Thread: [DarkFedora.com | Free VPN 4 ALL HF! | Port Forwarding | 13+ Locations | Custom Client](#)

Nalum - June 3, 2016, 5:47 pm

Hello Fellow HF Users

[img]http://darkfedora.com/F1.png[/img]

I have decided to offer all the users of HF a free VPN with a multitude of features including a custom client, Port Forwarding and 13+ Locations.

Feel Free To Donate: 1LdKGEZebCFBe12m9w63LLK6VgA8dRCSx3

Visit <https://darkfedora.com> on the lower part of the website you will find a section titled free trial code generator, below that you will find a generated code that you will need to copy. Once copied client the register tab and create an account, use the code you copied to redeem your free month of service.

These codes generated on the homepage will always be unique and will always work. Once your membership expires visit the homepage again and get your self another code to renew your membership.

All packages purchased will be going towards the cost and operation of the VPN and to improve this service i offer to you guys out my own pocket.

I hope you enjoy this service and that you find it useful, feel free to open a ticket should you encounter any bugs or if you have a feature request.

CUSTOM CLIENT HAS NOW BEEN RELEASED!
HEAD OVER TO OUR WEBSITE AND SIGNUP FOR AN ACCOUNT YOU WILL THEN BE ABLE TO DOWNLOAD THE NEW CUSTOM CLIENT!

Here are instructions for users who are not familiar with setting up/using openvpn:

Quote:OpenVPN GUI Instructions:

1. Download OpenVPN GUI from <https://openvpn.net/index.php/open-source/downloads.html> If you have a 32 bit operating system get the 32 bit version, if you have 64 bit operating system get the 64 bit version.

2. Install the software, then login to DarkFedora.com and go to the Downloads Tab. Download the config zip folder.
Extract the files.

3. Place the files in the following directory:

If you installed the 32 bit version: C:\Program Files\OpenVPN\config

If you installed the 64 bit version: C:\Program Files (x86)\OpenVPN\config

4. Launch OpenVPN-GUI as Admin

5. Right click on the OpenVPN-GUI icon in your task bar and you should be able to connect to the different servers.

6. Enter the credentials provided to you on the right on the dashboard page by clicking <https://darkfedora.com/members/index.php>

Here are some speedtests i ran to test the speeds of some of our locations.

VPN Speedtest (All Speed Tests were executed from Florida)

New York VPN Speedtest:

Thank you so much sir, appreciate every bit of help you provide us with.

How do you activate your free account?

UPDATE: Nevermind lol im retarded

Circle-- - June 4, 2016, 7:47 am

Vouch for ink, just downloaded everything and set it up, works well! Thank you!

Skylord - June 4, 2016, 7:50 am

Damn this is pretty cool, good community service!

You should drop your BTC addy somewhere in thread for peeps who may want to contribute..

SIM-2914476 - June 4, 2016, 7:51 am

VPN's name is DarkFedora and the Logo is White :derp:

?Kill? - June 4, 2016, 7:57 am

:derp:

I was using the black version of the logo but you cant see it on HF i thought it was funny but i dont think most people understood my humor haha! it is dark on the website however!

Not a problem! check out the custom client im sure you will like it!

Nico_Nico_Douga - June 5, 2016, 11:33 am

That's a lot for sharing this man. I really appreciate it.

xMurqFuzionz - June 5, 2016, 11:41 am

i keep getting auth failed even tho i reset my pass, any help? thank you

Are you using the numerical username and stuff which would be displayed on the dashboard?

Stomedy - June 5, 2016, 4:46 pm

Thanks for the free vpn. I really appreciate it.

thedakkle - June 5, 2016, 4:51 pm

posting to come later. Thank u

hebrolexx - June 7, 2016, 6:11 am

keeps getting auth failed am i doing anything wrong

Zarokee - June 7, 2016, 6:23 am

Looks solid, thank you. :)

Tonckkk - June 7, 2016, 10:43 am

Authentication failed what am I doing wrong guys plz help me ?

Nalum - June 7, 2016, 12:07 pm

Don't copy paste the password, write it out by hand.

KingBacon - June 7, 2016, 12:10 pm

Great VPN! Thank you so much!

packetsfam - June 7, 2016, 12:23 pm

Will be trying this out. Thanks @OP.

Nalum - June 8, 2016, 11:51 pm

new site has been launched, enjoy!
