[HashOcean CloudMining](#)

Hello,

What is Hashocean?

HashOcean is one of many BitCoin Cloud Mining providers and offers everyone the opportunity to cryptocurrency Bitcoin (BTC) to invest. Here you have to provide any own resources such as graphics card or PC. HashOcean already exists since 15.10.2012 and with nearly 500,000 users around the world in my opinion it is one of the most serious and most transparent Bitcoin Mining cloud providers with years of experience. In HashOcean obtained a lifetime gains and is as long as the platform available because it has been invested in the processing power of the graphics card and these digs for every day Bitcoins. If you have no desire for Cloud Mining can simply withdraw his investment in graphics cards and these can be sent by post easily. HashOcean has 7 worldwide data centers for Bitcoin mining.

Benefits of HashOcean

You dont need to invest a lot. You will get by the link below 15 KH / s immediately free.  
Invested capital may at any time be repaid by graphics cards  
It does not invest in dubious products or has tons of new people so reinbringen it still works  
All daily gains achieved can be automated transferred to the own wallet and every day!

Conclusion of my experiences with HashOcean

After I've made for months BitCoin Mining thoughts and was on the verge of several thousand euros to put in a decent Bitcoin Miner, I fortunately came across HashOcean or Bitcoin Mining cloud! When BitCoin Cloud Mining mainly the high cost of electricity are bypassed.

I've been here several weeks and am with 15 KH / s started. When I noticed that it works great, I've invested with my buddy 3 BTC. I get now my daily BTC awarded to my wallet. Every day \$ 27. If you are registered, you can calculate how much you can be earned each day.

I would be pleased, if you register via my link below.

Hashocean is almost definitely a ponzi scam. There is a ton of evidence to support this claim, and little if anything to suggest otherwise. See the thread in my signature for more information.

See the thread in my signature for more information.Yes i know that, but i gave it a chance because this site is still online since 3 years. and many people got his investment+ Big Win back. So i think if it stay online 55days, you got your investment full back. After these days you will take your win:) As a said allready i get my money every Day on my Bitcoin Wallets.

Youve got with any Money Investment a little bit of Risk.

If you know it's a likely ponzi then why are you advertising it? This makes absolutely no sense to me.

i know that this site any many more can be down every day. but since 3 years this site is online and i get my money each day. if you survive these 58 days you not made losses anyway. you can click on my wallet and can see my profits of these method. Every Investment are a bit risky.

i hope you understand my bad english:D

if you have any questions feel free to ask.

Using it for a while now. I got my investment already back and now making profit. I totally recommend it. I dont care if it is "ponzi" I am making profit, and if you know how you can make it too. Just don't be greedy and everything will be fine.
