Thread: [Minecraft Factions Wall Bot](#)

Chatroulette - June 11, 2016, 4:41 pm

Thread Subject Says It all. I am on summer vacation and trying to get back into factions, and I am looking for a bot which auto builds walls, while auto-replacing cobblestone, not falling to death etc, it must also be pretty consistent not leaving lots of gaps in the wall.

If you have anything like this which you would want to share or is already public please let me know.
