideas as to what kind of website would be profitable to set up on this I would really appreciate it!

Also, I would like to know what would be the value for this domain if I were to appraise it?

Basically you can make a review of the .io games because the .io is popular for those.

And for appraisal, you should post in [Appraisals and Pricing](#)

Thanks for the tip about the games , will keep it in mind .

NOTE: I'm not appraising it here , just asking what for people's opinion as to how much it would be worth.

I honestly don't think that domain would be worth alot.

Maybe someone will create a product with a similar name or something and pay a lardge sum of money for it.

Good luck op.

Asking for what something is worth is called appraisal (= act of estimating value; not necessary monetary)
