REPOST BECAUSE HE DIDN'T REFUND ME!

User in question - <https://hackforums.net/member.php?action=profile&uid=1868874>

So, recently I bought a \$20 AGC off of this guy. I went to buy something today and for some reason the order was cancelled. I go to "My Orders" which requires you to log back in again. I type in the correct password and get an error. The error was a wrong password error.

This basically means that the payment method you used was fraudulent. So by that logic, his gift card was fraudulently obtained.

Second time getting scammed. Heh.

Note - I'm changing up my ToS so I won't get scammed anymore.

you retarded fuck

You're the retard here. You specified your UID in the autoshop just like everyone does.

User refunded me. Closing the report.
