Thread: [How To Hack WPA/WPA2 Wifi on Kali Linux Using Wifite \[TUTORIAL\] \[For Noobs\]](#)

Poroshenko - June 12, 2016, 11:53 pm

https://www.youtube.com/watch?v=mRLz-Tnd7_s

I know this is basic stuff

Please like and subscribe to show your appreciation

9h057 - June 13, 2016, 7:25 am

Sometimes they just make things so easy. LOL

Haha, true.

DI?E - June 13, 2016, 9:23 am

Good old wifite. As easy as it gets

hacker 1 - June 13, 2016, 9:25 am

i gonna try this ope works

Poroshenko - June 13, 2016, 12:18 pm

Your welcome, please like and subscribe.

The Hedgehog - June 15, 2016, 10:23 am

My laptop keeps repeating this line in the terminal:
Quote:[+] enabling monitor mode on wlan0... done

Poroshenko - June 15, 2016, 10:51 am

(Jun 15, 2016 10:23 AM)The Hedgehog Wrote: [\[CITE\]](#) My laptop keeps repeating this line in the terminal:

Are you using virtualbox or vmare?

The Hedgehog - June 15, 2016, 10:54 am

Nope, boot from USB (with persistence), however I managed to get through, I simply restarted. I tried this on my own network, but now it keeps resending stuff to various MAC addresses and waits for handshakes. This step repeats itself continuously. Any idea what's happening?

I have no idea, sorry.

sungod88 - July 10, 2016, 10:39 pm

Should probably say it really only works with wps enabled routers.

CleanZombie - July 12, 2016, 7:48 am

Google for Reaver, that will help you understand what its doing, basically its trying to capture handshakes from router/devices and force them to reconnect so it can intercept the data and analyze it to determine the key.

clawd31 - July 12, 2016, 5:30 pm

Thank you dude ! Does it works if I use Raspbian and not Kali ?

Poroshenko - July 13, 2016, 3:37 am

Yes, It does.

Dark- - July 14, 2016, 4:46 am

Thought it would be a lot harder to do tbh haha nice tutorial man will 100% be trying this tonight, respect.

SREE - July 14, 2016, 5:23 am

NICE THANKS FOR THE SHARE

No problem.

41phafr34k - February 9, 2017, 2:52 pm

Wifite -- the hacking worlds easy button

dvyjones1337 - February 12, 2017, 1:49 am

Thanks for this tutorial. It looks really simple

BinaryFox - *July 14, 2017, 11:54 am*

Thans good ideo tutoriel +1 cuy

Wea1th - *July 14, 2017, 7:53 pm*

Damn, that is easy. Thanks!

T0BiX - *July 23, 2017, 6:36 am*

You can also use the "Fluxion" script :)

Captian LoL - *July 28, 2017, 9:04 am*

Basic, but good thing to start with. Thank you

Nikolastesla2020 - *May 20, 2020, 3:31 am*

is there any method to basically Hack Wpa2 wifi networks in windows?
