Thread: [Hackforums From 2007 - Today ~ Screenshots // The Clover Edition](#)

Raymond Reddington - June 7, 2016, 12:31 pm

Had a lot of time to spare and so I made this chronological sequence of how Hackforums used to look from 2007 till date.

1. 2007

Spoiler [\(Click to View\)](#)

How cute Omni used his real name ?

2. 2008

Spoiler [\(Click to View\)](#)

3. 2009

Spoiler [\(Click to View\)](#)

4. 2010

Spoiler [\(Click to View\)](#)

5. 2011

Spoiler [\(Click to View\)](#)

6. 2012

Spoiler [\(Click to View\)](#)

7. 2013

Spoiler [\(Click to View\)](#)

8. 2014

Spoiler ([Click to View](#))

9. 2015

Spoiler ([Click to View](#))

10. 2016

Spoiler ([Click to View](#)) Don't be lazy. Just go to the home page. ?

HF has bloomed like nothing else in these 10 years. Now, I am not a very old member, but its good to see the past this way. If you have old images, please post here and I will include it in this thread.

Wow thats pretty cool. I havent been here for long at all and its awesome to see how much things have changed

Tech - June 7, 2016, 12:33 pm

I was three days away from joining in 2011. Still I miss the old site. Brings back memories

damnsonWheredYouFindThis - June 7, 2016, 12:33 pm

Ah yes, the good old days

Nasyr - June 7, 2016, 12:34 pm

I actually clicked the 2016 one as well lol. I was curious if it'd have a 1.8 preview ?

diiaz - June 7, 2016, 12:34 pm

AHHHH. I love the 2013 theme. so gud.

Pittinger - June 7, 2016, 12:35 pm

Check out the progress of the percentage of upgraded members in the Online list. Pretty cool to see.

Nice post, but I wish some of the images weren't broken. Oh well that's archive.org for you.

Hah,

About time when we have the new update, it will be added to Archive and the existing theme will

become a nostalgia.

Nice post, but I wish some of the images weren't broken. Oh well that's archive.org for you. The only broken image is from 2009 when Omni disallowed VPNs and proxies for the first time. Even the Archive crawler wasn't able to screenshot it.

I have no idea why I was hoping it was going to be a new theme haha. Pretty stupid thing to think on but you know gotta be open minded.

Inj3ct0r? - June 7, 2016, 12:53 pm

Looks like someone is doing a lot of work :p

Raymond Reddington - June 7, 2016, 12:53 pm

The screenshot from 2007 is as if Omni just launched the forums.

DingusMonster - June 7, 2016, 12:55 pm

Cool seeing HF from way back ago. Thanks

Corpse - June 7, 2016, 12:55 pm

Dang. I kind of wish the theme from 2010 would come back. It brings nostalgia from when hf was a much better site to browse.

Grammar Rays - June 7, 2016, 12:56 pm

See now I remember there being a portal page but I think it was only on here pre-2010 so I'm not sure how I remember it.

Must have been multi-accounting back then, I really cannot remember.

Zexo - June 7, 2016, 12:57 pm

ahh the days lol.

On a side note i remember back in 2011 when i made an account and lost the password but that was when I loved it most.

Undefined - June 7, 2016, 1:00 pm

In my very nostalgic opinion, the 2008 theme was the best.

Knucklez. - June 7, 2016, 1:02 pm

Cool thread OP. I found it pretty fascinating looking at the amount of registered members each year. It really blew up over the years.

Krave - June 7, 2016, 1:07 pm

This is pretty damn cool, thanks for the share. I do miss some old HF stuff.

????? - June 7, 2016, 1:39 pm

Ahh this is amazing, I can just remember the 2012 theme back when I joined, there's something so good about that but right now I love the current black theme userscript

Yakless - June 7, 2016, 1:48 pm

"Had a lot of time to spare"

I bet it took you a really long time to take those nine screenshots. I'd also like to point out that there have been so many of these threads that it's starting to get pretty bad.

SIM-2848947 - June 7, 2016, 1:55 pm

I would like to see a few more themes added to the selection thing in your options. Maybe have users select one when they first sign up or something.

-Nath - June 7, 2016, 2:04 pm

It's weird to see how different the theme looked back in 2007. I must say the theme looks so much better compared to what it looked like.

milkpop - June 7, 2016, 2:08 pm

It's nice to see how this place started and I see when I joined in 2014 we only just hit blue. yet I still use the purple plugin for HF now... HF go back one day. Plz omni <3

funtela - June 7, 2016, 2:53 pm

This is pretty cool. You forgot to add the 2009 one by the way. Either way this is pretty cool to look at how Hackforums first looked when I joined!

Fiz? - June 7, 2016, 2:57 pm

This was pretty cool to look at, nice work man.

Sikes - June 7, 2016, 3:00 pm

Is there like an extension or something we can use to go back to the 2013 theme?

I think current theme is pretty ugly tbh.

Raz Riverblade - June 7, 2016, 3:55 pm

Blackshadow still l33t back in 2011.

I wonder what the color code for usernames in 2007 was, it's totally different from what we have today it seems.

AAA+ - June 7, 2016, 3:59 pm

bring back memories good times I remember when HF was full of mature "hackers" now it's skids

and kids tryna act bad

?etro - June 7, 2016, 4:03 pm

I remember hackforums when in 2012. I like what has changed but I miss the leniency a bit not saying it was lenient back then but more than now it appears, and I prefer purple for HF. Purple just defines HF. Blue is nice tho my favorite color just when I think of HF and I get a picture in my head, I think purple.

.Reef - June 7, 2016, 4:05 pm

10 minutes, that's all. Just add the links to web-capture.net and it does the rest of the work for you.

