Thread: [Interest in 'premium' 'curvy' MILF e-Whore pack?](#)

There is 'loads' of footage - hundreds of pics and quite a few videos, including shorter 'Kik' videos, some of which are 'personalized' (few different names). In most cases, having these would 'suck' as that limits your potential buyers, but maybe as soon as you get lucky and get a client who has that name, you could strike gold and like ask him for higher amounts for the video (or if he asks you to do a video which is covered by this, you can charge him a lot).

Just tossing this here - I'm pretty sure many of 'us' who aren't willing to ewhore with someone like her, but I think it could definitely work.

She's a MILF, like in her early late 20s, early 30s, curvy and in some footage more than just curvy. She has glasses, but there's also footage without.

Clips include blowjobs, deepthroating (separate clips), forced fucking, fucking, anal, some daddy videos (not a lot of mentioning, mostly just at the end), one or two GG, one with pee I think, some cumshots, masturbating (fingers, dildo, vibrator), titty bouncing.

Thoughts? Would this be interesting enough for someone to pay small amounts for? I see some packs going for \$20 something, but considering she's not a teen or like early 20s anymore, not really fit, would this go for say, \$5?

How do we manage to find these packs, and how do we find the right packs that aren't already on [BRAND NAME REMOVED], and stuff like that?
