Thread: [USA Address for shipping?](#)

Powder - June 6, 2016, 5:29 am

I'm not from the USA but I'd like to order something from there. The store only allows a USA address though. Which service is the best and cheapest (With shipping, handling etc.) for such things?

Reshippers, Google it, there's plenty to choose from, make sure you get one with good reviews though so that they don't tamper your packages.

Example: <https://www.shipito.com/>

Thanks but I found some already. I was looking for someone with experience though.

I've used Reship.com (or whatever the major site is. something like that).

They're pretty fast and people used to give out promo codes for the site to save on a few dollars for the repackaging. I think I paid 30\$ for a 12 lb package.

Thanks for the suggestion.
