Sup, guys! I'm curious to know what you guys do for fun or to relax when you have the time.

Usually, if I'm not out skating, I'm inside playing guitar, browsing HF, or getting bitched at by my girlfriend. ? How about you?

I usually workout, play some basketball, browse Hack Forums, or play some Xbox. It is kind of the same routine for me everyday. I try to mountain bike when I can. One of my friends got me into it this summer and I am really enjoying it. Pretty solid adrenaline rush.
