Thread: [How to get Unlimited Xbox Live 1 Month Gold\[TUT\]](#)

Danny- - June 11, 2016, 3:34 pm

Hey guys today i will be making a tutorial on how to get free xbox live for a month on an xbox silver account useful for all of you guys looking for gold.

This may not be patched by the time your membership runs out so you may be able to use it again.

Note: The account MUST be silver

Edit 1: If you don't have a card sign up to revolut on your phone it is an account for a virtual card and it can be used to make purchases for \$0.00 or real money if you top it up. However this deal is 0.00 so no money is required

Steps

1. Go to this website address [1 Month XBL](#)
2. Log into your silver xbox live account
3. select \$0.00 "xbox live gold month"
4. add a credit card or paypal account and check out
5. Once the membership is active i recommend checking it out on your console as i had a bug where it didn't let me use gold.
6. Cancel auto renewal so you don't get charged next month

Proof that this works <3

Does it require a new account or can it just not have live?

It has to be a brand new account and can only have received this offer 1 time. I tried to buy my friend the 1 month yesterday after he had previously take advantage of the offer (A year + ago) and it tried to charge him \$9.99 CAD. Even using the link I'm prompted to pay for it.

Still pretty good if you don't play much. Just make a new account and put a 1 month on it.

If you are on xbox one too then you can make a new account and set it as xbox home then you can play online and stuff

Thanks, a lot of services have it like this but I'm glad that I know XBL has that.

Now I just need an internet connection with a latency less than my current 900ms Imfao

I miss living in the city

That is correct home Xbox on an account can be changed 2 times but you can have unlimited accounts set to home Xbox on your actually Xbox
