Thread: [\[Free\] Runtime Scans | Limited Time | 6 Popular AV](#)

Purple Kief - June 10, 2016, 9:15 am

For coders & product owners.

Spoiler ([Click to View](#))

If you're the owner/coder of a product here on HF and for some reason need a runtime scan you are allowed to PM me for it.

Sup guys, said I was gonna do this but I kinda forgot about it so it never happened. I currently have multiple VM's setup where I'll be doing runtime scans.

I'll be doing 5 - 10 of these scans for free for now. (Spread over a x amount of days period) This is me testing out how all of this works and if it's viable to continue in the future. If all goes according to plan I might turn this into a paid thing or it might remain free I'm not sure yet.

Currently I've got the following AV installed.

- AVG
- Avast
- Avira
- Bitdefender
- ESET
- Norton

How will I be doing these scans?

The antivirus will be turned on without any additional settings at start.

I will then run your file. If it does not catch it I will do a scan of all the directories your file hides in. For that scan I will use whatever settings catch my eye. (as every normal AV user would)

If the scan does not catch it I call it a bypass.

NOTE: Due to comments I will only have 1 AV per VM so you can be sure nothing is messing with end results.

What settings will I use?

I'm going to use every setting a normal AV user would use.

Basically if it's there catching my eye I'll use it.

DO NOT ASK ME FOR THESE SCANS ON SKYPE! Post here, if you're lucky you'll receive a PM from me and we can discuss further on skype. If you PM me or ask me on skype I won't reply and you'll be denied from further scans.

Posting this a bit early, I'll probably be doing my first scan tomorrow/the day after.

Leave some feedback if you think this is a good idea, or if I should go fuck myself. ?

Feel like donating?

Spoiler ([Click to View](#))

1JJgVmsrm6quqKBwRqaDCCrmkKwj4ocVYf

If you donate send me a PM so I can thank you! <3

Wardow - June 10, 2016, 9:20 am

Multiple antiviruses in the same machine are very likely to conflict and not work properly.

Purple Kief - June 10, 2016, 9:21 am

(Jun 10, 2016 09:20 AM)Wardow Wrote: [\[CITE\]](#) Multiple antiviruses in the same machine are very likely to conflict and not work properly.

I've limited it to 2 AV's per VM. Is that still going to cause trouble?

I can do 1 AV per VM but that's going to eat my HD space.

VirtualMon3y - June 10, 2016, 9:24 am

I would do one per Vm if I were you. Just limit the HD space when you Setup. I nearly did this for myself but could never be bothered! Good luck.

Yes it's going to cause trouble.

Make snapshots!

Purple Kief - June 10, 2016, 9:25 am

Very well, let me install some more VM's.

1 AV per VM folks.

Wardow - June 10, 2016, 9:26 am

(Jun 10, 2016 09:25 AM)Purple Kief Wrote: [\[CITE\]](#) Very well, let me install some more VM's.

1 AV per VM folks.

Install only one VM and make snapshots!

Purple Kief - June 10, 2016, 9:28 am

(Jun 10, 2016 09:26 AM)Wardow Wrote: [\[CITE\]](#) Install only one VM and make snapshots!

No idea what a snapshot is.

Regardless I've already got 4 set up so 2 more won't take long.

Thanks for the comments & feedback Wardow & UK. ?

Koopa. - June 10, 2016, 9:35 am

What VM software are you using?

A snapshot saves your progress, you can revert to them at any time.

I am be interested in testing your service and I will gladly pay for this to be done.

packetsfam - June 10, 2016, 9:44 am

Best of luck bro. Looks like a worthy service.

Purple Kief - June 10, 2016, 9:54 am

Interesting, I never use snapshots but I'll look and see if my software allows that. I use oracle VM but just make clones and make new ones each time I use one. Only takes a min to make a clone.

Koopa. - June 10, 2016, 10:46 am

I use snapshots, its much easier to reset what I have done, like an undo button.

bzr? - June 10, 2016, 10:52 am

Same. Snapshots are a gift from heaven. @OP If you're using the VMWare Workstation it can be found on the top toolbar with the little clock icons. Think of it more as a better and directly integrated system restore.

Purple Kief - June 10, 2016, 11:00 am

Yeah just had a look at snapshots, looks quite interesting indeed.

Still going to be doing seperate VM's for each AV tho.

Snapshots will come in handy when testing stubs for people. :)

ciklamo54 - June 10, 2016, 5:00 pm

Very HQ user and sounds like a very nice service.

Hope you don't end up like KillaMuvz :'(

anyway, best of luck !

#Skyline - June 10, 2016, 7:08 pm

Snapshots will come in handy when testing stubs for people. :)You should also research clones, so you don't get them mixed up with snapshots.

https://www.vmware.com/support/ws55/doc/ws_clone_overview.html

QU?CKSILVER - June 10, 2016, 7:56 pm

Never mix two antiviruses in a single machine. It's not effective.
One antivirus per virtual machine and you'll be fine.

