Thread: [\[Free\] Remote File Executer \(RDT\) Remote Download Tool](#)

x.sporkbomb.x - June 11, 2016, 9:22 am

Im giving away my program in exchange for feedback, it is in beta

So I created this Remote File Dropper that drops exe files (your payload)
It is coded in visual basic, so yeah

The program is fud - idk if antivirus would consider it a virus but plz don't distribute
Persistence mode
Optional Startup mode
Unlimited File Downloader
Optional Shutdown program

You control the program via a Google Docs page, so no one connects to a server/dns. No need to host anything. Good if you wanna be anonymous lol.

It is a fairly simple program that can help create a botnet (I do not condone any illegal activities)

Due to the fact that I have to hardcode the google doc url into the program, I have to compile the program for each person individually. Therefore, I can not just simply give a download link. You have to actually contact me.

Im probably only going to give away 30 copies
If your interested in it, you can pm or skype me: Business-promotionals.source

All i'm looking for is feedback on my program cause it's in beta stages
If you liked it leave a vouch :)

memesaregreat - June 11, 2016, 10:22 am

Yo, I want to test this.

I'll add you on skype

EDIT: looks pretty good actually

Vagabundo Legendario - June 11, 2016, 6:02 pm

I would like to try but I cant pm yet, anyways thanks for share

I added you on skype, sorry for the wait, I was away for a few days.

?Opulence - June 13, 2016, 7:19 pm

I'll take a copy please.
thanks in advance.

Don't know if your serious or to laugh hysterically.

Laugh Hysterically, ironic isn't it

If I see any one use my program for illegal activities, will result in full shutdown of the program for the person responsible.

~ps I might be blind

How did you add me if I didnt send you anything? x)

Haxcor - June 15, 2016, 5:05 pm

Coded in visual basic? I would defiantly like to see how this works. i will provide feedback

Armada - June 15, 2016, 5:43 pm

Hook a demo up, will provide feed back. ?

CyberGateRatVirus - June 18, 2016, 12:36 pm

Thanks you very much, really good tool!

I sent you a pm with a download link

linkups707 - September 1, 2016, 5:35 am

I wouldnt mind this please..

perica22 - October 21, 2019, 5:51 am

I would like to try but I cant pm yet, anyways thanks for shares

john.corner143k - January 9, 2025, 12:44 pm

Would love to it try it out and share reviews :)

Ryzeaf - January 9, 2025, 8:59 pm

thank you i appreciatiate it
