Looks great, but you should add an about and pricing section.

Nice, very simple and good looking.

Might use this somewhere soon.

Looks sexy simple and clean.

Looks nice and simple, however it is a bit too 'minimalistic'.

I'd suggest adding pricing, about, contact, etc.

Great design, nonetheless!

Yeah it was meant to be more of a base for people to use, and add other things seeing how I did it!
Thank you very much though :)
