Thread: [Scammed by Stolen... \(UID=885591\)](#)

Otakutrash - June 3, 2016, 6:04 pm

The user [Stolen...](#) who has had 4 scam reports all dating back in 2012. He has recently made a [post](#) promising \$130-\$300 per week for \$50 per month paid in btc.

He has allegedly sold 20 slots in his service, me being the 20th. In this method he abused the system where which he allegedly worked at, promising those who paid him a prepaid card with the money on it.

The money was not delivered at the agreed upon time, and has led me along with other investors under the influence we have been scammed.

So you thought you found an autopilot method without even thinking? You would just invest 50 and then get rich?

If you are so naive, eventually someone would surely scam you. Learn your lesson and move on.

What he did was abuse an employee tracking system for a distribution center.

Chill bro. Im sorry if I was rude.

Pist?I - June 3, 2016, 8:35 pm

Damn I thought this was me for a sec lol

Joy - June 3, 2016, 9:01 pm

Good luck getting this solved. I got scammed too.

Legit report @OP. Sorry to you 19 for your loss. This dude stole more money than what should have happened; nearly 1k. ?

Should have DWC and checked his previous reps though.

I thought it was you...coz your dd on first spot, then this dd on second spot...?

Roofiezz - June 3, 2016, 11:33 pm

so close to doing this, then thought about it and thought it's too good to be true. Unlucky mate, just be thankful it wasn't more!

Also posted this in his topic: <https://hackforums.net/showthread.php?tid=5282717>

Why would anyone go with him considering his rep....

I mean look at this conversation and tell me, WHY would someone who can get 200\$ to 400\$ give away money and only receive 50\$ a month for it????

You must be blind to fall for this especially considering his rep and that he scammed for just 15\$ before

Stolen... Wrote:.Ill Wrote:Stolen... Wrote:.Ill Wrote:Stolen... Wrote:They pay to a prepaid visa. You can withdraw cash at an ATM. I believe the ATM fee is \$4.95. My friend works at a certain company in the area. It has over 1200 daily employees, so it's easy to get away with. He makes a fake ID badge, with a fake name and picture and scans you in for the day. There's no labor tracking, so there's no way to see which employees are working and which aren't. So you get paid every Friday.

No work on your end. We'll scan you in daily.

Sounds good and risky. So what do i need to do to get in and how will i be paid?

Not risky on your end. We don't use real details for you. It's \$50 per slot. You get paid to a Reloadable Visa. You can pick one up, or I ship them out to customers with more than 1 slot for free.

ok great, well i am in then for 2 slots. How much estimate will that give me each friday?

And how do i need to pay you, btc/pp/skrill or?

I assume this can be done when we can withdraw from atm or does it needs to be upfront?

?

Is the payment to me upfront? Yes. It's BTC. 2 slots would be \$260-600/week. \$400 average.

Sorry for ur loss guys but be honest you could easily prevent this by looking at his rep and just think about it for a second.

Instant Panel - June 4, 2016, 2:26 am

Sorry for your loss bro. Feeling sad for those 19 people who made payment for this shit. Check user rep and activity before doing business.

Otakutrash - June 4, 2016, 1:28 pm

Honestly \$50 isn't much. I tracked him down and messed with him in return. His girlfriend is about to leave him thanks to me, he is fired from his job at cvs.

? TAQ ? - June 4, 2016, 1:30 pm

He's not the only one running around claiming returns to people with such method. Also....why'd you choose such an annoying font for the thread? Looks legit, good luck with this dispute OP.
