(Jun 7, 2016 07:12 AM)Yin Yang Wrote: [\[CITE\]](#) Here is my unbiased honest review of Whitehat Money Machine. As always any deals on HF are at your own risk and I will not be held accountable or liable if something happens.

Grammar: 10/10

There are no grammatical errors that I caught in this eBook.

Conent: 8/10

This ebook contains an in depth and unique method that you can use to get your initial investment of purchasing the eBook back, and then eventually profit. The ebook is very informative and

detailed.

Originality: 9/10

Having been on HF for over 6 years, this method, I admit, I have not seen this type of method here before.

Layout: 8/10

I liked how this eBook's layout was not plain and boring. The content does need organization with a ToC, and break it into sections. It has pictures that are helpful. However, I would include a ToS in the beginning that no one can leech or resell without your permission.

Overall: 8/10

This ebook was really nice to read. You will earn money if you are willing to put in the work for it. It doesn't require more investment than you need and you should be making \$ in no time! You can make some serious cash if it's done properly. Will try this soon and post my results!

Overall Rating: 8.1

Quality: 8.3/10

The Quality of the ebook was clear and there was no problem in reading the letters. You can find all important steps very easily, If you have problems with that though Ayden offers you support as he is online most of the day.

Ease of use 9.3/10

This is a very easy and yet effective method. You could be a child and still understand how it works, it does not need a-lot of time to do and could start bringing you money in a 1-3 days.

Layout 7.5/10

I feel as if Ayden could of done a better job designing/making the layout look better. I still like it because it is simple and you don't need a fancy layout, you just need to understand the method which the simple layout makes very clear.

Originality 9.8/10

I have never seen this method before on hackforums, nor anyone selling it. This method is very unique and it is a very good idea that you have thought of. He has written a-lot of useful tips making it more of a success in making money.

Notes

You are a very nice person. I have really enjoyed reading this ebook and I really hope you get a-lot of sales as it is unique and it can-not be saturated. Good luck Ayden.

Quote:I am in the process of writing a review for this ebook. It's very good so far, nice method. :)
Please note, this is my personal opinion of this eBook. Satisfaction may vary from user to user.

=====

Overall Rating: 8/10

=====

Layout: 7/10

The reason I rated layout low compared to the others is because there could've been more creativity used in the design. With that being said, there are pictures included in the book where required which is actually very helpful. Ayden also used Italics/Colours to help define certain aspects.

I would've liked to have seen a bit more, but it's fine nonetheless!

=====

Grammar: 8/10

There's a few grammatical errors here and there, but who's perfect. There's no real errors that will confuse you whilst reading and/or make you cringe when you're reading, so it's fine for me.

=====

Originality: 9/10

I personally haven't seen an Ebook like this on Hackforums, although I don't lurk the Ebook bazaar for vouch copies. This method is definitely worth the initial investment.

=====

Ease of use: 9/10

This is extremely easy to use. The ebook gives you the links to everything you need, as well as examples of what you need to type etc. There are also tips/tricks & 11 easy to follow steps to use this Ebook to its fullest.

Everything required is here and the steps are simple and easy to follow!

=====

I would definitely suggest buying this book. I am currently using it, I will post results as soon as possible :).

(Jun 8, 2016 06:25 AM)Good Luck Wrote: [\[CITE\]](#) I got a vouch copy of this method and I was curious to see what was inside it. Here is my honest review of the eBook.

The ebook explains how you can earn money from what already is set up and is running. Its an easy method to follow, requiring only a little technical knowledge.

I had heard of something like this way back, but not exactly this! This is way much simpler. And it will work like a charm in some countries.

Overall, I'd recommend this ebook to those who have the time to put into money making and make some good bucks by scaling it up!

Good one, sorry, missed that.

nevertheless, this doesn't seem something worth buying.

Just my opinion though, good luck

Just like you've done.

Thanks for reporting my posts but they are all relevant and I'm just a dude who's asking questions here. I don't understand..

Good luck with sales, OP.
