Sooo, yesterday somebody asked me to show recent proof of earning of my method, I then worked hard today to make a good amount to brag. Worked around 3 hours for this, it was a bit slow this time but only because I had to retrieve my account and all my contacts (since I stopped this sometimes ago).

Here's the proof, it's Hipay.

Pretty proud of me, I've paid my whole holiday in just one day.

Everything is white hat, so I just ask a bank transfer from Hipay. They take a commission (0.61€)
but everything is fine :D
