How much investment do you need? Is this dropshipping? Do you provide support?

Do you provide support?I make 50% profit and I use FBA to handle all my inventory and amazon ships out all my product. I do not hold onto any product at my office. I put in about \$1,000 in the beginning for inventory but your guaranteed to make money if you follow every step. You can start big on inventory or order a small quantity then order more after they all sell.

Why sell this for \$200 if you are making at least \$1000 a day?

Or is it basically exclusive so only a few sellers since a lot of sellers might make the price drop.

There is 355 Million products on amazon to choose from! You will be private labeling a product from china. EVERY single step is included in this.

Last time I invested in a method like this it didn't work, or it was a leave scam.

nn4h - June 8, 2016, 6:10 pm

would also like to know if this involves alibaba, aliexpress, dhgate etc.

I order ALL my product on Alibaba shipped straight to the amazon warehouse. This method isn't a one day make \$15,000 a month type of deal. It took me about a month of doing everything and now I'm at about \$15,000/month in 3 months.
