Thread: [Web UI Design using Sketch 3 Video](#)

aesir32 - June 2, 2016, 9:47 pm

Here's a Video Time-lapse of my work flow in creating Web UI Design for Sports Team using Sketch 3. Like this video and subscribe to my channel for more videos.

Really nice layout, good color scheme that's easy to look at. And overall very nicely done. Keep up the good work OP.

PNH. - June 5, 2016, 5:09 am

Oh very nice designs man, and your video, is good edited, but I think you can do a speedart, and your video will be more light, althought this is a timelapse no a speedart and this is good. PD: Imao

aesir32 - June 16, 2016, 6:33 pm

@Classy Thanks for your feedback

@rae Thanks and it's already speedart yet I don't want to make it as fast as possible because I want users to learn how I did things :)

Nice work, although I don't think Sketch is the best program for web design.

firecode - June 19, 2016, 6:14 pm

goodjob mate !
great layout !

kayseth - June 26, 2016, 4:52 am

Wow this is really awesome! thanks for the tutorial man!

Pythonized - June 27, 2016, 4:14 pm

Amazing.. Absolutely Amazing!