INVULBOX - June 10, 2016, 9:55 pm

anyway, best of luck !! feel honored but I am nowhere near Killamuvs haha.

(Jun 10, 2016 07:08 PM)#Skyline? Wrote: [\[CITE\]](#) You should also research clones, so you don't get them mixed up with snapshots.

https://www.vmware.com/support/ws55/doc/ws_clone_overview.html I always use cloning to create new clean VM's thanks tho Sky. :)

(Jun 10, 2016 07:56 PM)DJPunisher Wrote: [\[CITE\]](#) Never mix two antiviruses in a single machine. It's not effective.
One antivirus per virtual machine and you'll be fine.Yeah.. Please read the full thread next time. :)

Really nobody aside from koopa wants a runtime scan? Damn.

Koopa. - June 12, 2016, 10:15 am

Vouch, legit user.
He did runtime scans and showed me my stub can't bypass shit.

VirtualMon3y - June 12, 2016, 10:47 am

(Jun 12, 2016 10:15 AM)?uup? W?'† Wrote: [\[CITE\]](#) Vouch, legit user.

(Jun 12, 2016 10:47 AM)UKninja Wrote: [\[CITE\]](#) Oh shit! Good service Keif is offering tho....Doing my best mr ninja.

(Jun 12, 2016 11:48 AM)ProdigyWolf Wrote: [\[CITE\]](#) Good service here! I might have him test my new crypter when I fix some thing's!:)I'll be looking forward to it. :)

Really nobody wants a runtime scan?
PEOPLE USED TO CHARGE MONEY FOR THIS YKNOW.

Purple Kief - June 14, 2016, 7:57 am

Runtime scans still available. :)

TomCrow - June 14, 2016, 8:03 am

Just make sure that you are scanning offline and after turning back internet revert your snapshot, so the antivirus wont distribute the file.

VirtualMon3y - June 14, 2016, 8:15 am

(Jun 14, 2016 08:03 AM)TomCrow Wrote: [\[CITE\]](#) Just make sure that you are scanning offline and after turning back internet revert your snapshot, so the antivirus wont distribute the file.

Haha I know you are trying to help but really?! Lmao.....?

TomCrow - June 14, 2016, 8:58 am

(Jun 14, 2016 08:15 AM)UKninja Wrote: [\[CITE\]](#) Haha I know you are trying to help but really?! Lmao.....?

Some avs store small files and sending them when they can.

VirtualMon3y - June 14, 2016, 10:03 am

(Jun 14, 2016 08:58 AM)TomCrow Wrote: [\[CITE\]](#) Some avs store small files and sending them when they can.

Yeah I get what ur saying. I was joking around with you. Purple is using snapshots of the VM's I believe and making sure there is no connection to the Internet during or after scans.

Purple Kief - June 15, 2016, 5:05 am

(Jun 14, 2016 08:03 AM)TomCrow Wrote: [\[CITE\]](#) Just make sure that you are scanning offline and after turning back internet revert your snapshot, so the antivirus wont distribute the file. Will do man, will do. Don't you worry. ;)

Still offering this, think I might keep it free for atleast a month.

Depending on amount of requests (which has been 1 so far) I'll continue or discontinue this.

Purple Kief - June 17, 2016, 6:04 am

Runtime scans?

Anyone? :)

Purple Kief - June 20, 2016, 5:02 am

Giving this a buuuump.

They're still available. :)

xRaiders - June 20, 2016, 6:05 am

i'm looking for one can you help please ?

Purple Kief - June 20, 2016, 6:42 am

(Jun 20, 2016 06:05 AM)NKMZ Wrote: [\[CITE\]](#) i'm looking for one can you help please ?

Working on your scans. ?

xRaiders - June 20, 2016, 7:08 am

(Jun 20, 2016 06:42 AM)Purple Kief Wrote: [\[CITE\]](#) Working on your scans. ?

Thank for the scan man

VirtualMon3y - June 20, 2016, 9:18 am

Nice to see this service being used.

Purple Kief - June 21, 2016, 6:25 am

(Jun 20, 2016 07:08 AM)NKMZ Wrote: [\[CITE\]](#) Thank for the scan manYou're welcome man.

(Jun 20, 2016 09:18 AM)UKninja Wrote: [\[CITE\]](#) Nice to see this service being used.Yeah it is nice, spent a lot of time on setting up these VM's.

Online and offering this boys. :)

Purple Kief - June 25, 2016, 6:00 am

Anyone else need a scan? :)

Hopsin - June 25, 2016, 7:21 am

I don't need this but thanks for being kind and contributing to HF. Much appreciated for your time and effort!

Purple Kief - June 26, 2016, 6:22 am