Also, the thread is pretty cool IMO. Not like we see everyday, I know there are a lot of these, but meh. Be positive man.

Meowth - June 7, 2016, 9:30 pm

Like many others, I also enjoy the 2013. I wouldn't mind having that as an option to choose from. Is there a way to use the 2013 theme?

Stashyy - June 7, 2016, 10:00 pm

The theme back then looks very basic but it seems nice.

Krule - June 7, 2016, 10:04 pm

I don't think so. If Archive.org started keeping a record of every facebook page or profile, it would need a LOT OF SPACE!

It crawls websites indexed in google only.

tornmage - June 8, 2016, 11:08 am

This is a pretty awesome thread. I didn't join until 2013 so I didn't get to experience much of HF's molding. That's also a pretty neat site you used, I've been trying it out on a lot of websites. :)

Granny Bacon - June 8, 2016, 11:09 am

I am actually impressed that Omni managed to get far with this forum in one year, looking at 2007 to 2008, the members online count were growing drastically. Props to Omni!

Hopefully we break that online record!

Bluffer - June 8, 2016, 11:25 am

That is really cool to see how HF has evolved over the years... and with the 1.8X upgrade hopefully soon we will get to see another new look.

I also had no clue that HF started using tabs in 2010 I thought it was more recent than that.

It's almost insane how long I've been on this website. Longest forum I've remained a member on since I registered, and I had another account before this that Omni merged for me. Not into hacking anymore like I was as a kid--but the forums still a good outlet.

Wow, thank you so much for this Throwback Thursday! It is amazing to see how Hack Forums has adapted and progressed each year in terms of activity, sections, and just site design. That Black Reign theme though.. amazing.

Omniscient - June 9, 2016, 10:12 am

I miss the old theme. And this is proof that HF took years to develop into a successful forum. Shame that so many think they can start it and have it do great in the first month. Doing things like having upgrades and paid groups immediately. Took me a number of years to add features. Most of the work was simply SEO and plugin writing.

Also, I didn't spam even one single competing forum with advertisement. And oddly enough the largest forum spawned by an ex-HF member didn't spam HF either. Something one has to admire.

Creating a community is work, experience, and long-term dedication. That's the plain simple truth.

Quote:I think current theme is pretty ugly tbh.

It's partially intentionally so. If I had a nice theme it would be copied more. :)

Quote: i remember when HF was full of mature "hackers" now its skids and kids tryna act bad

You have a terrible memory. HF has the same type of userbase now as it did back then.

Quote:and I prefer purple for HF. Purple just defines HF

Purple version of this theme is in your UserCP options.

Quote:No as in numbers registered, it went from 450k to about 2.6 million

Statistic was changed to reflect the members joined. I was pruning so many accounts I felt that statistic didn't reflect our activity well enough.

Quote:I am actually impressed that Omni managed to get far with this forum in one year, looking at 2007 to 2008, the members online count were growing drastically.

That was my coding and SEO work finally paying off.

Quote:Where did he use his real name?

I still use my last name as a forum name at a lot of places. I've never hidden my identity as the owner of HF or any other site I own.

I never bought it myself but have been HF UB3R 2/3 times.

Can't remember for the life of me who upgraded me, I assume Omni could probably find out if he really wanted but 1. isn't worth his time, 2. they're probably gone now.

I don't know if it's just me but I was in love with the original Hackforums theme. It just blended so well and brings me so much nostalgia to see it again. ?

BWA. - June 11, 2016, 2:55 pm

The progression and the fact it has been active for such a long period of time amazes me. I bet Omnicient is a very proud guy.

I miss the old layout back in 2008. But I guess everything needs to be updated.

But you need to give other designs a chance. But it sucks that Omni removed the old theme we had

for a while.

Thank you for all the pictures. I'm on phone so I can't add to them to OP. Nevertheless, they are awesome.

Most of them are from just random screenies Ive done over the years.

HypeBeasts - June 12, 2016, 5:29 am

I really dislike all of themes personally, although I prefer the current one to the past one. Seems I only jumped on the hype train too late ;-;

mrnapolean1 - June 12, 2016, 9:38 am

I have some more images from days gone by.

This was a member getting some help in the Windows 7 Forum. Just read it and you will laugh.

So throught the 7 years you didn't change your browser.

No I was eventually forced to change. Firefox 3.6.13 was showing its age and I didn't like the new Australis interface the new versions of Firefox had adapted to.

Firefox 3.6.13 took its last dying breath on October 11, 2012.

I have since then been able to almost replicate the old school look of Firefox while maintaining a stable and secure core.

sk0rg3 - June 12, 2016, 10:09 am

Great job OP, the memories some of the those themes bring back

2014-2015

SkullTraill - August 8, 2016, 12:47 am

Kek does anyone remember when the postbit was on the side instead of on the top like it is now? Fuck me. I wasn't even registered back then. Just used to read shit. Can't believe no one has a screenshot of the old postbit. It's one of the biggest visual differences of old (and I mean REALLY old) HF.

Heartboy - August 8, 2016, 12:48 am

Damn, I miss the good old purple and green layout. That's true Hack forums right there. ?

Ah the memories. The layout may have changed but the cunts and Lounge fags remain. Thank the good Lord above for that.

Torc - November 19, 2016, 4:50 am

I like the 2011 - 2012 one the best. Looks simple and clean. Also like the purple.

ANNOUNCEMENTS - November 19, 2016, 4:58 am

I had no idea how much the forum had changed over time, wish I was here back then just to be able to say that I was one of the OG's and damn 2007 HF as not at all popular

Dar?k - November 19, 2016, 5:00 am

Yeah, I remember 2012 and I miss the old layout

Dredd - November 19, 2016, 5:01 am

I remember that 2013 theme looks a lot cleaner now.
