Thread: [Would Currency Exchangers Paypal take MyCash Cards?](#)

Casian - June 3, 2016, 5:00 pm

I want to keep my PayPal traffic to a minimum so was wondering if any currency exchangers would be willing to do this. I have a verified PP but just don't want much activity on it as I plan to buy large amounts of BTC soon. Would people do this? Or is it too sus?

The only way to find out is to ask them. Also, Canadians won't do it because we can't redeem them in Canada...unless I'm an idiot.

Second this, you can't redeem or buy them in Canada.
